## Pass-Sure C-S4CPB-2502 Reliable Exam Tips & Passing C-S4CPB-2502 Exam is No More a Challenging Task

We provide you with two kinds of consulting channels if you are confused about some questions on our C-S4CPB-2502 study materials. You can email us or contact our online customer service. We will reply you as soon as possible. You are free to ask questions about C-S4CPB-2502 training prep at any time since that we are working 24/7 online. Our staff is really very patient and friendly. They are waiting to give you the most professional suggestions on our C-S4CPB-2502 exam questions.

### SAP C-S4CPB-2502 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Implementing with a Cloud Mindset, Building the Team, and Conducting Fit-to-Standard Workshops: This section of the exam measures skills of ERP Implementation Project Manager and covers the fundamental aspects of implementing SAP Cloud ERP with a modern approach. It includes forming the right team, promoting agile thinking, and driving successful Fit-to-Standard workshops that align the project with business goals in a cloud environment.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Configuration and the SAP Fiori Launchpad: This section of the exam measures skills of SAP Cloud ERP Consultant and focuses on setting up system configurations in SAP Cloud ERP and understanding how to manage user navigation and interface personalization through the SAP Fiori Launchpad. It tests the consultant's ability to configure and align user experience with business roles.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Data Migration and Business Process Testing: This section of the exam measures skills of SAP Cloud ERP Consultant and evaluates the ability to plan and execute data migration strategies and validate business processes through structured testing. Candidates are expected to be familiar with tools and methods for importing legacy data and confirming its integrity post-migration.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Introduction to Cloud Computing and SAP Cloud ERP Basics: This section of the exam measures skills of ERP Implementation Project Manager and assesses foundational knowledge of cloud computing principles and SAP Cloud ERP structure. It ensures understanding of key differences from on-premise ERP, cloud deployment benefits, and basic navigation of cloud ERP systems.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>System Landscapes and Identity Access Management: This section of the exam measures skills of SAP Cloud ERP Consultant and involves understanding SAP's system landscape in the cloud, including tenants and environments. It also focuses on identity and access management, covering how user roles, permissions, and security are managed across the cloud ecosystem.</li></ul>

### SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q35-Q40):

#### NEW QUESTION # 35

Where is the initial list of known integrations documented?

- A. In SAP Cloud ALM
- B. In the Digital Discovery Assessment
- C. In the Fit-to-Standard Workshops
- D. In the Business Driven Configuration Questionnaire

Answer: B

#### NEW QUESTION # 36

Where are the manual test cases created for customer User Acceptance Testing?

- A. SAP Cloud ALM
- B. Test Automation Tool
- C. SAP Signavio Process Navigator

- D. SAP Solution Manager

**Answer: A**

#### NEW QUESTION # 37

When do you specify the data retention period in the SAP S/4HANA Migration Cockpit?

- A. When the project status is "Finished"
- B. When the project status is "Completed"
- C. When the project status is "In Progress"
- D. When the project status is "Not Started"

**Answer: A**

#### NEW QUESTION # 38

Which of the following are examples of indirect digital access? Note: There are 2 correct answers to this question.

- A. A Production Order created through a non-SAP front-end
- B. An unattended bot in SAP Build Process Automation
- C. A Defect document created through an industry application
- D. A Time Sheet Record from a 3rd party application

**Answer: C,D**

Explanation:

Indirect digital access occurs when humans, devices, or systems use the digital core indirectly through non-SAP intermediary software, such as a non-SAP front end, a custom-solution, or any other non-SAP application<sup>1</sup>. Indirect digital access is measured by the number of documents created, updated, or deleted in the SAP system as a result of the indirect use<sup>2</sup>. Examples of indirect digital access include:

- \* A Defect document created through an industry application: This is an example of indirect digital access because the industry application is a non-SAP software that triggers the creation of a document in the SAP system.
- \* A Time Sheet Record from a 3rd party application: This is also an example of indirect digital access because the 3rd party application is a non-SAP software that triggers the creation of a document in the SAP system.
- \* An unattended bot in SAP Build Process Automation: This is not an example of indirect digital access because the bot is using SAP software to access the SAP system directly, not through a non-SAP intermediary software.
- \* A Production Order created through a non-SAP front-end: This is not an example of indirect digital access because the production order is not a document type that is counted for indirect digital access. The document types that are counted are: Sales Order, Invoice, Purchase Order, Service and Maintenance Document, Manufacturing Document, Quality Management Document, Time Sheet, Financial Document, and Material Document<sup>2</sup>. References = Digital Access | SAP Help Portal, SAP Digital Access / SAP Digital Access Adoption Program (DAAP) Extension through December 31, 2021

#### NEW QUESTION # 39

What defines the organizational entities that are required in SAP Central Business Configuration?

Note:

There are 2 correct answers to this question

- A. Added partner content
- B. The selected scope
- C. The selected deployment target
- D. System consistency checks

**Answer: B,C**

Explanation:

The organizational entities that are required in SAP Central Business Configuration are defined by the selected deployment target and the selected scope. The deployment target specifies which SAP cloud solutions are included in the project, such as SAP S/4HANA Cloud, public edition. The scope specifies which business processes and countries/regions are included in the project, such as sales or professional services.

These choices determine which organizational units are required to run the underlying processes, such as company, business residence, sales organization, or project unit. Added partner content and system consistency checks do not define the organizational entities, but rather enhance or validate the configuration. References = SAP Central Business Configuration - Overview, page 5; Introducing SAP Central Business Configuration In SAP Central Business Configuration, the organizational entities that need to be defined for an SAP S

/4HANA Cloud Public Edition implementation are influenced by two primary factors: the selected deployment target and the selected scope. The deployment target refers to the specific environment or system where SAP S/4HANA Cloud will be implemented. This choice can affect which organizational entities are necessary based on the technical and business requirements of that environment. The selected scope, on the other hand, pertains to the business processes and functions that the company intends to use within SAP S

/4HANA Cloud. This determines the organizational structures, such as company codes, sales organizations, and purchasing organizations, that need to be set up to support the scoped processes. Both factors are integral to ensuring that the configuration supports the business's operational needs and strategic objectives.

## NEW QUESTION # 40

.....

Why do we need so many certifications? One thing has to admit, more and more certifications you own, it may bring you more opportunities to obtain a better job, earn more salary.
