

Pass4sure C-TS422-2023 Exam Prep, C-TS422-2023 Exam Prep

BTW, DOWNLOAD part of Itbraindumps C-TS422-2023 dumps from Cloud Storage: <https://drive.google.com/open?id=14fqGcgwycyF357yIVecfQsoPvZfZCQZD>

Our desktop software SAP C-TS422-2023 practice exam software provides a simulated scenario in which you may pick the SAP C-TS422-2023 exam questions and schedule them to replicate an actual SAP exam-like situation. With each attempt of the SAP C-TS422-2023 Practice Exam in this manner, your score is saved.

SAP C-TS422-2023 Exam Syllabus Topics:

| Topic | Details |
|---------|--|
| Topic 1 | <ul style="list-style-type: none">• Material Requirements Planning in SAP S• 4HANA: This part of the exam covers an examination of planning strategies, tools, and long-term planning concepts. Overview of MRP fundamentals and lot size procedures. |
| Topic 2 | <ul style="list-style-type: none">• Advanced Planning in SAP S• 4HANA: This section includes an overview of advanced planning fundamentals and master data. Explanation of key tools and processes. Discussion of planning evaluation concepts. |
| Topic 3 | <ul style="list-style-type: none">• Master Data in SAP S• 4HANA: This section covers the exploration of crucial production-related master data elements, with emphasis on bill of material, routing, and production version. |
| Topic 4 | <ul style="list-style-type: none">• Lean Manufacturing in SAP S• 4HANA: This section covers repetitive manufacturing master data, line load planning, and Kanban systems. |
| Topic 5 | <ul style="list-style-type: none">• Introduction to SAP S• 4HANA Production Planning: This section covers an overview of production planning components, functions, and planning approaches. Exploration of emerging trends. |
| Topic 6 | <ul style="list-style-type: none">• Managing Clean Core: This section covers the application of clean core principles to enhance business process agility, reduce adaptation efforts, and drive innovation in ERP systems. |
| Topic 7 | <ul style="list-style-type: none">• Demand Management in SAP S• 4HANA: This section covers a comparison of production methods in various manufacturing environments. |
| Topic 8 | <ul style="list-style-type: none">• Process Orders in SAP S• 4HANA: This section covers an introduction to process order components, processing, and relevant master data objects. Overview of Good Manufacturing Practices (GMP) features. |

| | |
|----------|--|
| Topic 9 | <ul style="list-style-type: none"> • Capacity Planning in SAP S • 4HANA: This section covers a discussion of SAP S • 4HANA best practices, SAP HANA database concept, SAP Fiori user experience, and embedded analytics capabilities. |
| Topic 10 | <ul style="list-style-type: none"> • Introduction to SAP S • 4HANA Supply Chain Planning: This part covers the background and motivation for SAP S • 4HANA, its main components, business applications, and user experience strategy. |

2026 Useful Pass4sure C-TS422-2023 Exam Prep | 100% Free SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Exam Prep

Our C-TS422-2023 practice quiz will provide three different versions, the PDF version, the software version and the online version. The trait of the software version of our C-TS422-2023 exam dump is very practical. Although this version can only be run on the windows operating system, the software version our C-TS422-2023 Guide materials is not limited to the number of computers installed, you can install the software version in several computers. So you will like the software version, of course, you can also choose other versions of our C-TS422-2023 study torrent if you need.

SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q51-Q56):

NEW QUESTION # 51

Where do you maintain the work center that represents the production line for repetitive manufacturing? Note: There are 2 correct answers to this question.

- A. Production cost collector
- **B. Routing**
- **C. Production version**
- D. Repetitive manufacturing profile

Answer: B,C

NEW QUESTION # 52

Which of the following are possible configuration steps when setting up the alert monitor in Advanced Planning? Note: There are 2 correct answers to this question.

- **A. Assign the alert profile to the overall profile.**
- **B. Assign the overall profile to the authorization profile.**
- C. Create an object selection variant for priority-category-related alerts.
- D. Create an object selection variant for production-planning-related alerts.

Answer: A,B

Explanation:

The alert monitor in Advanced Planning allows you to monitor and analyze the planning situation and identify any problems or deviations from the desired state. To use the alert monitor, you need to configure the following elements:

Overall profile: This defines the scope and content of the alert monitor, such as the planning objects, the alert types, the alert categories, and the alert levels. You can assign one or more alert profiles to an overall profile to specify the alerts that you want to monitor.

Alert profile: This defines the criteria and parameters for generating alerts, such as the time horizon, the planning version, the planning mode, and the alert threshold. You can create different alert profiles for different planning scenarios or objectives.

