

# 2026 1z0-1080-25-100% Free Exam Score | Reliable Most 1z0-1080-25 Reliable Questions

What's more, part of that PassCollection 1z0-1080-25 dumps now are free: [https://drive.google.com/open?id=1IrcjKImwPaQuqlIg\\_0Xa\\_WVFNDsO-eBc](https://drive.google.com/open?id=1IrcjKImwPaQuqlIg_0Xa_WVFNDsO-eBc)

If you prefer to prepare for your 1z0-1080-25 exam on paper, we will be your best choice. 1z0-1080-25 PDF version is printable, and you can print them into hard one and take some notes on them if you like, and you can study them anytime and anyplace. In addition, 1z0-1080-25 Pdf Version have free demo for you to have a try, so that you can have deeper understanding of what you are going to buy. 1z0-1080-25 exam dumps are edited by skilled experts, and therefore the quality can be guaranteed. And you can use them at ease.

## Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.</li></ul>
Topic 6	<ul style="list-style-type: none"><li>Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.</li></ul>
Topic 7	<ul style="list-style-type: none"><li>Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.</li></ul>

Topic 8	<ul style="list-style-type: none"> <li>Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.</li> </ul>
Topic 15	<ul style="list-style-type: none"> <li>Provision users and groups: This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.</li> </ul>
Topic 16	<ul style="list-style-type: none"> <li>Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.</li> </ul>
Topic 17	<ul style="list-style-type: none"> <li>Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system.</li> </ul>
Topic 18	<ul style="list-style-type: none"> <li>Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.</li> </ul>
Topic 19	<ul style="list-style-type: none"> <li>Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.</li> </ul>
Topic 20	<ul style="list-style-type: none"> <li>Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.</li> </ul>
Topic 21	<ul style="list-style-type: none"> <li>Explain required and user-defined dimensions; how dimension hierarchies impact Planning</li> </ul>
Topic 22	<ul style="list-style-type: none"> <li>Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.</li> </ul>
Topic 23	<ul style="list-style-type: none"> <li>Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.</li> </ul>
Topic 24	<ul style="list-style-type: none"> <li>Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.</li> </ul>
Topic 25	<ul style="list-style-type: none"> <li>Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.</li> </ul>

- Creating System Reports: This section of the exam measures the skills of a Planning Administrator and focuses on system-generated reports that provide insights into application activity.

## Most 1z0-1080-25 Reliable Questions - Latest Braindumps 1z0-1080-25 Book

Confronting a tie-up during your review of the exam? Feeling anxious and confused to choose the perfect 1z0-1080-25 latest dumps to pass it smoothly? We understand your situation of susceptibility about the exam, and our 1z0-1080-25 test guide can offer timely help on your issues right here right now. Without tawdry points of knowledge to remember, our experts systematize all knowledge for your reference. You can download our free demos and get to know synoptic outline before buying. Just hold the supposition that you may fail the exam even by the help of our 1z0-1080-25 Study Tool, we can give full refund back or switch other versions for you to relieve you of any kind of losses. What is more, we offer supplementary content like updates for one year after your purchase.

### Oracle Planning 2025 Implementation Professional Sample Questions (Q32-Q37):

#### NEW QUESTION # 32

Which statement describes Strategic Modeling?

- A. It is used to quickly model and evaluate financial scenarios, and offers out-of-the-box treasury capabilities.
- B. It is used to model the flow of data by defining strategic rules for sharing data between modules.
- C. It is used to develop driver-based strategic plans and generate core financial statements.
- D. It is used to strategically manage and analyze finances at any business level with built-in dashboards.

#### Answer: A

Explanation:

Strategic Modeling in Oracle Planning 2024 is a module designed to enable rapid modeling and evaluation of financial scenarios, such as mergers, acquisitions, or long-term strategic plans. It provides a flexible framework for simulating "what-if" scenarios and includes out-of-the-box treasury capabilities, such as cash flow forecasting, debt scheduling, and interest rate calculations, which are critical for strategic financial planning.

\* A. It is used to model the flow of data by defining strategic rules for sharing data between modules:

Incorrect. This describes data integration (e.g., via data maps), not Strategic Modeling, which focuses on scenario analysis.

\* B. It is used to develop driver-based strategic plans and generate core financial statements: Incorrect.

