

Hot Reliable FCSS_EFW_AD-7.4 Exam Pdf | Valid FCSS_EFW_AD-7.4: FCSS - Enterprise Firewall 7.4 Administrator 100% Pass

BONUS!!! Download part of Exam4Labs FCSS_EFW_AD-7.4 dumps for free: https://drive.google.com/open?id=1TG5uLHAVUN6f_hypqBOKyn4fUF9sxBVO

Even the fierce competition cannot stop demanding needs from exam candidates. To get more specific information about our FCSS_EFW_AD-7.4 learning quiz, we are here to satisfy your wish with following details. So you can get detailed information with traits and information about our FCSS_EFW_AD-7.4 Real Exam requested on the website. You can free download the demos of our FCSS_EFW_AD-7.4 exam questions and click on every detail that you are interested.

Fortinet FCSS_EFW_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• VPN: This section of the exam measures the skills of Network Security Engineers and covers the implementation of secure communication tunnels for enterprise environments. Candidates will learn to configure IPsec VPN with IKE version 2 to establish encrypted connections. The section also includes the implementation of ADVPN to enable on-demand VPN tunnels between different sites, ensuring secure and dynamic connectivity.
Topic 2	<ul style="list-style-type: none">• System Configuration: This section of the exam measures the skills of Network Security Engineers and covers the implementation of the Fortinet Security Fabric, ensuring seamless integration across security solutions. It also includes configuring hardware acceleration on FortiGate devices to optimize performance. Candidates will learn to set up different operation modes for high-availability clusters and implement enterprise networks using VLANs and VDOMs. Additionally, it covers various use case scenarios that demonstrate how Fortinet solutions contribute to secure network environments.

Topic 3	<ul style="list-style-type: none"> • Security Profiles: This section of the exam measures the skills of Network Security Engineers and focuses on managing security inspection profiles, including SSL and SSH inspections. Candidates will learn to apply a combination of web filtering, application control, and Internet Service Database (ISDB) to enhance network security. The section also covers integrating Intrusion Prevention Systems (IPS) to monitor and mitigate threats within enterprise networks.
Topic 4	<ul style="list-style-type: none"> • Central Management: This section of the exam measures the skills of Security Administrators and focuses on implementing central management for Fortinet security solutions. It includes configuring and managing devices centrally to streamline network security operations. Candidates will understand how to maintain consistency in security policies and automate deployments for efficient management of large-scale enterprise environments.
Topic 5	<ul style="list-style-type: none"> • Routing: This section of the exam measures the skills of Security Administrators and covers the implementation of advanced routing protocols to manage enterprise traffic effectively. Candidates will gain expertise in configuring Open Shortest Path First (OSPF) for dynamic routing and Border Gateway Protocol (BGP) to facilitate communication between different networks, ensuring efficient traffic flow across enterprise environments.

Exam FCSS_EFW_AD-7.4 Papers & FCSS_EFW_AD-7.4 Online Version

In the world in which the competition is constantly intensifying, owning the excellent abilities in some certain area and profound knowledge can make you own a high social status and establish yourself in the society. Our product boosts many advantages and varied functions to make your learning relaxing and efficient. The client can have a free download and tryout of our FCSS_EFW_AD-7.4 Exam Torrent before they purchase our product and can download our study materials immediately after the client pay successfully.

Fortinet FCSS - Enterprise Firewall 7.4 Administrator Sample Questions (Q58-Q63):

NEW QUESTION # 58

Refer to the exhibit, which contains partial output from an IKE real-time debug.

```

ike 0:624000:98: responder: main mode get 1st message...

ike Negot:624ea7b1bba27570000000000000000:98: no SA proposal chosen

```

The administrator does not have access to the remote gateway.

Based on the debug output, which configuration change can the administrator make to the local gateway to resolve the phase 1 negotiation error?

- A. In the phase 1 proposal configuration, add AES256-SHA256 to the list of encryption algorithms.
- B. In the phase 1 proposal configuration, add AESCBC-SHA2 to the list of encryption algorithms.
- C. In the phase 1 network configuration, set the IKE version to 2.
- D. In the phase 1 proposal configuration, add AES128-SHA128 to the list of encryption algorithms.

