If you free download the demos of our 1Z0-1055-25 study guide to have a try, then you will find that rather than solely theory-oriented, our 1Z0-1055-25 actual exam provides practice atmosphere when you download them, you can practice every day just like answering on the real 1Z0-1055-25 Practice Exam. We can help you demonstrate your personal ability and our 1Z0-1055-25 exam materials are the product you cannot miss.

Oracle 1Z0-1055-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Implementing Accounts Payable Balances: This section of the exam measures skills of Finance Operations Managers and covers Accounts Payable (AP) reporting, analysis, and period closing activities. It explains AP balance configurations, calendar management, and reconciliation with the General Ledger. Candidates must understand the setup of aging periods, payables calendars, and best practices for ensuring accurate financial close processes.
Topic 2	<ul style="list-style-type: none">Implementing Expenses: This section of the exam measures skills of Expense Management Administrators and focuses on managing and configuring employee expense processes. It includes expense report processing, approval rules, and audit policies. Candidates must understand system configurations for templates, corporate card programs, conversion rate policies, travel integration, and AI-driven automation in expense management.

Topic 3	<ul style="list-style-type: none"> Setting up Common Configurations in the Supplier Invoice to Payments Process This section of the exam measures skills of Accounts Payable Analysts and focuses on understanding the core setup required for supplier invoicing and payment processes. It covers the Enterprise Structure, Financial Reporting Structure, and Data Security model. Candidates must know the purpose of Business Units and Reference Sets and be able to manage Supplier and Bank Account Master Data effectively.
Topic 4	<ul style="list-style-type: none"> Implementing Payments: This section of the exam measures skills of Payments Configuration Specialists and focuses on the payment lifecycle in the Oracle Fusion Payables module. It includes understanding the supplier payment process, AI role in automation, and the configuration of payment options, methods, disbursement choices, and process profiles. The section also involves managing approval workflows and payment process templates for secure and accurate disbursement management.
Topic 5	<ul style="list-style-type: none"> Implementing Supplier Invoices: This section of the exam measures skills of Financial Systems Specialists and covers the setup and processing of supplier invoices. It focuses on understanding supplier invoice processing, AI-assisted automation, and key configurations such as invoice options, distribution sets, tolerances, holds, approvals, and release procedures. Candidates also learn how to manage business rules for invoice validation and processing efficiency.

1Z0-1055-25 Test Fee | Valid 1Z0-1055-25 Braindumps

People need to increase their level by getting the Oracle 1Z0-1055-25 certification. If you take an example of the present scenario in this competitive world, you will find people struggling to meet their ends just because they are surviving on low-scale salaries. Even if they are thinking about changing their jobs, people who are ready with a better skill set or have prepared themselves with Oracle 1Z0-1055-25 Certification grab the chance. This leaves them in the same place where they were.

Oracle Fusion Cloud Financials: Payables and Expenses 2025 Implementation Professional Sample Questions (Q24-Q29):

NEW QUESTION # 24

You joined an OU Live Session for Oracle Financials centered on Expenses and learned about a new feature, Monthly and Lifetime Rate Limit Enforcement for Miscellaneous Policies. With this new feature, you can now enforce monthly and lifetime rate limits for miscellaneous expenses.

Based on which four values did the instructor say you can configure the rate limits?

- A. Role
- B. Currency
- C. Location
- D. Gender
- E. Exchange Rate Conversion
- F. Enforce the same rate limit for all employees.
- G. Employee Management Level
- H. Expense Type

Answer: A,C,E,F

NEW QUESTION # 25

You have created an approval rule as follows:

Rule 1: If the invoice amount > \$1000, route it to User 1.

Rule 2: If the invoice amount < \$1000, auto-approve it.

What will happen if a user creates an invoice for \$1000 and routes it for approval?

- A. Invoice will be sent to User 1 for approval.
- B. Invoice will be auto-approved.
- C. The initiate option is greyed out for the invoice.

- D. The workflow will fail once approval is initiated, and the invoice will not get processed.