While it supports driver-based planning, generating core financial statements is more aligned with the Financials module, not Strategic Modeling's primary focus.

\* C. It is used to strategically manage and analyze finances at any business level with built-in dashboards:

Incorrect. This is too broad and aligns more with the overall Planning application, not specifically Strategic Modeling.

\* D. It is used to quickly model and evaluate financial scenarios, and offers out-of-the-box treasury capabilities: Correct. This matches the module's purpose of rapid scenario modeling and its treasury-related features.

The Oracle documentation highlights Strategic Modeling's role in scenario analysis and its treasury tools, making D the accurate description.

#### NEW QUESTION # 33

After enabling and configuring Financials, which of the following is a recommended post-configuration task?

- A. Disable features that you do not plan to use
- B. Map and rename custom dimensions in Financials that will be used to integrate with other modules
- C. Plan headcount and detailed employee compensation by employee, job code, or both
- D. Specify the days in Period and to modify account signage for alternate reporting methods

## Answer: B

Explanation:

After enabling and configuring the Financials module in Oracle Planning 2024, post-configuration tasks are recommended to optimize its functionality and integration. The most relevant task among the options is:

- \* A. Plan headcount and detailed employee compensation by employee, job code, or both: Incorrect. This is a Workforce module task, not a post-configuration task for Financials, which focuses on revenue, expenses, and financial statements, not employee-level planning.
- \* B. Specify the days in Period and to modify account signage for alternate reporting methods: Incorrect. While period setup occurs during initial configuration (e.g., Planning and Forecast Preparation), modifying account signage or days in periods is not a recommended post-configuration task—it's either part of initial setup or an ad-hoc adjustment.
- \* C. Map and rename custom dimensions in Financials that will be used to integrate with other modules: Correct. Post-configuration, mapping and renaming custom dimensions (e.g., Department, Product) ensures seamless integration with other modules like Workforce or Projects. This task aligns dimensions across the application, a common best practice after enabling Financials.
- \* D. Disable features that you do not plan to use: Incorrect. Disabling features is not a typical post-configuration task; features are enabled/disabled during initial configuration via the Configure card, not as a follow-up step.

The Oracle documentation highlights mapping custom dimensions as a recommended post-configuration task to facilitate data integration and reporting, making C the correct answer.

## NEW QUESTION # 34

Which three are use cases for data maps?

- A. To integrate data between custom plan types and Planning modules
- B. To integrate data between Planning modules
- C. To allow users to drill back to the data in a different cube
- D. To create a replicated partition between cubes
- E. To push data from a planning cube to a reporting cube

## Answer: B,E

## NEW QUESTION # 35

Before users can start using Workforce, Workforce features need to be enabled. Based on your selections, dimensions, drivers, forms, and accounts are populated. In most cases, you can come back later and incrementally enable additional features. Which of the following is an exception when enabling Workforce?

- A. If you want to use Employee Demographics, you must select it the first time you enable features.
- B. If you import asset details into Workforce, you must track the details of an asset the Asset Details dimension.
- C. If you want to consolidate Workforce reports, you must use a custom template and push data to Strategic Modeling.
- D. If you want to map multiple Projects with Workforce, you must import Resource Classes in projects.

## Answer: A

## NEW QUESTION # 36

You want to view a summary of the Capital expense planning details that are rolled into Financials. Which statement describes what you can do to see that summary?

- A. Select a Capital account and run the Rollup rule on the Financials Integration Summary page. Then, review the update data.
- B. Run the Financial Statement Integration data map to push data from Capital to Financials. In Financials, view the Capital data on the Financials Integration Summary page.
- C. Map Capital accounts to Financials accounts on the Configure page. After you save the changes to assets, O data is

automatically pushed to Financials based on the mapping. Then, review the updated data on Financials.

- D. Run the Rollup rule from the Balance Sheet Integration Summary. Then, review the updated data.

**Answer: B**

## NEW QUESTION # 37

.....

The content of our 1z0-1080-25 practice engine is based on real exam by whittling down superfluous knowledge without delinquent mistakes rather than dropping out of reality. Being subjected to harsh tests of market, our 1z0-1080-25 exam questions are highly the manifestation of responsibility carrying out the tenets of customer oriented. And our 1z0-1080-25 Study Materials are warmly praised and welcomed by the customers all over the world.
