

# Online QSA\_New\_V4 Test | QSA\_New\_V4 Reliable Exam Braindumps

DOWNLOAD the newest Exam-Killer QSA\_New\_V4 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1EEbAszZ5lMEDvLJQLIDWG6J9621QpNkg>

In order to meet the demands of all the customers, we can promise that we will provide all customers with three different versions of the QSA\_New\_V4 study materials: PDF version, Soft version and APP version. In addition, we can make sure that we are going to offer high quality QSA\_New\_V4 practice study materials with reasonable prices but various benefits for all customers. It is our sincere hope to help you pass QSA\_New\_V4 exam by the help of our QSA\_New\_V4 certification guide. Just come and buy our QSA\_New\_V4 learning prep!

Our company has employed a lot of leading experts in the field to compile the QSA\_New\_V4 exam question. Our system of team-based working is designed to bring out the best in our people in whose minds and hands the next generation of the best QSA\_New\_V4 exam torrent will ultimately take shape. Our company has a proven track record in delivering outstanding after sale services and bringing innovation to the guide torrent. Your success is guaranteed for our experts can produce world class QSA\_New\_V4 Guide Torrent for our customers. You will be bound to pass the QSA\_New\_V4 exam

## QSA\_New\_V4 Actual Test & QSA\_New\_V4 Exam Quiz & QSA\_New\_V4 Training Materials

Do not waste further time and money, get real PCI SSC QSA\_New\_V4 pdf questions and practice test software, and start PCI SSC QSA\_New\_V4 test preparation today. Exam-Killer will also provide you with up to 365 days of free Qualified Security Assessor V4 Exam exam questions updates, It will just need to take one or two days to practice PCI SSC QSA\_New\_V4 Test Questions and remember answers. You will free access to our test engine for review after payment.

## PCI SSC Qualified Security Assessor V4 Exam Sample Questions (Q55-Q60):

### NEW QUESTION # 55

A network firewall has been configured with the latest vendor security patches. What additional configuration Is needed to harden

the firewall?

- A. Disable any firewall functions that are not needed in production.
- B. Synchronize the firewall rules with the other firewalls in the environment.
- C. Remove the default "Firewall Administrator account and create a shared account for firewall administrators to use.
- D. Configure the firewall to permit all traffic until additional rules are defined.

**Answer: A**

Explanation:

Firewall Hardening:

\* Requirement 1.2 mandates that firewalls should be configured with only the necessary functionality to reduce attack surfaces.

Disabling unused functions eliminates potential vulnerabilities.

Explanation of Other Options:

\* A: Shared accounts violate Requirement 8.1.5, which prohibits shared or generic accounts.

\* B: Allowing all traffic initially violates Requirement 1.2.1, which requires a restrictive firewall policy.

\* C: Synchronization of rules may not always be necessary, especially for firewalls with different scopes or roles.

### NEW QUESTION # 56

Which of the following types of events is required to be logged?

- A. All use of end-user messaging technologies.
- B. All access to external web sites.
- C. All access to all audit trails.
- D. All network transmissions.

**Answer: C**

Explanation:

Requirement 10.2.2 mandates that all access to audit trails must be logged. This ensures that any tampering, viewing, or deletion of audit data is traceable. It supports the broader goal of maintaining audit trail integrity and accountability.

\* Option A: Incorrect. PCI DSS does not require logging use of end-user messaging.

\* Option B: Incorrect. There's no explicit requirement to log access to external websites.

\* Option C: Correct. PCI DSS mandates logging all access to audit trails to detect and respond to unauthorized attempts.

\* Option D: Incorrect. Logging all network transmissions is not feasible and not required.

Reference: PCI DSS v4.0.1 - Requirement 10.2.2.

### NEW QUESTION # 57

Which systems must have anti-malware solutions?

- A. All portable electronic storage.
- B. All CDE systems, connected systems, NSCs, and security-providing systems.
- C. All systems that store PAN.
- D. Any in-scope system except for those identified as 'not at risk' from malware.

**Answer: D**

Explanation:

Requirement 5.2.1.1 clarifies that anti-malware solutions are required on all in-scope systems, unless the system is evaluated as not at risk for malware (e.g., Linux-based appliances with no Internet access). These risk evaluations must be documented and justified (5.2.3.1).

\* Option A: Incorrect. PCI DSS allows exceptions for systems not at risk.

\* Option B: Incorrect. Anti-malware applies to systems, not portable media per se.

\* Option C: Incorrect. Anti-malware scope is broader than just PAN-storing systems.

\* Option D: Correct. Systems not at risk can be excluded if justified and documented.

