

The Open Group OGEA-103 Exam Cram Pdf - Reliable OGEA-103 Test Sims

The-Open-Group-OGEA-103 Exam F.A.Q.

- **How do I pass the The-Open-Group-OGEA-103 exam?**

Practice with our excellent exam pdf Exam questions on your desktop computer or mobile device. Study difficult questions and answers from our provided PDF and put your trust in PassExam4Sure.com, you won't Regret It!

- **Where do I find the real The-Open-Group-OGEA-103 exam questions?**

You've come to the correct spot. We provide the most up-to-date and accurate questions, thorough answers verified by our specialists. That's what you'll get here at PassExam4Sure.com.

- **How to find updated The-Open-Group-OGEA-103 Exam Dumps?**

The majority of individuals simply type "[The-Open-Group-OGEA-103 Dumps](#)" into The-Open-Group and receive useless text files and PDFs in return which have outdated questions with the wrong Answers but we at PassExam4Sure Provide Updated Exam questions with verified answers with Explanation.

- **What are The-Open-Group-OGEA-103 dumps?**

Practice tests, often known as braindumps, are simulated questions and answers taken straight from the real examinations. During the actual t our exam Dumps.

P.S. Free & New OGEA-103 dumps are available on Google Drive shared by DumpTorrent: <https://drive.google.com/open?id=10bHtGsJhx8fjNYnC5AeAzpQH7eDbCQLk>

If you want to get a desirable position and then achieve your career dream, you are at the right place now. Our OGEA-103 Study Tool can help you pass the exam. So, don't be hesitate, choose the OGEA-103 test torrent and believe in us. Let's strive to our dreams together. Life is short for us, so we all should cherish our life. The OGEA-103 test torrent can let users in a short time, accurately grasp the proposition trend of each year, doing all effects in the process of the difficulties in the hot, user's weak link and targeted training, and exercise the user's solving problem ability, eventually achieve the objectives of the pass TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam qualification test.

The OGEA-103 exam is a comprehensive test that covers both the foundational concepts of enterprise architecture and the practical application of the TOGAF framework. OGEA-103 exam consists of two parts, each with 40 multiple-choice questions. Part 1 focuses on the basic concepts and terminology of enterprise architecture, while Part 2 covers the more advanced topics and the practical application of the TOGAF framework.

The OGEA-103 Exam is designed to test the candidate's understanding of the TOGAF framework, its components, and its application in real-world scenarios. OGEA-103 exam covers a range of topics, including the TOGAF Architecture Development Method (ADM), architectural content framework, enterprise continuum, architecture governance, and more. OGEA-103 Exam is conducted online and consists of multiple-choice questions.

The Open Group is a global consortium that brings together leading organizations to develop open technology standards and certifications. One of their most popular certifications is the TOGAF Enterprise Architecture (EA) Combined Part 1 and Part 2 exam, also known as OGEA-103. TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam certification is designed to validate an individual's knowledge and understanding of the TOGAF framework, which is widely used to develop and manage enterprise architecture.

Reliable OGEA-103 Test Sims | New OGEA-103 Exam Testking

Due to busy routines, applicants of the TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam (OGEA-103) exam need real TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam (OGEA-103) exam questions. When they don't study with updated The Open Group OGEA-103 practice test questions, they fail and lose money. If you want to save your resources, choose updated and actual TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam (OGEA-103) exam questions of DumpTorrent.

The Open Group TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam Sample Questions (Q118-Q123):

NEW QUESTION # 118

Refer to the table below:

Phase	Output & Outcome	Essential Knowledge
?	Completion of the projects to implement the changes necessary to reach the adjusted target state.	Purpose and constraints on the implementation team. (Gap, Architecture Requirement Specification, Control) How stakeholder priority and preference adjust in response to success, value, effort, and risk of change. (Stakeholder Requirements)

Which ADM Phase does this describe?

- A. Phase E
- B. Phase F
- **C. Phase G**
- D. Phase A

Answer: C

Explanation:

The table describes the output, outcome, and essential knowledge of an ADM phase that oversees the implementation of changes necessary to reach the adjusted target state. This corresponds to Phase G, also known as Implementation Governance, which ensures that the architecture defined in earlier phases is realized, and it oversees the development and implementation of projects to align with this architecture. The essential knowledge required during this phase includes understanding constraints on the implementation team and adjusting stakeholder priority and preference in response to success, value, effort, and risk of change.

NEW QUESTION # 119

Which of the following describes how the Enterprise Continuum is used when developing an enterprise architecture?

