If you use Pass4Leader's product to do some simulation test, you can 100% pass your first time to attend Platform-App-Builder Certification Exam.

## Salesforce Certified Platform App Builder Sample Questions (Q24-Q29):

### NEW QUESTION # 24

Ursa Major Solar wants to provide sales console users with an Incredible experience, with the most-used components easily accessible at all times.

What solution can enable reps to see and access these components from anywhere within the app without leaving the pages where the team is working?

- A. Utility bar
- B. Home page
- C. Global actions
- D. Favorites

### Answer: A

Explanation:

The best solution to enable reps to see and access the most-used components from anywhere within the app without leaving the page they are working on is Utility bar. This is a footer that can be added to any Lightning app and can contain tools such as history, notes, or softphone. Favorites, home page, and global actions are not solutions that provide access to components from anywhere within the app. See [this article] for more information on Utility bar.

### NEW QUESTION # 25

Universal Containers has deployed custom tabs to Production via change sets, without including the profile settings.

What statement is true about the visibility of custom tabs in Enterprise Edition?

- A. Custom tabs are not hidden for all users.
- B. Custom tabs are default on for all users.
- C. Custom tabs are not deployed.
- D. Custom tabs are default off for all users.

### Answer: D

### NEW QUESTION # 26

User at Universal Containers needs to be able to quickly create a contact record from the Account record's Chatter feed. How should the App Builder enable the functionality?

- A. By creating a custom "Detail Page" Button on the Contract.
- B. By creating a custom "Detail Page" Button on the Account.
- C. By creating a custom "Create a Record" Action on the Contract
- D. By creating a custom "Create a Record" Action on the Account.

### Answer: D

### NEW QUESTION # 27

The Service Manager provided the app builder with color code requirements for case age on open cases.

New cases populate a green circle

Day-old cases populate a yellow circle

Three-day-old cases populate a red circle

How should an app builder implement this requirement?

- A. Lightning Web Component
- B. Custom Button

- C. Formula Field
- D. Quick Action

**Answer: C**

Explanation:

A formula field is a read-only field that derives its value from a formula expression you define. The formula field is updated when any of the source fields change. You can use formula fields to display images based on certain conditions. In this case, a formula field can be used to display a green, yellow, or red circle image based on the case age.

#### **NEW QUESTION # 28**

When a user creates an account report, the user does not see industry as an available field in the report builder. However, this same user is able to see in the account page layout. What scenario would cause this?

- A. The industry field is not enabled for the particular record type
- B. **The industry field has no record values in the account.**
- C. The user does not have industry field visibility in the field level security
- D. The user uses a custom report type which does not include the industry field

**Answer: B**

#### **NEW QUESTION # 29**

.....
