Valid Exam PCED-30-02 Registration - Exam Questions PCED-30-02 Vce

A steadily rising competition has been noted in the tech field. Countless candidates around the globe aspire to be PCED - Certified Entry-Level Data Analyst with Python in this field. Once you become Python Institute certified, a whole new scope opens up to you and you are immediately hired by reputed firms. Even though the PCED - Certified Entry-Level Data Analyst with Python certification boosts your career options, you have to pass the PCED-30-02 Exam.

Python Institute PCED - Certified Entry-Level Data Analyst with Python Sample Questions (Q10-Q15):

NEW QUESTION # 10

A data analyst exports a cleaned dataset from Python and wants to share it with a colleague for easy use in Excel. Which file format is best suited for this purpose? Select the best answer.

- A. XML, because it automatically preserves spreadsheet formatting and charts.
- **B. CSV, because it stores tabular data in plain text and is compatible with spreadsheet applications.**
- C. JSON, because it stores hierarchical data and is designed for visual presentation in Excel.
- D. SQL, because it directly converts tabular data into database tables that Excel can open.

Answer: B

Explanation:

CSV stores tabular data in a simple plain-text, comma-separated format that is widely supported by spreadsheet applications like Excel, making it ideal for sharing datasets for easy import and analysis.

NEW QUESTION # 11

A loop includes a break statement when a condition is met. The programmer wants to understand how break affects loop execution. What happens when break is executed inside the loop?

- A. Skips one iteration
- **B. Loop ends immediately**
- C. Error
- D. Loop restarts

Answer: B

Explanation:

The break statement immediately terminates the loop, regardless of remaining iterations. Control is transferred to the first statement following the loop block.

NEW QUESTION # 12

Consider the following Python code:

```
data = [10, 20, 30, 40, 50]
first = data[-1]
slice_part = data[1:4]
data.remove(30)
data.append(60)
count_result = data.count(10)
transformed = [x // 10 for x in data]
print(first)
print(slice_part)
print(count_result)
print(transformed)
```

What will be printed when the code above is executed?

40

- A. [10, 20, 30, 40]
0
[1, 2, 3, 4, 5, 6]
50
- B. [10, 20, 30, 40]
1
[1, 2, 4, 5, 6]
50
- **C. [20, 30, 40]
1
[1, 2, 4, 5, 6]**
- D. [20, 30, 40]
1
[1, 2, 4, 5, 6]
50

Answer: C

Explanation:

The last element of the original list is 50. The slice from index 1 up to (but not including) index 4 is [20, 30, 40]. After removing 30 and appending 60, the list contains one occurrence of 10, and integer division by 10 produces [1, 2, 4, 5, 6].

NEW QUESTION # 13

A list is defined as [1, 2, 3]. The programmer uses the method `.append([4, 5])`. What will the resulting list look like after execution?

- A. [1,2,3,[4,5]]
- B. [1,2,3,4,5]
- C. Error
- D. [4,5,1,2,3]

Answer: A

Explanation:

The `append()` method adds its argument as a single element. Therefore, the list [4, 5] is added as one nested list, resulting in [1, 2, 3, [4, 5]].

NEW QUESTION # 14

A financial technology company is reviewing its data practices to ensure legal and ethical compliance.

Which of the following actions would support responsible data handling and align with regulations like GDPR, HIPAA, and CCPA? (Choose two.)

- A. Retaining user data permanently unless users explicitly request deletion.
- B. Limiting data access only to marketing staff to streamline personalization.
- C. Automatically opting users into data sharing unless they manually change settings.
- D. Implementing encryption for both stored and transmitted customer data.
- E. Providing users with a clear explanation of how their data is used and obtaining explicit consent.

Answer: D,E

Explanation:

Encrypting stored and transmitted data protects sensitive information from unauthorized access and supports regulatory requirements for data security. Providing clear explanations of data usage and obtaining explicit consent ensures transparency and aligns with core principles of data protection regulations such as lawful processing and user rights.

NEW QUESTION # 15

.....

With the popularization of wireless network, those who are about to take part in the PCED-30-02 exam guide to use APP on the mobile devices as their learning tool, because as long as entering into an online environment, they can instantly open the learning material from their appliances. Our PCED-30-02 study materials provide such version for you. The online test engine is a kind of online learning, you can enjoy the advantages of APP version of our PCED-30-02 Exam Guide freely. Moreover, you actually only need to download the APP online for the first time and then you can have free access to our PCED-30-02 exam questions in the offline condition if you don't clear cache.