- A. To coordinate with the other management frameworks in use
- B. To describe how an architecture addresses stakeholder concerns
- C. To identify and understand business requirements
- **D. To classify architecture and solution assets**

Answer: D

Explanation:

The Enterprise Continuum consists of two complementary concepts: the Architecture Continuum and the Solutions Continuum¹. The Architecture Continuum provides a consistent way to describe and understand the generic and reusable architecture building blocks,

such as models, patterns, and standards, that can be applied and tailored to specific situations². The Solutions Continuum provides a consistent way to describe and understand the specific and implemented solution building blocks, such as products, services, and components, that realize the architecture building blocks³. The Enterprise Continuum enables the reuse and integration of architecture and solution assets across different levels of abstraction, scope, and detail, ranging from foundation architectures to organization-specific architectures¹.

The Enterprise Continuum is used when developing an enterprise architecture to support the following activities¹:

- * Selecting relevant architecture and solution assets from the Architecture Repository or other sources, based on the business drivers, goals, and requirements
- * Adapting and customizing the architecture and solution assets to suit the specific needs and context of the enterprise
- * Defining and developing the target architecture and the architecture roadmap, based on the gaps and opportunities identified between the baseline and the target states
- * Defining and developing the implementation and migration plan, based on the architecture roadmap and the solution building blocks
- * Governing and managing the architecture and solution assets throughout the architecture lifecycle, ensuring their quality, consistency, and compliance

NEW QUESTION # 120

Which of the following best describes purpose of the Business Scenarios?

- A. To guide decision making throughout the enterprise
- **B. To identify and understand requirements**
- C. To identify risk when implementing an architecture project
- D. To catch errors in a project architecture early

Answer: B

Explanation:

Business scenarios are a technique for capturing, clarifying, and communicating the functional and non-functional requirements of a system. Business scenarios describe the business environment, the actors involved, the desired outcomes, and the processes or rules that govern the behavior of the system. Business scenarios are useful for ensuring that the architecture addresses the real needs and concerns of the stakeholders, and for validating and testing the architecture against expected situations. Business scenarios are developed in Phase A: Architecture Vision of the ADM cycle, and refined and updated throughout the other phases³ References: 3: The TOGAF Standard, Version 9.2, Part III: ADM Guidelines and Techniques, Chapter 26: Business Scenarios : The TOGAF Standard, Version 9.2, Part II: Architecture Development Method (ADM), Chapter 18: Phase A: Architecture Vision

NEW QUESTION # 121

Consider the following descriptions of deliverables consumed and produced across the TOGAF ADM cycle.

1	General rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets about fulfilling its mission
2	A set of quantitative statements that outline what an implementation project must do in order to comply with the architecture.
3	A document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle
4	The scope and approach that will be used to complete an architecture development cycle

Which deliverables match these descriptions?

- A. 1 Architecture Principles - 2 Architecture Requirements Specification - 3 Request for Architecture Work - 4 Statement of Architecture Work
- B. 1 Statement of Architecture Work - 2 Architecture Principles - 3 Architecture Requirements Specification - 4 Request for Architecture Work
- **C. 1 Request for Architecture Work - 2 Statement of Architecture Work - 3 Architecture Principles - 4 Architecture**

Requirements Specification

- D. 1 Architecture Requirements Specification - 2 Request for Architecture Work - 3 Statement of Architecture Work - 4 Architecture Principles

Answer: C

Explanation:

The Request for Architecture Work is a deliverable that is sent from the sponsor and triggers the start of an architecture development cycle. It defines the scope, budget, schedule, and deliverables for a specific architecture project. The Statement of Architecture Work is a deliverable that is produced by the architect and defines the approach and resources needed to complete an architecture project. It forms the basis of a contractual agreement between the sponsor and the architecture organization. The Architecture Principles are a deliverable that is produced by the architect and defines the general rules and guidelines for the architecture work. They reflect the business principles, business goals, and business drivers of the organization. The Architecture Requirements Specification is a deliverable that is produced by the architect and defines the requirements that govern the architecture work. It covers both functional and non-functional requirements as well as constraints and assumptions.

NEW QUESTION # 122

Complete the sentence Business Transformation Readiness Assessment is _____.

- **A. a joint effort between corporate staff lines of business and IT planners**
- B. a way to put building blocks into context thereby supporting re-usable solutions
- C. widely used to validate an architecture that is being developed
- D. to ensure the active support of powerful stakeholders

Answer: A

Explanation:

Explanation

Business Transformation Readiness Assessment is a joint effort between corporate staff lines of business and IT planners to evaluate the readiness of the organization to undergo change. It involves assessing factors such as vision, commitment, capacity, capability, culture, and motivation that may influence the success of a business transformation initiative. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.2 Business Transformation Readiness Assessment.
