In a multi-tenant setup, Cortex XSOAR organizes logs by tenant using a specific directory structure. The prefix acc_ (short for "account") is used to differentiate tenant-specific directories within the /var/log/demisto/ path. This convention helps in clearly segregating logs for different tenants, making it easier for administrators to manage and troubleshoot issues specific to each tenant.

On the other hand, /var/log/demisto

/Tenant1/server.log does not follow the standard naming convention used in multi-tenant environments for Cortex XSOAR, which includes the acc_ prefix to indicate tenant accounts.
