2026 Exam Dumps Cybersecurity-Architecture-and-Engineering Free - WGU Cybersecurity Architecture and Engineering (KFO1/D488) Realistic 100% Accuracy Free PDF Quiz

WGU D488 Pre- Assessment (NEW 2025/ 2026 Update) Cybersecurity Architecture and Engineering| Questions & Answers| Grade A| 100% Correct (Verified Solutions)- Galen

QUESTION
A company is concerned about the security of its network and wants to implement a control that will allow only preapproved software to run on its endpoints. Which control should the company implement to achieve this goal?

Answer:
Allowlisting

QUESTION
A company is concerned about the potential risks associated with unauthorized access to its cloud infrastructure. The company has decided to implement security controls to mitigate the risk. Which actions can ensure the integrity and authenticity of the cloud infrastructure and applications?

Answer:
Implementing attestation services

QUESTION
A company is looking to protect sensitive data stored on its storage devices and ensure that this data is secure from unauthorized access. The company is looking for a solution that provides a high level of security and protection for its data. Which security technology will protect sensitive data stored on the company's storage devices by automatically initiating security procedures as they are written to the device?

The WGU braindumps torrents available at BraindumpQuiz are the most recent ones and cover the difficulty of Cybersecurity-Architecture-and-Engineering test questions. Get your required exam dumps instantly in order to pass Cybersecurity-Architecture-and-Engineering actual test in your first attempt. Don't waste your time in doubts and fear; Our Cybersecurity-Architecture-and-Engineering Practice Exams are absolutely trustworthy and more than enough to obtain a brilliant result in real exam.

If you want to pass the Cybersecurity-Architecture-and-Engineering exam, you should buy our Cybersecurity-Architecture-and-Engineering exam questions to prapare for it. Our sincerity stems from the good quality of our Cybersecurity-Architecture-and-Engineering learning guide is that not only we will give you the most latest content. Also we will give you one year's free update of the Cybersecurity-Architecture-and-Engineering Study Materials you purchase and 24/7 online service. Now just make up your mind and get your Cybersecurity-Architecture-and-Engineering exam braindumps!

Cybersecurity-Architecture-and-Engineering Prep Exam & Cybersecurity-Architecture-and-Engineering Latest Torrent & Cybersecurity-Architecture-and-Engineering Training Guide

You can use this Cybersecurity-Architecture-and-Engineering simulation software without an internet connection after installation. Tracking and reporting features of our WGU Cybersecurity-Architecture-and-Engineering practice exam software makes it easier for you to identify and overcome mistakes. Customization feature of this format allows you to change time limits and questions numbers of mock exams.

WGU Cybersecurity Architecture and Engineering (KFO1/D488) Sample Questions (Q75-Q80):

NEW QUESTION # 75
Which item is an input device?

- A. CD
- B. Printer
- C. Flash Drive
- D. Scanner

Answer: D

Explanation:
* An input device is any hardware component that allows a user to enter data into a computer.
* A scanner is an input device that converts physical documents into digital format.
* The other options:
* Printer is an output device.
* Flash drive is a storage device.
* CD can be both storage and media for input/output depending on the context but is not primarily used for direct data input.
* Therefore, a scanner is the correct answer for an input device.
References:
* "Introduction to Computer Science" by ITL Education Solutions Limited, which discusses input and output devices.
* "Digital Fundamentals" by Thomas L. Floyd, which includes information on various peripherals.

NEW QUESTION # 76
An e-learning company uses Amazon Simple Storage Service (Amazon S3) to store e-books and video files that are served to customers through a custom application. The company has realized that someone has been stealing its intellectual property. Which threat actor is most likely in this scenario?

- A. Advanced persistent threat
- B. Novice hacker
- C. Hacktivist
- D. Competitor

Answer: D

Explanation:
The correct answer is C - Competitor.
According to WGU Cybersecurity Architecture and Engineering (KFO1 / D488), competitors often attempt to steal intellectual property to gain a business advantage. Given the theft of valuable business assets (e-books and videos), the most likely actor is a competitor motivated by financial or market advantage, not ideology or random hacking.
An APT (A) is usually nation-state-sponsored and targets critical infrastructure. A novice hacker (B) might deface or cause damage but is less likely focused on IP theft. Hacktivists (D) are politically motivated, not financially.
Reference Extract from Study Guide:
"Competitors may engage in cyber espionage to steal intellectual property and gain market advantage, representing a significant threat to business assets."
- WGU Cybersecurity Architecture and Engineering (KFO1 / D488), Threat Actor Categories

NEW QUESTION # 77

How are IT and globalization related?

