## High Pass-Rate New JN0-481 Exam Dumps & Accurate JN0-481 New Dumps Free: Data Center, Specialist (JNCIS-DC)

There is nothing more important than finding the best-quality JN0-481 practice questions for your exam preparation that will appear in the JN0-481 actual test. To help our candidate solve the difficulty of JN0-481 real exam, we prepared the most reliable questions and answers for the exam preparation, which comes in three versions. Our aim is help our candidates realize their ability by practicing our JN0-481 Exam Questions and pass exam easily.

### Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q38-Q43):

#### NEW QUESTION # 38

Referring to the exhibit, how many rack types are used in the staged blueprint?

Filter selected by ☒ all ☐ selected only ☐ unselected only

<input type="checkbox"/> 0 selected	Name	Rack Type
<input type="checkbox"/>	borderleaf_001	BorderLeaf 2022-03-02 09:33
<input type="checkbox"/>	serverrack_001	ServerRack 2022-03-01 10:19
<input type="checkbox"/>	serverrack_002	ServerRack 2022-03-01 10:19
<input type="checkbox"/>	serverrack_003	ServerRack 2022-03-01 10:19
<input type="checkbox"/>	serverrack_004	ServerRack 2022-03-01 10:19
<input type="checkbox"/>	serverrack_005	ServerRack 2022-03-01 10:19
<input type="checkbox"/>	serverrack_006	ServerRack 2022-03-01 10:19

Juniper NETWORKS

- A. six
- B. three
- C. seven
- D. two

**Answer: D**

Explanation:

Referring to the exhibit, the image shows the Racks table under the Staged menu in the Juniper Apstra UI. The Racks table displays the details of the racks that are used in the blueprint, such as the name, rack type, and date. The rack type is a resource that defines the type and number of leaf devices, access switches, and/or generic systems that are used in rack builds. The image shows seven racks in the table, but only two rack types: BorderLeaf and ServerRack.

#### NEW QUESTION # 39

Which fabric type should be chosen in a template to create a five-stage Clos?

- A. collapsed
- B. pod-based
- C. rack-based
- D. circuit switched

**Answer: B**

Explanation:

A five-stage Clos architecture allows for large-scale topologies with an additional aggregation layer that interconnects multiple pods into a single fabric. A pod is a group of racks that share the same spine devices. A rack is a group of leaf devices that connect to the same servers. To create a five-stage Clos network using Juniper Apstra, you need to choose the pod-based fabric type in the template creation wizard. This will allow you to specify the number of pods, planes, spines, and leaves for your network design.

#### NEW QUESTION # 40

You use Juniper Apstra to enable a new VXLAN virtual network. Which two components would be automatically derived in this situation? (Choose two.)

- A. VXLAN VNI
- B. Route Zone
- C. VLAN-ID
- D. IP subnet

**Answer: A,D**

Explanation:

A VXLAN virtual network is a collection of Layer 2 forwarding domains that span multiple racks in a fabric. A VXLAN virtual network requires a name and a VXLAN network identifier (VNI), which is a 24-bit number that identifies the virtual network. The VNI can be either explicitly assigned or auto-assigned from a resource pool. A VXLAN virtual network can also have Layer 3 connectivity, which enables routing between different VNIs within a routing zone. A routing zone is an L3 domain that isolates the IP traffic of different tenants. A routing zone can have one or more VNIs associated with it. To enable Layer 3 connectivity, a VXLAN virtual network needs an IP subnet, which is a range of IP addresses that can be assigned to the hosts in the virtual network. The IP subnet can be either explicitly assigned or auto-assigned from a resource pool. Therefore, the correct answer is A and C. IP subnet and VXLAN VNI are two components that would be automatically derived when enabling a new VXLAN virtual network using Juniper Apstra.

#### NEW QUESTION # 41

How does Apstra use Fabric Device Management to ensure consistency across the network?

- A. By assigning different agents to devices based on their location
- B. By adjusting the color-coding of cables in the data center
- C. By enforcing uniform configurations on all network devices
- D. By randomly assigning system IDs to devices

**Answer: C**

#### NEW QUESTION # 42

Which statement is correct about making changes to a predefined device profile in Juniper Apstra?

- A. The changes you make to a predefined device profile will be discarded and overwritten when upgrading the Apstra server version.
- B. Changing the predefined device profile will also affect deployed devices that use the same profile.
- C. You must reboot the Apstra server after changes are made to a predefined device profile before they will become active.
- D. The processor load on the Apstra server will be negatively impacted when changes are made to a predefined device profile.

**Answer: A**

Explanation:

A predefined device profile is a configuration template that is shipped with Apstra software and supports most qualified Juniper devices. A predefined device profile cannot be changed, since any changes would be discarded and overwritten when you upgrade the Apstra server version. If you want to customize a predefined device profile, you can clone and edit it instead.

#### NEW QUESTION # 43

.....

The unmatched and the most workable study guides of Actual4Exams are your real destination to achieve your goal. The pathway to pass JN0-481 was not so easy and perfectly reliable as it has become now with the help of our products. Just you need to spend a few hours daily for two week and you can surely get the best insight of the syllabus and command over it. The JN0-481 Questions and answers in the guide are meant to deliver you simplified and the most up to date information in as fewer words as possible.

**JN0-481 New Dumps Free:** <https://www.actual4exams.com/JN0-481-valid-dump.html>

Juniper New JN0-481 Exam Dumps Quick and efficient learning way, You have the option to download updated Juniper JN0-481 exam questions up to 12 months from the date of Juniper JN0-481 exam questions purchase, Our JN0-481 guide torrent provides free download and tryout before the purchase and our purchase procedures are safe, After payment, you will receive our JN0-481 New Dumps Free - Data Center, Specialist (JNCIS-DC) test for engine & JN0-481 New Dumps Free - Data Center, Specialist (JNCIS-DC) VCE test engine soon.

It prevents crosstalk in wires, Falling Off New JN0-481 Exam Dumps the Wagon, Quick and efficient learning way, You have the option to download updated Juniper JN0-481 Exam Questions up to 12 months from the date of Juniper JN0-481 exam questions purchase.

## **Pass Guaranteed 2026 Valid JN0-481: New Data Center, Specialist (JNCIS-DC) Exam Dumps**

Our JN0-481 guide torrent provides free download and tryout before the purchase and our purchase procedures are safe, After payment, you will receive our Data Center, Specialist (JNCIS-DC) test for engine & Data Center, Specialist (JNCIS-DC) VCE test engine soon.

Test engine provides candidates JN0-481 with realistic simulations of certification exams experience.
