Avail Perfect Reasonable HPE7-J02 Exam Price to Pass HPE7-J02 on the First Attempt

As long as you face problems with the HPE7-J02 exam, our company is confident to help you solve. Give our HPE7-J02 practice quiz a chance to give you a chance to succeed. We are very willing to go hand in hand with you on the way to preparing for HPE7-J02 Exam. And we have three different versions of our HPE7-J02 learning materials, you will find that it is so interesting and funny to study with our study guide.

HP Advanced HPE Storage Integrator Solutions Written Exam Sample Questions (Q36-Q41):

NEW QUESTION # 36

Your customer is a software development company using Kubernetes, Canonical, and Tanzu. They are expanding their Dev/Ops container environment and are considering HPE Private Cloud Business Edition (PCBE).

What is a unique benefit that HPE PCBE would bring to this customer's environment?

- A. Multi-tenant VASA
- B. Container level protection
- C. Full stack intelligence
- D. Infinite scale to the customer at no additional cost

Answer: C

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

HPE PCBE provides full-stack intelligence across compute, storage, and virtualization layers. It integrates with Kubernetes distributions like Tanzu and Canonical, giving visibility and lifecycle automation across the entire stack. This helps Dev/Ops teams simplify operations, capacity planning, and performance optimization in hybrid environments.

Distractors:

B: Multi-tenant VASA applies more to VMware vVols in multi-tenant setups.

C: No platform offers "infinite scale at no cost" - this is misleading.

D: Container-level protection is delivered through HPE CSI with data protection solutions, not unique to PCBE.

Key Concept: HPE PCBE delivers unified lifecycle management with full-stack intelligence.

Reference: HPE Private Cloud Business Edition Overview.

NEW QUESTION # 37

A customer is replacing their HPE 3PAR 8200 Peer Persistence setup with Alletra 6000. In a recent audit, they were warned that the Quorum Witness VM was missing security updates.

How would you respond regarding the new setup?

- **A. Quorum witness is deployed as a SaaS option, and security updates are applied automatically.**
- B. Quorum witness is installed as a service on a supported Linux server, which can be updated as needed.
- C. Quorum witness appliance can be set to automatically download and apply available updates.
- D. Quorum witness appliance security patch updates follow the array release train updates.

Answer: A

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

With Alletra and Primera Peer Persistence, the Quorum Witness is no longer a self-hosted VM. It is delivered as a cloud-based SaaS service managed by HPE. This eliminates customer responsibility for patching and ensures HPE automatically applies updates and security fixes. This resolves the audit concern.

Distractors:

A: Applies to older 3PAR environments, not Alletra/Primera.

C/D: Quorum Witness is no longer an appliance - it is SaaS managed, so these don't apply.

Key Concept: Alletra Quorum Witness is SaaS-managed, removing patching responsibility.

Reference: HPE Alletra Peer Persistence and Cloud Quorum Witness Guide.

NEW QUESTION # 38

Your customer is beginning to convert their applications to cloud-native apps on Kubernetes. They are considering HPE GreenLake for Containers.

Which statement about this platform is true?

- A. Supports only cloud-native applications.
- **B. Provides open-source Kubernetes with simplified management.**
- C. Supports legacy virtualization technologies with manual configuration for containers.
- D. Provides tools for orchestration of containers without microservices support.

Answer: B

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

HPE GreenLake for Containers delivers an enterprise-grade Kubernetes platform, leveraging open-source Kubernetes but with simplified lifecycle management, monitoring, and integration with HPE infrastructure. It provides full support for containerized workloads, whether cloud-native or modernized traditional applications.

Distractors:

A: Incorrect - not about legacy virtualization.

B: Incorrect - microservices are supported; orchestration is Kubernetes-native.
D: Incorrect - it supports both cloud-native and modernized workloads.
Key Concept: GreenLake for Containers = Kubernetes with simplified enterprise management.
Reference: HPE GreenLake for Containers Overview.

NEW QUESTION # 39

An HPE Alletra 6030 with 138TB flash kit needs a storage expansion. The BOM lists only a 46TB Expansion Shelf, including price. What should you take into account?

- A. Total supported capacity will be exceeded with the proposed configuration.
- B. Both Controllers need 100Gb OCP adapters for the expansion shelf connection.
- C. The expansion shelf needs to include the 24G SAS cables.
- D. QSFP+ DAC cables are required if NVMe media is used.

Answer: C

Explanation:

Detailed Explanation:

Rationale for Correct Answer:

Alletra 6000 expansion shelves connect via 24G SAS back-end connectivity. The BOM must include the required SAS cables to properly attach the shelf. If only the shelf is listed, it's incomplete - SAS connectivity accessories must be added.

Distractors:

B: The supported max capacity is higher than 138TB + 46TB, so it won't exceed limits.

C: Expansion shelves don't use OCP adapters; they rely on SAS backend ports.

D: QSFP+ DACs are used for front-end networking (iSCSI/FC), not SAS shelf expansion.

Key Concept: Alletra 6000 expansions require 24G SAS cables included in the BOM.

Reference: HPE Alletra 6000 Hardware Installation Guide.

NEW QUESTION # 40

Exhibit shows HPE StoreOnce Catalyst Store Security Settings:

Server Controlled Data Immutability enabled (7 days).

Maximum ISV Controlled Data Immutability Retention (90 days).

Which statement is correct?

- A. The Maximum ISV Controlled Data Immutability Retention parameter must be set to 0 for optimal Veeam v12 support.
- B. Server-Controlled Data Immutability is required to achieve the highest immutability with Veeam v12 backups.
- C. Maximum ISV Controlled Data Immutability Retention allows the ISV backup application to manage item-level immutability.
- D. Server-Controlled and ISV-Controlled Data Immutability values do not need to match when both are configured.

Answer: C

NEW QUESTION # 41

.....

Despite the complex technical concepts, our HPE7-J02 exam questions have been simplified to the level of average candidates, posing no hurdles in understanding the various ideas. It is also the reason that our HPE7-J02 study guide is famous all over the world. We also have tens of thousands of our loyal customers who support us on the HPE7-J02 Learning Materials. Just look at the feedbacks on our website, they all praised our HPE7-J02 practice engine.

Braindumps HPE7-J02 Pdf: https://www.dumpleader.com/HPE7-J02_exam.html

ExamCollection HPE7-J02 bootcamp may be the great breakthrough while you feel difficult to prepare for your exam, Dumpleader Braindumps HPE7-J02 Pdf has made this customized service on the increased and constant demand from customers requesting their exams to be made available quickly, First of all, our HPE7-J02 test training vce has a clear grasp to the examination syllabus, Our HPE7-J02 guide torrent has gone through strict analysis and summary according to the past exam papers and the popular trend in the industry and are revised and updated according to the change of the syllabus and the latest development conditions in the theory and the practice.

But use is spreading to smaller firms as they HPE7-J02 Reliable Braindumps Questions realize the benefits of crowdsourced work low costs, speed, scale also apply to small business tasks, Daniel Pollack is a System Administrator HPE7-J02 Reliable Braindumps Questions for America Online, where he is responsible for large-scale storage systems.
