## SPLK-1004 Reliable Braindumps Pdf, SPLK-1004 Sample Questions Pdf

Compared with those uninformed exam candidates who do not have effective preparing guide like our SPLK-1004 study braindumps, you have already won than them. Among wide array of choices, our products are absolutely perfect. Besides, from economic perspective, our SPLK-1004 Real Questions are priced reasonably so we made a balance between delivering satisfaction to customers and doing our own jobs. So in this critical moment, our SPLK-1004 prep guide will make you satisfied.

## Splunk Core Certified Advanced Power User Sample Questions (Q115-Q120):

### NEW QUESTION # 115

What is the value of base lisp in the Search Job Inspector for the search index=sales clientip=170.192.178.10?

- A. [ index:sales AND 469 10 702 390 ]
- B. [ AND 10 170 178 192 index:sales ]
- C. [ index:sales 192 AND 10 AND 178 AND 170 ]
- D. [ 192 AND 10 AND 178 AND 170 index:sales ]

**Answer: C**

Explanation:

In Splunk, the "base lisy" is an internal representation of the search query used by the Search Job Inspector. It breaks down the search into its fundamental components for processing. For the search `index=sales clientip=170.192.178.10`, Splunk tokenizes the IP address into its individual octets and combines them with the index specification. Therefore, the base lisy representation would be:  
[ `index::sales 192 AND 10 AND 178 AND 170` ]  
This indicates that the search is constrained to the sales index and is looking for events containing all the specified IP address components.

#### NEW QUESTION # 116

Assuming a standard time zone across the environment, what syntax will always return events from between 2:00 AM and 5:00 AM?

- A. `time_hour>-2 AND time_hour>-5`
- B. `earliest=-2h@h AND latest=-5h@h`
- C. `datehour>-2 AND date_hour<5`
- D. `earliest=2h@ AND latest=5h3h`

**Answer: B**

Explanation:

The correct syntax to return events from between 2:00 AM and 5:00 AM is `earliest=-2h@h AND latest=-5h@h`. This uses relative time modifiers to specify a range starting at 2 AM and ending at 5 AM.

#### NEW QUESTION # 117

Which field is required for an event annotation?

- A. `eventtype`
- B. `_time`
- C. `annotation_label`
- D. `annotation_category`

**Answer: B**

Explanation:

The `_time` field is required for event annotations in Splunk. This field specifies the time point or range where the annotation should be applied, helping correlate annotations with the correct temporal data.

#### NEW QUESTION # 118

Which of the following is a valid event action in Splunk?

- A. Edit an event in the raw data.
- B. Execute a stats statement.
- C. Create a new REST API endpoint.
- D. **Execute an eval statement.**

**Answer: D**

Explanation:

In Splunk, event actions are operations that can be performed on events within the Search & Reporting app.

One valid event action is executing an eval statement, which allows users to compute and add new fields to events dynamically.

According to Splunk Documentation:

"You can define workflow actions that perform tasks such as running a search, opening a URL, or executing an eval expression."

Reference:Control workflow action appearance in field and event menus - Splunk Documentation

#### NEW QUESTION # 119

How can an underlying search be optimized to improve dashboard performance?

- A. Convert the search to an inline search.
- B. Use NOT expressions to filter results.
- C. Use the transaction command instead of stats.
- **D. Limit the results to a specific time window.**

**Answer: D**

Explanation:

One of the most effective ways to enhance dashboard performance in Splunk is by narrowing the time range of the underlying searches. Limiting the search to a specific time window reduces the amount of data Splunk needs to process, leading to faster search execution and improved dashboard responsiveness.

According to Splunk Documentation:

"One of the most effective ways to limit the data that is pulled off from disk is to limit the time range. Use the time range picker or specify time modifiers in your search to identify the smallest window of time necessary for your search." Reference: Quick tips for optimization - Splunk Documentation

## NEW QUESTION # 120

.....

It is apparent that a majority of people who are preparing for the SPLK-1004 exam would unavoidably feel nervous as the exam approaching. If you are still worried about the coming exam, since you have clicked into this website, you can just take it easy now, I can assure you that our company will present the antidote for you--our SPLK-1004 Learning Materials. And you will be grateful to choose our SPLK-1004 study questions for its high-effective to bring you to success.
