guide,so you can easily understand the importance of choosing a high quality and accuracy H19-427_V1.0-ENU training engine. You will have handsome salary get higher chance of winning and separate the average from a long distance and so on.

Huawei HCSE-Presales-Campus Network Planning and Design V1.0 Sample Questions (Q135-Q140):

NEW QUESTION # 135

Huawei switches integrate the WAC functionality with their onboard AC. What are the advantages of achieving deep convergence between wired and wireless networks?

- A. Unified management of wired and wireless users
- B. Wired and wireless authentication points in one
- C. Unified management of wired and wireless services
- D. Separation of wired and wireless strategic points
- E. Wired and wireless independent forwarding

Answer: A,B,C,D

NEW QUESTION # 136

Which of the following statements regarding the requirements for confirming on-site environmental information during a site survey are correct? (Multiple choice)

- A. When surveying indoors, refer to the drawings to distinguish the types of obstacles, mark the actual location and material of each type of obstacle, mark different obstacles with different colors, and test their 2.4G and 5G attenuation peaks.
- B. Take as many photos of the indoor scene as possible, paying special attention to the equipment installation location, overall coverage area, internal building structure, and any new obstacles. For outdoor coverage, focus only on obstacles between the AP and the coverage area.
- C. When surveying indoor spaces, be sure to mark out any obstacles that may affect the coverage, such as load-bearing columns and large objects added during interior design to block ceilings.
- D. Confirm whether the site is completely consistent with the architectural drawings. Mark out any inconsistent areas, take photos as much as possible, and mark the room numbers on the drawings.

Answer: A,C,D

NEW QUESTION # 137

In the campus virtualization solution, which network topology is not supported by Underlay routing automation?

- A. Converged ring networking
- B. Core transparent transmission ring network
- C. Tree networking
