The majority of people struggle to locate outstanding Scrum PSPO-I exam dumps that can enable them to get ready for the real Scrum PSPO-I exam.

## Scrum Professional Scrum Product Owner I Sample Questions (Q15-Q20):

### NEW QUESTION # 15

Is it required to do testing tasks, necessary to achieve the Product Goal within the Sprint?

- A. NO
- B. YES

Answer: B

### NEW QUESTION # 16

Which two things are appropriate for a Scrum Master to do, if the Scrum Team does not have the tools and environment to completely finish each selected Product Backlog item?

(choose the best two answers)

- A. Encourage the Product Owner to accept partially done Increments until the situation improves.
- B. Have the Scrum Team establish a Definition of Done that is actually possible to achieve given current circumstances.
- C. Refocus the current Sprint on establishing the Scrum Team's environment instead of delivering an Increment.
- D. Coach the Scrum Team to improve its skills, tools and environment over time and adjust the Definition of Done accordingly.
- E. Declare the Scrum Team not ready for Scrum.

**Answer: B,D**

Explanation:

Scrum  
 Explore

The correct answers are A and D.

A: Coach the Scrum Team to improve its skills, tools and environment over time and adjust the Definition of Done accordingly. This is an appropriate action for a Scrum Master, as it helps the Scrum Team to overcome the impediments that prevent them from delivering a potentially releasable Increment. The Definition of Done should reflect the current reality of the Scrum Team, but also be a source of continuous improvement<sup>12</sup>.

D; Have the Scrum Team establish a Definition of Done that is actually possible to achieve given current circumstances. This is also an appropriate action for a Scrum Master, as it ensures that the Scrum Team has a clear and shared understanding of what it means to complete a Product Backlog item. The Definition of Done should be realistic and achievable, but also challenging and ambitious<sup>12</sup>.

B: Refocus the current Sprint on establishing the Scrum Team's environment instead of delivering an Increment. This is not an appropriate action for a Scrum Master, as it violates the purpose of the Sprint, which is to deliver a valuable product Increment that meets the Sprint Goal. The Scrum Team should not change the Sprint Goal or scope during the Sprint, unless the Product Owner decides to cancel the Sprint<sup>3</sup>.

C: Encourage the Product Owner to accept partially done Increments until the situation improves. This is not an appropriate action for a Scrum Master, as it compromises the quality and value of the product. The Product Owner should only accept Increments that meet the Definition of Done and the acceptance criteria. Partially done Increments increase technical debt and risk, and reduce transparency and feedback<sup>12</sup>.

E: Declare the Scrum Team not ready for Scrum. This is not an appropriate action for a Scrum Master, as it undermines the Scrum values and principles. The Scrum Master should support the Scrum Team in adopting and applying Scrum, regardless of the challenges and constraints they face. The Scrum Master should foster a culture of empiricism, self-organization, collaboration, and continuous improvement.

#### NEW QUESTION # 17

Which best describes the Product Backlog?  
(choose the best answer)

- A. It provides just enough information to enable a Scrum Team to start the design phase of a product.
- B. It contains all foreseeable tasks and requirements from which the Scrum Team can develop and maintain a complete project plan.
- **C. It is allowed to grow and change as more is learned about the product and its customers.**
- D. It is baselined to follow change management processes.

**Answer: C**

Explanation:

The Product Backlog is an emergent, ordered list of what is needed to improve the product. It is the single source of work undertaken by the Scrum Team. The Product Backlog is dynamic; it constantly changes to identify what the product needs to be appropriate, competitive, and useful. The other options are not accurate descriptions of the Product Backlog, as it does not contain all foreseeable tasks and requirements, it does not provide just enough information to start the design phase, and it is not baselined to follow change management processes<sup>23</sup>.

2: What is a Product Backlog? | Agile Alliance  
3: Product Backlog: Definition, Examples and Techniques | Wrike Guide

#### NEW QUESTION # 18

Which approach is best for Scrum Teams in order to produce valuable Increments?  
(choose the best answer)

- **A. Each Scrum Team is accountable for developing functionality from beginning to end.**
- B. Each Developer works on the component where they feel that they can contribute.
- C. Each Scrum Member works only as an independent layer of the system.
- D. Each Scrum Team works on an independent set of components.

**Answer: A**

Explanation:

The best approach for Scrum Teams to produce valuable Increments is to be accountable for developing functionality from beginning to end, as this enables them to deliver potentially releasable products that meet the definition of "Done". The Scrum Guide states that "The Developers are the people in the Scrum Team that are committed to creating any aspect of a usable Increment each Sprint." This means that the Developers are not limited by the boundaries of components, layers, or technologies, but rather they collaborate and coordinate to deliver a complete and integrated product that satisfies the Sprint Goal and the Product Owner's expectations.

### NEW QUESTION # 19

Who owns the Sprint Backlog?

(choose the best answer)

- A. The Scrum Master.
- B. The Scrum Team.
- C. The Product Owner.
- **D. The Developers.**

**Answer: D**

Explanation:

According to Scrum.org, the Developers own the Sprint Backlog12. The Sprint Backlog is a plan by and for the Developers1. It is a highly visible, real-time picture of the work that the Developers plan to accomplish during the Sprint in order to achieve the Sprint Goal1. Consequently, the Sprint Backlog is updated throughout the Sprint as more is learned1.

### NEW QUESTION # 20