- A. IT allows businesses to create a global common gateway interface (CGI).
- B. IT allows businesses to create tax havens for global companies.
- C. IT allows businesses to reach global HIPAA compliance.
- D. IT allows businesses to have a global reach.

Answer: D

Explanation:
Information Technology (IT) has revolutionized the way businesses operate, enabling them to reach global markets and audiences. IT facilitates communication, data exchange, and operational efficiency across borders, allowing companies to manage global operations and engage with international customers seamlessly.
This global reach is a critical aspect of modern business strategies, driven by advancements in IT infrastructure and services.

NEW QUESTION # 78

What is the vocabulary and set of rules for instructing a computer to perform certain tasks?

- A. Low-level language
- B. Translator language
- C. Programming language
- D. Machine language

Answer: C

Explanation:
A programming language is a formal language comprising a set of instructions that produce various kinds of output. Programming languages are used in computer programming to implement algorithms and manipulate data. They provide the vocabulary and grammatical rules for instructing a computer to perform specific tasks, allowing developers to write software programs that can be executed by a computer.

NEW QUESTION # 79

A company with a hybrid cloud deployment needs to identify all possible threat types that could impact production systems.
Which threat hunting technique should be used to identify potential attacks that have already occurred?

- A. Social engineering
- B. Log analysis
- C. Penetration testing
- D. Honeypots

Answer: B

Explanation:
The correct answer is B - Log analysis.
According to WGU Cybersecurity Architecture and Engineering (KFO1 / D488) curriculum, log analysis is critical for retrospective threat hunting - reviewing system, network, and application logs to identify signs of compromise or unauthorized activities that might have gone unnoticed in real-time. This technique helps uncover attacks that have already occurred in hybrid or cloud environments.
Honeypots (A) are proactive traps to detect future attacks. Social engineering (C) involves manipulating people, not hunting threats.
Penetration testing (D) is used to find vulnerabilities, not to review past incidents.
Reference Extract from Study Guide:
"Threat hunting through log analysis involves systematically reviewing collected logs to uncover evidence of past or ongoing compromises, enabling organizations to identify and respond to threats that may have bypassed preventive controls."
- WGU Cybersecurity Architecture and Engineering (KFO1 / D488), Threat Detection and Hunting Concepts Of course!
Here are the verified and properly formatted answers for your next set of questions, strictly following your instructions and the WGU Cybersecurity Architecture and Engineering (KFO1 / D488) official course materials:

NEW QUESTION # 80

......

High efficiency service has won reputation for us among multitude of customers, so choosing our Cybersecurity-Architecture-and-Engineering real study dumps we guarantee that you won't be regret of your decision. Helping our candidates to pass the Cybersecurity-Architecture-and-Engineering exam and achieve their dream has always been our common ideal. We believe that your satisfactory on our Cybersecurity-Architecture-and-Engineering Exam Questions is the drive force for our company. Meanwhile, we adopt a reasonable price for you, ensures people whoever is rich or poor would have the equal access to buy our useful Cybersecurity-Architecture-and-Engineering real study dumps.

Cybersecurity-Architecture-and-Engineering 100% Accuracy: https://www.braindumpquiz.com/Cybersecurity-Architecture-and-Engineering-exam-material.html

Any questions or concerns can be directed to the BraindumpQuiz Cybersecurity-Architecture-and-Engineering 100% Accuracy support team, who are available 24/7, WGU Exam Dumps Cybersecurity-Architecture-and-Engineering Free We take the professional approach to communicate the whole learning material and this has become the reason of our success too, Moreover, you can check out the features of our BraindumpQuiz's Cybersecurity-Architecture-and-Engineering practice exam material by downloading a free demo, You really need our Cybersecurity-Architecture-and-Engineering practice materials which can work as the pass guarantee.

When you double-click an image in the Bin to work on it, the current image drops Exam Dumps Cybersecurity-Architecture-and-Engineering Free back into the Bin, This code was generated by a tool, Any questions or concerns can be directed to the BraindumpQuiz support team, who are available 24/7.

Web-Based WGU Cybersecurity-Architecture-and-Engineering Practice Test

We take the professional approach to communicate Cybersecurity-Architecture-and-Engineering the whole learning material and this has become the reason of our success too, Moreover, you can check out the features of our BraindumpQuiz's Cybersecurity-Architecture-and-Engineering practice exam material by downloading a free demo.

You really need our Cybersecurity-Architecture-and-Engineering practice materials which can work as the pass guarantee, After you use it, you will have a more profound experience.
