## ATLASSIAN Managing Jira Cloud Projects Sample Questions (Q20-Q25):

### NEW QUESTION # 20

Your team uses a company-managed Kanban project and needs a way to categorize issues as follows:

# group issues by the project phase in which work will be started  
# assign a fixed start date and end date to each phase  
# move unresolved issues to the next phase  
# view reports of resolved issues by phase

Which product feature should be used to categorize the issues?

- A. labels
- B. sprints
- C. categories
- D. versions
- E. components

### Answer: D

Explanation:

Versions in a company-managed project are designed to represent project phases with fixed start and end dates, allow tracking of resolved and unresolved issues, and automatically move unresolved issues to the next version. They also support reporting by version, making them the best fit for this use case.

### NEW QUESTION # 21

Which of the following permissions are global permissions? (Choose three.)

- B. Administer projects.
- C. Work on issues
- D. Make bulk changes.
- E. Manage group filter subscriptions.
- F. Browse users and groups.

### Answer: D,E,F

### NEW QUESTION # 22

Which of the following is not the default team-managed project role?

Note:

- Company-managed projects are formerly known as classic projects.
- Team-managed projects are formerly known as next-gen projects

- A. Member
- B. Viewer
- C. Administrator
- D. User

### Answer: D

### NEW QUESTION # 23

A team-managed project has a custom role in addition to the built-in roles.

New user Quinn needs to perform the following actions in the project:

# transition issues  
# add comments  
# remove watchers  
# add attachments

# manage sprints

Which role will definitely grant him the permissions he needs?

- A. Administrator role
- B. Custom role
- C. Member role
- D. Viewer role

**Answer: A**

Explanation:

In team-managed projects, only the Administrator role has full access to all permissions, including advanced actions like managing sprints and removing watchers. While the Member and Custom roles may cover some actions, only the Administrator role definitely grants all the listed capabilities.

#### NEW QUESTION # 24

Dom is working as a project manager for a Jira project called EPAY. The project has been deployed to production and transferred to another company for maintenance.

Which of the following action allows Dom to hide the EPAY issues from the advanced search, but other users can still access the issues through direct links?
