Salesforce Certified Administrator Sample Questions (Q42-Q47):

NEW QUESTION # 42

An Administrator supporting global team of salesforce users has been asked to configure the company settings Which two options should the administrator configure?

Choose 2 Answers

- A. Password Policy
- B. Currency Local
- C. Login Hours
- D. Default Language

Answer: B,D

Explanation:

Explanation

Default language and currency locale are two options that an administrator should configure in the company settings to support a global team of Salesforce users. Default language determines the language that is used for labels, buttons, tabs, help text, and messages in Salesforce for all users unless they override it in their personal settings. Currency locale determines the format of currency fields and numbers in Salesforce for all users unless they override it in their personal settings or enable multiple currencies.

NEW QUESTION # 43

The administrator has created new users for ten new employees at Northern Trail Outfitters.

Why are these users unable to access the account object in the Salesforce or?

- A. Organization-wide defaults are set to private.
- B. Users' roles are low on the role hierarchy.
- C. Users' profile requires a sharing rule for Accounts.
- D. Users' profile requires permission to the Account object.

Answer: D

Explanation:

Explanation

To access the account object in Salesforce, users need to have permission to the account object on their profile or permission set. Permission to an object determines what users can do with records of that object, such as create, read, edit, delete, view all, or modify all. If users do not have permission to an object, they will not be able to see or access that object in Salesforce.

NEW QUESTION # 44

An administrator supporting a global team of salesforce users has been asked to configure company settings.
Choose 2 options

- **A. Currency Locale**
- B. Password Policy
- C. Login Hours
- **D. Default Language**

Answer: A,D

Explanation:

Explanation

Currency locale and default language are two of the company settings that an administrator can configure in Salesforce. Currency locale determines how currency amounts are formatted and displayed in reports and other places. Default language determines the language used for labels, buttons, tabs, and other elements in Salesforce. References:

NEW QUESTION # 45

An administration needs to store the ID of record type of later use in a flow.
Which kind of variable should the administrator use?

- A. ID variable
- **B. Record variable**
- C. Text variable
- D. Boolean variable

Answer: B

NEW QUESTION # 46

DreamHouse Realty (DHR) wants a templated process with a mortgage calculator that generated leads for loans. DHR needs to complete the project within 30 days and has maxed out its budget for the year.
Which AppExchange item should help the administrator to meet the request?

- **A. Flow Solutions**
- B. Lightning Data
- C. Bolt Solutions
- D. Lightning Community

Answer: A

Explanation:

Explanation

Flow Solutions are pre-built flows or templates that can be installed from AppExchange and customized to meet specific business needs. For example, Flow Solutions can provide common use cases such as lead generation, document generation, payment processing, and more. In this case, the administrator can use a Flow Solution that provides a mortgage calculator and generates leads for loans. Flow Solutions are easy to install and configure, and can help save time and budget for projects. References:
