- B. The team is able to commit to a set of goals to be delivered in the Iteration
- C. The team is able to prepare requirements for Iteration Planning
- D. The team aligns on the progress of Iteration Goals

Answer: D

Explanation:
The Team Sync (or Daily Stand-up) in SAFe is a short, focused, timeboxed event that allows the team to align on progress toward iteration goals, identify impediments, and plan the next 24 hours.

The meeting promotes transparency and collaboration, ensuring that all team members are aware of progress and issues that could affect delivery. It also reinforces self-management by allowing the team to adapt plans daily based on new information.
From SAFe guidance:
