

C_TS422_2023 guide torrent & C_TS422_2023 study guide & C_TS422_2023 actual exam

BTW, DOWNLOAD part of PassTorrent C_TS422_2023 dumps from Cloud Storage: <https://drive.google.com/open?id=1t2sXmj8zLhRpOx943uMZnlCY1Fb0gK1B>

There are more and more same products in the market of study materials. We know that it will be very difficult for you to choose the suitable C_TS422_2023 learning guide. If you buy the wrong study materials, it will pay to its adverse impacts on you. It will be more difficult for you to pass the C_TS422_2023 Exam. So if you want to pass your exam and get the certification in a short time, choosing our C_TS422_2023 exam questions are very important for you. You will find that our C_TS422_2023 practice guide is the most suitable for you.

SAP C_TS422_2023 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Process Orders in SAP S• 4HANA: This section covers an introduction to process order components, processing, and relevant master data objects. Overview of Good Manufacturing Practices (GMP) features.
Topic 2	<ul style="list-style-type: none">• Introduction to SAP S• 4HANA Supply Chain Planning: This part covers the background and motivation for SAP S• 4HANA, its main components, business applications, and user experience strategy.

Topic 3	<ul style="list-style-type: none"> Managing Clean Core: This section covers the application of clean core principles to enhance business process agility, reduce adaptation efforts, and drive innovation in ERP systems.
Topic 4	<ul style="list-style-type: none"> Introduction to SAP S 4HANA Production Planning: This section covers an overview of production planning components, functions, and planning approaches. Exploration of emerging trends.
Topic 5	<ul style="list-style-type: none"> Advanced Planning in SAP S 4HANA: This section includes an overview of advanced planning fundamentals and master data. Explanation of key tools and processes. Discussion of planning evaluation concepts.
Topic 6	<ul style="list-style-type: none"> Lean Manufacturing in SAP S 4HANA: This section covers repetitive manufacturing master data, line load planning, and Kanban systems.
Topic 7	<ul style="list-style-type: none"> Capacity Planning in SAP S 4HANA: This section covers a discussion of SAP S 4HANA best practices, SAP HANA database concept, SAP Fiori user experience, and embedded analytics capabilities.
Topic 8	<ul style="list-style-type: none"> Master Data in SAP S 4HANA: This section covers the exploration of crucial production-related master data elements, with emphasis on bill of material, routing, and production version.
Topic 9	<ul style="list-style-type: none"> Material Requirements Planning in SAP S 4HANA: This part of the exam covers an examination of planning strategies, tools, and long-term planning concepts. Overview of MRP fundamentals and lot size procedures.
Topic 10	<ul style="list-style-type: none"> Demand Management in SAP S 4HANA: This section covers a comparison of production methods in various manufacturing environments.

Customizable C_TS422_2023 Exam Mode | Exam C_TS422_2023 Quick Prep

Our C_TS422_2023 study materials are compiled by domestic first-rate experts and senior lecturer and the contents of them contain all the important information about the test and all the possible answers of the questions which maybe appear in the test. You can use the practice test software to check your learning outcomes. Our C_TS422_2023 study materials' self-learning and self-evaluation functions, the statistics report function, the timing function and the function of stimulating the test could assist you to find your weak links, check your level, adjust the speed and have a warming up for the real exam. You will feel your choice to buy C_TS422_2023 Study Materials are too right.

SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q29-Q34):

NEW QUESTION # 29

You have a scheduling agreement with a vendor. You want classic MRP to automatically create schedule lines in case of material shortage. What must you do?

Note: There are 2 correct answers to this question.

- A. Add the agreement to the source list mark it for MRP relevance.
- B. Set the creation indicator for purchase requisitions on the initial screen of the MRP run.
- C. Add the agreement to the quota arrangement mark it for MRP relevance.
- D. Set the creation indicator for delivery schedule lines on the initial screen of the MRP run.

Answer: A,D

NEW QUESTION # 30

Which materials have a negative quantity in a bill of material or in a recipe?