Answer: D

Explanation:

Comprehensive and Detailed In-Depth

In Oracle Payables, when configuring invoice approval rules, it's crucial to ensure that all possible scenarios are accounted for to prevent workflow errors. In the given setup:

Rule 1: Invoices with an amount greater than \$1000 are routed to User 1 for approval.

Rule 2: Invoices with an amount less than \$1000 are auto-approved.

However, there is no rule defined for invoices equal to \$1000. This omission creates a gap in the approval process. When an invoice for exactly \$1000 is submitted, the system doesn't find a matching rule to apply, leading to a workflow failure. As a result, the approval process cannot proceed, and the invoice remains unprocessed.

Best Practice: To avoid such issues, it's essential to define comprehensive and inclusive approval rules that cover all possible scenarios. In this case, modifying the rules to include invoices equal to \$1000 would resolve the problem. For example:

Revised Rule 1: If the invoice amount \geq \$1000, route it to User 1.

Revised Rule 2: If the invoice amount $<$ \$1000, auto-approve it.

This adjustment ensures that invoices with an amount of exactly \$1000 are routed appropriately, preventing workflow failures.

NEW QUESTION # 26

You have assisted your customer with the implementation of Oracle Intelligent document Recognition (IDR). They want to track the accuracy of the invoice line recognition for invoices processed by IDR. You introduce them to the invoice documents recognition rate report to obtain the invoice line recognition details.

In which three formats is this report available?

- A. Invoice Header supplier summary
- B. Invoice Header Details
- C. Invoice Header summary
- D. Invoice Summary Details
- E. Invoice Line Details
- F. Invoice Line Summary

Answer: A,B,F

NEW QUESTION # 27

An installment for \$2,000 USD is due for payment on July 31, 2022. The installment has two discounts: the first discount date is June 15, 2022 for \$150 USD and the second discount date is June 30, 2022 for \$50 USD.

You submit a Payment Process Request with the following criteria:

Payment Date = June 20, 2022

Pay Through Date = July 30, 2022

Date Basis = Due Date

What will be the resulting status of the installment and discount?

- A. The installment is selected and a discount of \$150 USD is applied.
- B. The installment is selected and no discount is applied.
- C. The installment is not selected because the discount dates are before the Pay Through Date.
- D. The installment is selected and a discount of \$50 USD is applied.
- E. The installment is not selected because the due date is after the Pay Through Date.

Answer: E

NEW QUESTION # 28

Which three are valid reasons why you cannot close your Payables period?

- A. Incomplete payment files
- B. Unapplied prepayments
- C. Bills payable requiring maturity
- D. Unaccounted invoices and payments
- E. Suppliers on payment holds

Answer: A,C,D

Explanation:

Comprehensive and Detailed In-Depth

Closing a Payables period in Oracle Financials Cloud requires that all transactions for the period are fully processed and accounted for. The system enforces certain checks to ensure data integrity and accurate financial reporting. The following are valid reasons that can prevent the closure of a Payables period:

Incomplete Payment Files (Option B):

Payment files that have been initiated but not completed will prevent period closure. All payment processes must be finalized to ensure that all disbursements are accurately recorded.

Reference:

Bills Payable Requiring Maturity (Option C):

Bills payable that have not yet reached their maturity date or have not been accounted for will block the period from closing. It's essential to update the status of all bills payable to reflect their maturity and ensure they are accounted for in the correct period.

Unaccounted Invoices and Payments (Option D):

Invoices and payments that have been entered but not yet accounted for will prevent period closure. All such transactions must be fully processed and posted to the general ledger to ensure financial statements are accurate and complete.

Options A and E are not valid reasons for preventing period closure:

Unapplied Prepayments (Option A):

While unapplied prepayments represent amounts paid in advance that have not yet been matched to invoices, they do not prevent the closure of a Payables period. These can remain unapplied across periods and do not impact the period close process.

Suppliers on Payment Holds (Option E):

Suppliers placed on payment holds indicate that payments to these suppliers are temporarily suspended. This status does not affect the ability to close a Payables period, as it pertains to future payments rather than existing transactions within the period.

In summary, to successfully close a Payables period, ensure that all payment files are complete, bills payable are matured and accounted for, and all invoices and payments are fully processed and posted.
