

Reliable Slack-Admn-201 Study Guide & Slack-Admn-201 Valid Brainsdumps

Correct Answer: D

Question 3. (Multi Select)

[Channel Management]

Medium Inc's #hr-benefits channel is a default channel designed to educate employees on benefit information and updates. However, it is now filled with requests for benefits help. Sometimes people even post sensitive personal information when asking questions.

Which TWO options, combined, present the best solution to reduce noise in this channel? (Choose two.)

- A: Limit the posting permissions to Org Admins, plus specific people.
- B: Create a private channel and implement a personal benefits workflow, which doesn't broadcast the sensitive information in channel.
- C: Encourage employees to direct message the HR team with questions and confidential information.
- D: Archive the channel and create a new channel to eliminate the noise.

Correct Answer: A, B

Question 4. (Single Select)

[Enterprise Grid Configuration]

Takeshi is an Org Admin on Enterprise Grid. A business leader asks him to create an org-wide channel for a cross-functional company project, but he replies that he needs to create a cross-workspace channel instead.

Which of the following best describes why a multi-workspace channel is more appropriate than an org-wide channel in this scenario?

help you keep making progress. Choosing our Slack-Admn-201 Study Material, you will find that it will be very easy for you to overcome your shortcomings and become a persistent person. Just come and buy our Slack-Admn-201 learning guide!

Salesforce Certified Slack Administrator Sample Questions (Q104-Q109):

NEW QUESTION # 104

Large Corp is shutting down its Marketing team based in Europe. Deprovisioning is supported through their IdP. When Large Corp removes users from their IdP, what will happen to their Slack accounts?

- A. Their Slack accounts will be deleted permanently, and all messages and files will be deleted, as well, for compliance reasons.
- B. Their accounts will be deactivated, but they won't be signed out of their devices. A session reset is also required.
- C. Their accounts will be deactivated, they will be signed out on all of their devices, and their accounts will be removed from channels. However, their messages and files won't be deleted.
- D. Their accounts will be deactivated, they will be signed out on all of their devices, and their accounts will be removed from channels. However, only their messages and files in direct messages will be deleted.

Answer: C

Explanation:

When users are deprovisioned via SCIM or IdP integration:

"Their accounts are deactivated, they are signed out from all sessions, and their accounts are removed from channels, but their messages and files remain intact in Slack unless a separate data retention policy dictates otherwise." Slack retains historical content unless specifically configured for deletion.

(Reference: Slack Administration Study Guide - Deactivation and Deprovisioning via SCIM)

-

NEW QUESTION # 105

You recently joined an organization that is on Slack's Enterprise Grid plan and because of your previous Slack Admin experience, you were added as a Grid Owner. You notice the organization is still managing provisioning manually, using a "just-in-time" process. At your last company, you saw the benefits of connecting identity provider (IdP) groups to Slack.

Which two aspects of IdP group mapping will benefit your current organization?

(Select the TWO best answers.)

- A. It will enable automatic additions of members in an IdP group to channels within your organization.
- B. It will enable automatic additions and removals of members in an IdP group to workspaces within your organization.
- C. It will enable member provisioning as a required step for all Org Owners.
- D. It will enable automatic approvals and authentications of integrations within your organization.
- E. It will enable automatic additions and removals of members in an IdP group to Slack Connect channels within your organization.

Answer: A,B

Explanation:

According to Slack's official documentation on IdP group management:

"Mapping IdP groups to Slack allows automatic provisioning and deprovisioning of users to workspaces and user groups. Members added to an IdP group are automatically added to associated Slack user groups and workspaces." This dramatically reduces manual effort and ensures correct workspace and channel access is kept current.

Slack Connect (C) is external collaboration and not managed directly via IdP groups. D and E are unrelated to IdP functionality.

(Reference: Slack Administration Study Guide - Identity Provider Group Mapping)

-

NEW QUESTION # 106

You are Workspace Admin of a small but fast-growing organization on Slack's Free plan.

You need to improve the security of logins and automate provisioning of Slack users to save time and expedite onboarding, while being mindful of costs.

Which Slack feature and plan will suit this need?

- A. SAML single sign-on (SSO) and identity provider (IdP) groups on the Slack Business+ plan

- B. Mandatory two-factor authentication (2FA) on the Slack Free plan
- C. Mandatory SAML single sign-on (SSO) and identity provider (IdP) groups on Slack Enterprise Grid
- D. Google Workspace single sign-on (SSO) and user groups on the Slack Pro plan

Answer: A

Explanation:

Slack best practices state:

"SAML-based SSO and SCIM provisioning (through IdP groups) are available on the Business+ plan. This enables automation of user management and enhances login security." Google Workspace SSO (A) without SAML lacks the full control needed. 2FA (B) is a good practice but doesn't automate provisioning. Enterprise Grid (C) would be overkill and costly for a small organization. (Reference: Slack Administration Study Guide - Identity and Access Management)

-

NEW QUESTION # 107

Lydia, an Org Admin on Enterprise Grid, wants to appoint members from her company's corporate events team to invite external guests to Slack. However, these corporate events team members are regular Slack members, not Workspace Admins. Where should Lydia go to allow these individuals to start inviting guests on Slack?

- A. Workspace Transfer Ownership page
- **B. Organization Policies**
- C. Workspace Settings
- D. Workspace Invitations page

Answer: B

Explanation:

In Enterprise Grid, to manage who can invite guests:

"Org Admins can configure organization-wide policies that set permissions for inviting external users, including granting specific non-admin users the ability to invite guests." This is handled under Organization Policies, not through workspace-specific settings or ownership transfer.

(Reference: Slack Administration Study Guide - User Management and Org Policies)

-

NEW QUESTION # 108

You're a Workspace Admin for your organization's Slack Business+ instance. You need to report on the number of both daily and weekly active users within your workspace in the last 30 days.

Where can you find this information?

(Select the best answer.)

- A. Org analytics dashboard
- B. Analytics members dashboard
- **C. Workspace analytics dashboard**
- D. Message activity analytics

Answer: C

Explanation:

According to Slack official documentation:

"Workspace analytics allows Workspace Owners and Admins to view data about members, channels, and activity within the workspace, including daily and weekly active users." The Org Analytics Dashboard (A) is only available in Enterprise Grid. The Analytics Members Dashboard (B) focuses on member-specific stats, and Message Activity Analytics (D) focuses specifically on message data, not user activity overall.

(Reference: Slack Administration Study Guide - Workspace Analytics Overview)