Note: There are 3 correct answers to this question

- A. Waste products
- B. Bulk materials
- C. By-products
- D. Continuous flow materials
- E. Co-products

Answer: A,C,E

Explanation:

Materials that have a negative quantity in a bill of material or in a recipe are those that are produced in addition to the main product during a production process. They are either sold or disposed of, and their costs are apportioned among the main product and the co-products. By-products are materials that have a low value compared to the main product and are usually not planned in advance. Co-products are materials that have a high value compared to the main product and are usually planned in advance. Waste products are materials that have no value and are discarded or recycled. NEW QUESTION # 31

You Have a scheduling agreement with a vendor, you want classic MRP to automatically create schedule lines in case of material shortage, what must you do?

Note: there are 2 correct answers to this question.

- A. Add the agreement to the quota arrangement and mark it for MRP relevance.
- B. Set the creation indicator for delivery schedule lines on the initial screen the MRP run.
- C. Add the agreement to the source list and mark it for MRP relevance.
- D. Set the creation indicator for purchase requisition on the initial screen of the MRP run.

Answer: B,C

Explanation:

A scheduling agreement is a long-term agreement with a vendor for the supply of materials or services at predefined dates and quantities. To enable classic MRP to automatically create schedule lines in case of material shortage, you must do the following: Add the agreement to the source list and mark it for MRP relevance. The source list is a list of possible sources of supply for a material, such as vendors, contracts, or scheduling agreements. By adding the agreement to the source list and setting the MRP indicator, you specify that the agreement is a valid and preferred source of supply for the material.

Set the creation indicator for delivery schedule lines on the initial screen of the MRP run. The creation indicator determines whether the MRP run creates procurement proposals, such as purchase requisitions, planned orders, or delivery schedule lines. By setting the creation indicator for delivery schedule lines, you instruct the MRP run to create schedule lines for the scheduling agreement, based on the material requirements and the agreement conditions.

Adding the agreement to the quota arrangement and marking it for MRP relevance is not necessary, as the quota arrangement is used to distribute the total requirements of a material among several sources of supply. Setting the creation indicator for purchase requisition on the initial screen of the MRP run is not correct, as the purchase requisition is a different type of procurement proposal than the delivery schedule line. Reference: Scheduling Agreement | SAP Help Portal, Source List | SAP Help Portal, MRP Run | SAP Help Portal.

NEW QUESTION # 32

In documentation for MRP in Advanced Planning you read that new orders are created through infinite planning. What does this mean for the capacity requirements of a new order?

- A. MRP creates the capacity requirements at the earliest possible time.
- B. MRP creates the capacity requirements without considering existing load on the work centers.
- C. MRP assigns the capacity requirements automatically after the last scheduled operation for each work center.
- D. MRP assigns the capacity requirements automatically to work centers with the earliest available capacity.

Answer: B

Explanation:

In SAP S/4HANA Advanced Planning (PP/DS - Production Planning and Detailed Scheduling), infinite planning assumes unlimited capacity availability during the initial planning phase. When the documentation states that "new orders are created through infinite planning," it means that MRP generates planned orders without checking the existing capacity load on work centers. Thus, MRP creates the capacity requirements without considering existing load on the work centers (B). This approach prioritizes material availability and scheduling over capacity constraints, leaving capacity leveling to a subsequent step (e.g., using heuristics or manual adjustments in PP/DS).

Option A is incorrect because infinite planning does not sequence capacity requirements after the last operation; it ignores capacity entirely. Option C is not accurate, as "earliest possible time" implies a finite scheduling logic, which contradicts infinite planning. Option D is also incorrect, as infinite planning does not consider available capacity for assignment. This is consistent with SAP's PP/DS documentation, where infinite planning is a preliminary step before finite scheduling.

NEW QUESTION # 33

For a production version to be valid consistent what requirements must be fulfilled? Note: There are 3 correct answers to this question.

- A. The deletion flag must NOT be set for the bill of material (BOM) or the routing.
- B. The assigned routing bill of material (BOM) must be valid in the entire validity period.
- C. The lot size range must be within the lot size range of the assigned routing.
- D. The consistency check must be performed.
- E. The assigned routing bill of material (BOM) must have the same validity period.

Answer: A,B,C

NEW QUESTION # 34

.....

PassTorrent releases 100% pass-rate SAP C_TS422_2023 study guide files which guarantee candidates 100% pass exam in the first attempt. It is time for you to choose a valid SAP C_TS422_2023 study guide, this will be your best method for clearing exam and obtain a certification. Good C_TS422_2023 Study Guide will be a shortcut for you to well-directed prepare and practice efficiently, you will avoid do much useless efforts and do something interesting.