Reference: PCI DSS v4.0.1 - Requirement 5.2.1.1 and 5.2.3.1.

### NEW QUESTION # 58

Which statement is true regarding the presence of both hashed and truncated versions of the same PAN in an environment?

- A. The hashed and truncated versions must be correlated so the source PAN can be identified.
- B. The hashed version of the PAN must also be truncated per PCI DSS requirements for strong cryptography.
- **C. Controls are needed to prevent the original PAN being exposed by the hashed and truncated versions.**
- D. Hashed and truncated versions of a PAN must not exist in same environment.

**Answer: C**

Explanation:

PCI DSS allows for the use of truncation and hashing for protecting PAN, but Requirement 3.4.1 and its guidance warn against combining hashed and truncated PANs in such a way that the original PAN could be reconstructed. If both formats exist, controls must ensure they can't be used together to reverse-engineer the PAN.

\* Option A: #Correct. Controls must ensure PAN cannot be reconstructed using both versions.

\* Option B: #Incorrect. A hashed PAN does not need truncation - hashing is a separate mechanism.

\* Option C: #Incorrect. PCI DSS aims to prevent correlation, not encourage it.

\* Option D: #Incorrect. They can coexist, but must be secured so that PAN cannot be derived.

Reference: PCI DSS v4.0.1 - Requirement 3.4.1 and associated guidance.

### NEW QUESTION # 59

In accordance with PCI DSS Requirement 10, how long must audit logs be retained?

- **A. At least 1 year, with the most recent 3 months immediately available.**
- B. At least 2 years, with the most recent 3 months immediately available.
- C. At least 3 months, with the most recent month immediately available.
- D. At least 2 years, with the most recent month immediately available.

**Answer: A**

Explanation:

Per Requirement 10.5.1.2, audit logs must be retained for at least one year, and the most recent three months must be readily available for analysis. This ensures traceability of security events over both short and longer-term periods.

\* Option A: #Correct. Matches both duration and availability criteria.

\* Option B: #Incorrect. Two years is not required.

\* Option C: #Incorrect. The retention period is misstated.

\* Option D: #Incorrect. One month is insufficient for immediate access.

### NEW QUESTION # 60

.....

Contending for the success fruit of QSA\_New\_V4 exam questions, many customers have been figuring out the effective ways to pass it. And that is why we have more and more customers and everyday the hot hit and high pass rate as well. It is all due to the advantage of our useful QSA\_New\_V4 practice materials, and we have these versions of our QSA\_New\_V4 study materials for our customers to choose according to their different study habits: the PDF, the Software and the APP online.

**QSA\_New\_V4 Reliable Exam Braindumps:** [https://www.exam-killer.com/QSA\\_New\\_V4-valid-questions.html](https://www.exam-killer.com/QSA_New_V4-valid-questions.html)

PCI SSC Online QSA\_New\_V4 Test It means you can try our demo and you do not need to spend any money, We support three different QSA\_New\_V4 dumps torrent: Qualified Security Assessor V4 Exam versions for you, What's more, we also know it deeply that only by following the mass line and listening to all useful opinions can we make a good job of it, so we always value highly on the suggestions of QSA\_New\_V4 exam guide given by our customers, and that is our magic weapon to keep the highest-quality of our QSA\_New\_V4 dumps torrent materials, If QSA\_New\_V4 exams change, we will get the first-hand exam materials and our professional education experts will work out the right answers so that QSA\_New\_V4 exam materials produce as high-quality products.

In this book, readers will learn to how manage iOS in business QSA\_New\_V4 Exam Material settings, from small to large, using Apple's iOS configuration and management utilities, Reporting requirements will need to be determined as well as procedures, standards, and guidelines QSA\_New\_V4 for how the system will be managed, how often it will be backed up, disaster recovery, and integration with other systems.

## 100% Pass Quiz QSA\_New\_V4 - Qualified Security Assessor V4 Exam – Efficient Online Test

It means you can try our demo and you do not need to spend any money, We support three different QSA\_New\_V4 dumps torrent: Qualified Security Assessor V4 Exam versions for you, What's more, we also know it deeply that only by following the mass line and listening to all useful opinions can we make a good job of it, so we always value highly on the suggestions of QSA\_New\_V4 exam guide given by our customers, and that is our magic weapon to keep the highest-quality of our QSA\_New\_V4 dumps torrent materials.

If QSA\_New\_V4 exams change, we will get the first-hand exam materials and our professional education experts will work out the right answers so that QSA\_New\_V4 exam materials produce as high-quality products.

Of course, we really hope that you can make some good suggestions after using our QSA\_New\_V4 study materials.
