Oracle Fusion Cloud Procurement 2025 Implementation Professional Sample Questions (Q31-Q36):

NEW QUESTION # 31

You should regularly run reports to protect against fraud.

Which task do you use to select the attributes to be monitored for a supplier model?

- A. Configure Procurement Business function
- B. Configure Supplier Registration and Profile Change Request
- C. Manage Transmission Configurations
- D. Manage Common Options for Payables and Procurement
- E. **Manage Audit Policies**

Answer: E

Explanation:

To select the attributes to be monitored for a supplier model, you use the Manage Audit Policies task in the Setup and Maintenance

work area. This task allows you to enable auditing for various business objects, such as suppliers, supplier sites, supplier contacts, and supplier bank accounts. You can also select the attributes of each business object that you want to audit, such as supplier name, address, tax number, and so on. By enabling auditing, you can track the changes made to the supplier model and generate audit reports to protect against fraud.

:

Overview of Audit Configuration, Section 2.1: "Enable Auditing for Business Objects" Supplier Profile Audit History Setup and Reporting, Section 1: "Supplier Profile Audit History Setup and Reporting"

NEW QUESTION # 32

To streamline negotiation communication between organization and your suppliers, you have opted into the share enterprise contracts supplier feature in supplier portal?

- A. The contract is in Draft status.
- B. The contract is in amendment status
- C. The contract is of Buy intent.
- D. The contract is in Active status.
- E. The contract is of sell intent.

Answer: C,D

NEW QUESTION # 33

To improve usability and reduce errors, you have set a default negotiation template for each document type when creating or editing a negotiation style.

This feature is always enabled but you do not always see the template that was set on the negotiation style defaulting in. What could be two reasons for this?

- A. It is a public template.
- B. It is a private template where only the template owner can use it.
- C. The template is active at the time of creating the negotiation.
- D. The template is inactive at the time of creating the negotiation.
- E. It is a global template and the negotiation is created in the same BU as the template.

Answer: B,D

Explanation:

The default negotiation template for each document type is only applied when creating or editing a negotiation style if the template is active and public. If the template is inactive or private, the template will not be defaulted in. Therefore, the two reasons why you do not always see the template that was set on the negotiation style defaulting in are:

* The template is inactive at the time of creating the negotiation. An inactive template cannot be used for creating or editing negotiations, and it will not be displayed in the list of available templates. You need to activate the template before you can use it as a default template.

* It is a private template where only the template owner can use it. A private template is only visible and accessible to the user who created it, and it will not be shared with other users. You need to make the template public if you want to use it as a default template for all users.

:

Create a Negotiation Template, section "Create a Negotiation Template", subsection "Default Negotiation Template".

Oracle Supplier Negotiations, section "Create Negotiations", subsection "Create Negotiations: Default Negotiation Template".

NEW QUESTION # 34

Within your organization, there is a problem of notification emails not always being recognized and being moved to the spam folder. What do you first need to configure in order to enable the options for the from and Reply to email addresses?

- A. Business-to-Business Service (B2B)
- B. Sender Policy Framework (SPF)
- C. Application Development Framework (ADF)
- D. Public Key Infrastructure (PKI)

Answer: B

Explanation:

Sender Policy Framework (SPF) is a protocol that allows the owner of a domain to specify which mail servers are authorized to send emails on behalf of that domain. This helps to prevent spoofing and phishing attacks by verifying the sender's identity. By configuring SPF for your Oracle Fusion Cloud Procurement application, you can enable the options for the from and reply to email addresses for supplier onboarding and profile management notifications. This will help your suppliers to trust the notifications and avoid them being marked as spam.

NEW QUESTION # 35

Challenge 6

Manage Supplier Questions

Scenario

Your procurement organization needs to create a Qualification Question that will be communicated to potential suppliers as part of an onboarding process.

Task

Create an active Qualification Question, where:

- . Name of the question is PRCXX Q1 (Replace xx with 01, which is your allocated User ID.)
- . Question level and responder type is Supplier
- Question type is multiple choice with single selection
- . Question text contains, "How many years you have been in business?"
- . Acceptable response text has three options: 0, 3, and 10

- Name of the area is PRCXX Area 1 (Replace xx with 01, which is your allocated User ID.)
- Description references company history
- Owning procurement BU is US1 Business Unit
- Expiration period is 10 days
- Questions and outcomes contain three options: Excellent, Average, Poor

Answer:

Explanation:

See below in Explanation for each Step.

Explanation:

Task 6: Create a Qualification Question for Suppliers

Following the scenario, we need to create a new Qualification Question in Oracle Procurement Cloud named "PRCXX Q1" (replace xx with 01) to assess potential suppliers' years in business.

Here are the steps to create the Qualification Question:

- * Navigate to Manage Supplier Qualification Questions:
- * Go to the Global Navigation Menu.
- * Click on Procurement.
- * Click on Setup and Maintenance.
- * Click on Supplier Qualification.
- * Click on Questions.
- * Create the Qualification Question:
- * Click on the Create icon (+ icon).
- * Enter the Qualification Question Information:
- * Name: Enter "PRCXX Q1" (replace xx with 01).
- * Question Level: Select "Supplier".
- * Responder Type: Select "Supplier".
- * Question Type: Select "Multiple Choice - Single Select".
- * Question Text: Enter "How many years have you been in business?".
- * Required: (Optional) Select "Yes" if suppliers must answer this question.
- * Active: Select "Yes" to activate the question.

- * Define Acceptable Responses:
- * Click on the Add icon (+ icon) to add new response options.
- * Enter the following response options:
- * 0
- * 3
- * 10
- * Save the Qualification Question:
- * Click on the Save button.

Verification:

- * The Qualification Question "PRCXX Q1" (replace xx with 01) should now be listed in the Manage Supplier Qualification Questions page.
- * You can verify the question details and acceptable responses by clicking on it.
- * The question level, responder type, question type, text, required status, and active status should be displayed as specified above.
- * The acceptable responses should include 0, 3, and 10 years.

Additional Notes:

- * Make sure to replace "xx" with your allocated User ID (01) in the question name for consistent naming convention.
- * Selecting "Multiple Choice - Single Select" limits suppliers to choosing one answer.
- * You can add additional acceptable responses if needed.
- * Activating the question makes it visible to suppliers during the qualification process.

NEW QUESTION # 36

.....

Our 1z0-1065-25 training prep was produced by many experts, and the content was very rich. At the same time, the experts constantly updated the contents of the study materials according to the changes in the society. The content of our 1z0-1065-25 study guide is definitely the most abundant. Before you go to the exam, our 1z0-1065-25 Exam Questions can provide you with the simulating exam environment. This not only includes the examination process, but more importantly, the specific content of the exam. In previous years' examinations, the hit rate of 1z0-1065-25 learning quiz was far ahead in the industry.