Authorization profile: This defines the access rights and restrictions for the alert monitor, such as the planning objects, the locations, the products, and the resources that a user can view or edit. You can assign an overall profile to an authorization profile to control which alerts a user can see or process.

Therefore, to set up the alert monitor, you need to assign the alert profile to the overall profile (B) and assign the overall profile to the authorization profile (D). Creating an object selection variant for priority-category-related alerts (A) or production-planning-related alerts (C) is not a configuration step, but a selection option in the alert monitor to filter the alerts by different criteria. Reference:

NEW QUESTION # 53

You have a scheduling agreement with a vendor. You want classic MRP to automatically create schedule lines in case of material shortage. What must you do?

Note: There are 2 correct answers to this question.

- A. Add the agreement to the source list mark it for MRP relevance.
- B. Add the agreement to the quota arrangement mark it for MRP relevance.
- C. Set the creation indicator for delivery schedule lines on the initial screen of the MRP run.
- D. Set the creation indicator for purchase requisitions on the initial screen of the MRP run.

Answer: A,C

NEW QUESTION # 54

What happens when you set up detailed scheduling with the finite scheduling mode Insert Operation? Note:

There are 2 correct answers to this question.

- A. Changes are automatically implemented in the complete collective order.
- B. Sequencing on multi-activity resources is automatically updated.
- C. Neighboring operations can be moved in both directions in order to create a slot.
- D. Scheduling of an operation takes place as close as possible to the desired date.

Answer: C,D

Explanation:

In SAP S/4HANA PP/DS, the Insert Operations scheduling mode (configured in the strategy profile, e.g., /SAPAPO/CDPSC11) is a finite scheduling option that inserts a new operation into an existing schedule while respecting capacity constraints. Effects include:

* Scheduling of an operation takes place as close as possible to the desired date (A): The system schedules the operation (e.g., in /SAPAPO/PPDS_DISP) at the earliest feasible time slot near the desired date (specified in the order or planning parameters), considering finite capacity and resource availability.

* Neighboring operations can be moved in both directions in order to create a slot (C): To accommodate the new operation, the system shifts existing operations forward or backward (within tolerances defined in the strategy profile), ensuring a feasible slot without overloading the resource.

Sequencing on multi-activity resources (B) isn't automatically updated-this requires a separate heuristic (e.g., /SAPAPO/HEUR_SEQUENCE). Changes in the complete collective order (D) don't occur automatically- collective orders require explicit rescheduling of linked orders, not an inherent feature of Insert Operation.

This is per SAP's PP/DS scheduling documentation.

NEW QUESTION # 55

Which of the following are possible configuration steps when setting up the alert monitor in Advanced Planning? Note: There are 2 correct answers to this question.

- A. Assign the alert profile to the overall profile.
- B. Create an object selection variant for production-planning-related alerts.
- C. Create an object selection variant for alerts according to the priority of ATP categories.
- D. Assign the overall profile to the authorization profile.

Answer: A,B

Explanation:

The Alert Monitor in SAP S/4HANA PP/DS (transaction /SAPAPO/AMON1) highlights planning issues.

Configuration steps include:

* Assign the alert profile to the overall profile (A): In Customizing (/SAPAPO/ALERT_PROFILE), you define an alert profile (e.g., specifying alert types like capacity overload) and assign it to an overall profile (e.g., in /SAPAPO/CDPSC11). This links alert

settings to planning applications (e.g., Planning Board).

* Create an object selection variant for production-planning-related alerts(D): You create a variant (e.g., in /SAPAPO/AMON_SETTING) to filter objects (e.g., materials, resources) for which alerts are monitored, tailoring it to production planning issues (e.g., late orders, shortages).

Assign the overall profile to the authorization profile(B) is incorrect-overall profiles link to planning, not authorization (handled via PFCG roles).Object selection variant for ATP categories(C) relates to availability checks, not production planning alerts, which focus on PP/DS issues. This is per SAP's Alert Monitor setup.

NEW QUESTION # 56

.....

Many people are afraid that after they buy our C-TS422-2023 guide torrent they may fail in the exam and the refund procedure will be very complicated. We guarantee to you that the refund process is very simple and only if you provide us the screenshot or the scanning copy of your failure marks we will refund you in full immediately. If you have doubts or problems about our C-TS422-2023 Exam Torrent, please contact our online customer service or contact us by mails and we will reply and solve your problem as quickly as we can. We won't waste your money and your time and if you fail in the exam we will refund you in full immediately at one time. We provide the best C-TS422-2023 questions torrent to you and don't hope to let you feel disappointed.
