## SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q36-Q41):

### NEW QUESTION # 36

How can a metric be created in SAP Signavio Process Intelligence? Note: There are 3 correct answers to this question.

- **A. Add a metric from the library**
- B. Upload logic from a Widget
- **C. Create a custom metric**
- D. Import a metric from SAP Signavio Process Manager
- **E. Import a metric based on a JSON file**

**Answer: A,C,E**

### NEW QUESTION # 37

What does the so-called Best Run Score in plug and gain by SAP Signavio indicate?

- A. The extent of process automation in the ERP system
- B. The size of the data backlog in the ERP system
- **C. The efficiency of processes based on SAP recommendations**
- D. The number of cases that have completed the process in time

**Answer: C**

### NEW QUESTION # 38

Which are the main aspects of filters in SAP Signavio Process Intelligence? Note: There are 2 correct answers to this question.

- **A. They can be additive.**
- **B. They can be applied on the investigation, on the chapter, and on a Widget.**
- C. They can be used to filter different data sets.
- D. They can be applied across processes.

**Answer: A,B**

### NEW QUESTION # 39

What are the different decision types when using an Exclusive Gateway in SAP Signavio Process Governance? Note: There are 2 correct answers to this question.

- A. Event-based
- **B. Manual**
- C. Individual
- **D. Automated**

**Answer: B,D**

Explanation:

In SAP Signavio Process Governance, when using an Exclusive Gateway, decisions can be categorized as either Automated or

Manual. These decision types determine how the path through the process is chosen at the gateway:

- \* Option A (Automated): An automated decision at an Exclusive Gateway is made based on predefined rules or conditions without human intervention. These rules can be based on data inputs or process variables that direct the flow of the process automatically.
- \* Option B (Manual): A manual decision requires human input to choose the path forward. This type of decision is common in processes where judgement or evaluation is needed to determine the next steps.

#### NEW QUESTION # 40

What kind of information does guided analysis provide? Note: There are 3 correct answers to this question.

- A. Predefined dashboards
- B. How to analyze the results from using filters
- C. What type of filters to use
- D. Performance indicators
- E. Process improvement opportunities

**Answer: C,D,E**

Explanation:

Guided analysis in SAP Signavio Process Intelligence delivers structured insights to simplify process analysis for users. The documentation details the types of information provided:

\* Exact Extract: "Guided analysis provides:

\* Performance Indicators: Key metrics such as cycle time, throughput, or error rates to evaluate process performance.

\* What Type of Filters to Use: Suggestions for relevant filters to narrow down data and focus on specific issues, such as high-cost cases or delayed steps.

\* Process Improvement Opportunities: Recommendations for optimizing processes, such as eliminating bottlenecks or standardizing variants." (SAP Signavio Process Intelligence User Guide, section on "Guided Analysis Outputs").

\* Explanation:

\* Option A (Performance indicators): Guided analysis highlights KPIs to assess process efficiency, such as average processing time or error frequency.

\* Option C (What type of filters to use): It suggests appropriate filters (e.g., by region, time period, or activity) to refine analysis and focus on critical areas.

\* Option D (Process improvement opportunities): It offers actionable suggestions, such as reducing redundant steps or addressing compliance issues, based on analysis results.

\* Option B (Predefined dashboards) is incorrect as dashboards are manually configured in Process Intelligence, not automatically provided by guided analysis.

\* Option E (How to analyze the results from using filters) is incorrect because guided analysis provides filter suggestions, not detailed instructions on analyzing filter results.
