The benefit in Obtaining the 312-76 Exam Certification

- After completing EC-Council Certified Disaster Recovery Professional certification Candidate becomes a solid, well-rounded EC-council Certified Disaster Recovery Professional.
- When an organization hiring or promotion an employee, then the decision is made by human resources. Now while Candidate may have an IT background, they do their decisions in a way that takes into record many different factors. One thing is candidates have formal credentials, such as the EC-council Certified Disaster Recovery Professional.
- If the Candidate has the desire to move up to a higher-paying position in an organization. This certification will help as always.
- A candidate might have incredible IT skills. Employers that do the hiring need to make decisions based on limited information and as it always. When they view the official EC-council Certified Disaster Recovery Professional certification, they can be guaranteed that a candidate has achieved a certain level of competence.

EC-COUNCIL EC-Council Disaster Recovery Professional (EDRP) Sample Questions (Q153-Q158):

NEW QUESTION # 153

Matt is unable to boot his Windows Server 2012 system after an OS update. He later finds out that some of the important files of

the boot manager are corrupted and that led to boot manager failure. However, he tries to recover the boot manager using the Command Prompt present in the System Recovery option. Which Command Prompt command should Matt use in this scenario?

- A. repadmin /showrepl
- **B. Bootrec /RebuildBCD**
- C. sfc /scannow
- D. ntdsutil

Answer: B

Explanation:

Bootrec /RebuildBCD repairs the Boot Configuration Data (BCD) store, fixing boot manager corruption, as Matt needs for Windows Server 2012.

- * Option A (sfc /scannow): Scans system files, not boot-specific.
- * Option B (ntdsutil): Active Directory tool, not boot repair.
- * Option D (repadmin): Replication diagnostics, not boot-related.
- * "Bootrec /RebuildBCD in Windows recovery rebuilds the BCD store, resolving boot manager issues post-update" (Module: System Recovery, Section: Windows Recovery Commands).

NEW QUESTION # 154

Which of the following is not a component of BIA?

- **A. Safety**
- B. Formation of Committee
- C. Feedback
- D. Executive Sponsorship

Answer: A

Explanation:

Business Impact Analysis (BIA) is a process to identify critical business functions and assess the impact of disruptions. Its components typically include executive sponsorship (to ensure leadership support), formation of a committee (to conduct the analysis), and feedback (to refine the process). Safety, while important in disaster recovery, is not a direct component of BIA, which focuses on operational and financial impacts rather than physical safety measures.

- * Option A (Feedback): Essential for validating and improving BIA findings.
- * Option B (Executive Sponsorship): Critical for resource allocation and authority.
- * Option D (Formation of Committee): Necessary for collaboration and execution.
- * EDRP v3 outlines BIA components, excluding safety as a core element, focusing instead on impact assessment and resource prioritization (Module: Business Impact Analysis).

NEW QUESTION # 155

DRAG DROP

Drag and drop the appropriate team names in front of their respective responsibilities.

Select and Place:

□

Answer:

Explanation:

□

NEW QUESTION # 156

IT Service Continuity Management (ITSCM) is used to support the overall Business Continuity Management (BCM) in order to ensure that the required IT infrastructure and the IT service provision are recovered within an agreed business time scales. Which of the following are the benefits of implementing IT Service Continuity Management?