Answer: A

NEW QUESTION # 59

Refer to the exhibit, which contains the debug output of diagnose dvm device list.

```
FMG-VM64# diagnose dvm device list
There are currently 1 devices/vdoms managed:
TYPE      OID      SN      HA      IP      NAME      ADOM      IPS  FIRMWARE
fmg/      217     FGVM01... -      10.200.1.1 Local-FortiGate My_ADOM 15.0.0831 6.0 MR4 (1579)
faz enabled
          |- STATUS: db: modified; conf: in sync; cond: pending; dm: retrieved; conn: up
          |- vdom: [3] root flags:0 adom:My_ADOM pkg: [imported] Local-FortiGate_root
```

Which two statements about the output shown in the exhibit are correct? (Choose two.)

- A. There are pending device-level changes yet to be installed on Local-FortiGate.
- B. ADOMs are disabled on the FortiManager
- C. The FortiGate configuration is in sync with latest running revision history.
- D. The policy package has been modified for Local-FortiGate.

Answer: A,C

NEW QUESTION # 60

Examine the partial output from two web filter debug commands; then answer the question below:

```
# diagnose test application urlfilter 3
Domain | IP      DB Ver  T URL
34000000| 34000000  16.40224 P Bhttp://www.fgt99.com/
# get webfilter categories
g07 General Interest - Business:
  34 Finance and Banking
  37 Search Engines and Portals
  43 General Organizations
  49 Business
  50 Information and Computer Security
  51 Government and Legal Organizations
  52 Information Technology
```

Based on the above outputs, which is the FortiGuard web filter category for the web site www.fgt99.com?

- A. Business.
- B. Information technology.
- C. General organization.
- D. Finance and banking

Answer: B

NEW QUESTION # 61

An administrator has configured a FortiGate device with two VDOMs: root and internal.

The administrator has also created an inter-VDOM link that connects both VDOMs. The objective is to have each VDOM advertise some routes to the other VDOM via OSPF through the inter-VDOM link.

What OSPF configuration settings must match in both VDOMs to have the OSPF adjacency successfully forming? (Choose three.)

- A. Router ID.
- B. OSPF interface cost.
- C. OSPF interface area.
- D. OSPF interface MTU.
- E. Interface subnet mask.

Answer: C,D,E

NEW QUESTION # 62

An administrator must minimize CPU and RAM use on a FortiGate firewall while also enabling essential security features, such as web filtering and application control for HTTPS traffic. Which SSL inspection setting helps reduce system load while also enabling security features, such as web filtering and application control for encrypted HTTPS traffic?

- A. Use full SSL inspection to thoroughly inspect encrypted payloads.
- **B. Enable SSL certificate inspection mode to perform basic checks without decrypting traffic.**
- C. Configure SSL inspection to handle HTTPS traffic efficiently.
- D. Disable SSL inspection entirely to conserve resources.

Answer: B

Explanation:

To minimize CPU and RAM usage while still enforcing security features like web filtering and application control, SSL certificate inspection mode is the best choice. SSL certificate inspection allows FortiGate to inspect only the SSL/TLS handshake, including the Server Name Indication (SNI) and certificate details, without decrypting the full encrypted payload. This enables features like web filtering and application control because FortiGate can determine the destination website or application based on SNI and certificate information. It significantly reduces system load compared to full SSL inspection, which requires full decryption and re-encryption of traffic.

NEW QUESTION # 63

.....

In our software version of the FCSS_EFW_AD-7.4 exam dumps, the unique point is that you can take part in the practice test before the real FCSS_EFW_AD-7.4 exam. You never know what you can get till you try. It is universally acknowledged that mock examination is of great significance for those who are preparing for the exam since candidates can find deficiencies of their knowledge as well as their shortcomings in the practice test, so that they can enrich their knowledge before the Real FCSS_EFW_AD-7.4 Exam.
