Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 2	• Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 3	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.

Topic 4	• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 5	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 6	• Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 7	• Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 8	• Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 9	• Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 10	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 11	• Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Topic 12	• Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.
Topic 13	• Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.

DEP-2025 practice braindumps & DEP-2025 test prep cram

Itcertking's Apple DEP-2025 exam training materials are the best training materials of all the Internet training resources. Our visibility is very high, which are results that obtained through many candidates who have used the Itcertking's Apple DEP-2025 exam training materials. If you also use Itcertking's Apple DEP-2025 Exam Training materials, we can give you 100% guarantee of success. If you do not pass the exam, we will refund the full purchase cost to you. For the vital interests of the majority of candidates, Itcertking is absolutely trustworthy.

Apple Deployment and Management Exam Sample Questions (Q251-Q256):

NEW QUESTION # 251
What's the benefit of using supervision?

- A. Separates personal and managed data
- B. Allows personalization

- C. Enables advanced management
- D. Improves network performance

Answer: C

Explanation:
Supervision, applied via Apple Configurator or ADE, enables advanced management by unlocking additional MDM capabilities, such as blocking app removal, enforcing single-app mode, or managing Activation Lock.
This provides greater control for organizations. Personalization (option A) is often restricted under supervision. Network performance (option C) is unrelated, and data separation (option D) is a User Enrollment feature. The Apple Platform Deployment Guide highlights advanced management as supervision's key benefit.
Reference: Apple Platform Deployment Guide (Chapter: Supervision).

NEW QUESTION # 252
A user enrolled their personally owned iPhone in your MDM solution to access organizational services.
Which of these is cryptographically separated for managed and personal data?

- A. Keychain items
- B. Safari profiles
- C. Safari bookmarks
- D. Contacts

Answer: A

Explanation:
User Enrollment separates managed Keychain items. The iOS Deployment Reference states, "With User Enrollment, Keychain items associated with a Managed Apple ID are stored in a distinct cryptographic container." Options B, C, and D aren't separated unless tied to managed apps.
References:
iOS Deployment Reference, "User Enrollment" section.
Apple Platform Deployment Guide, "Data Separation" section.

NEW QUESTION # 253
Which enrollment type can supervise an iPad?

- A. Account-driven Device Enrollment
- B. Automated Device Enrollment
- C. Profile-driven Enrollment
- D. Account-driven User Enrollment

Answer: B

Explanation:
ADE enables supervision. The Apple Platform Deployment Guide states, "Automated Device Enrollment automatically supervises devices during setup when linked to Apple Business Manager." References:
Apple Platform Deployment Guide, "Automated Device Enrollment" section.
iOS Deployment Reference, "Supervision" section.

NEW QUESTION # 254
Which feature or technology locks a supervised iPad until the feature is turned off?

- A. Managed Lost Mode
- B. Return to Service
- C. Managed Device Attestation
- D. Activation Lock

Answer: A

Explanation:
Managed Lost Mode locks supervised iPads. TheiOS Deployment Referencestates, "Managed Lost Mode locks a supervised iPad until disabled via MDM, displaying a custom message and restricting access." Option C requires credentials, not MDM, to unlock.
References:
iOS Deployment Reference, "Managed Lost Mode" section.
Mobile Device Management Protocol Reference, "Lost Mode" section.

NEW QUESTION # 255

What's the name of Apple's portal that allows IT administrators to manage device enrollment, app licenses, and content?

- **A. Apple Business Manager**
- B. Apple School Manager
- C. Apple Configurator
- D. Managed Apple ID portal

Answer: A

Explanation:
Apple Business Manager (ABM) is Apple's web-based portal designed for IT administrators in businesses to manage device enrollment (via Automated Device Enrollment), purchase and distribute app licenses, and assign content like books. Apple School Manager (option C) serves a similar purpose but is tailored for educational institutions. Apple Configurator (option B) is a macOS app for device configuration, not a portal.
There's no "Managed Apple ID portal" (option D); Managed Apple IDs are managed within ABM or ASM.
The question's broad scope fits ABM for business contexts, as per theApple Platform Deployment Guide.
Reference:Apple Platform Deployment Guide(Chapter: Apple Business Manager).

NEW QUESTION # 256

......

Our DEP-2025 exam cram has been revised for lots of times to ensure all candidates can easily understand all knowledge parts.
