ISQI IREB Certified Professional for Requirements Engineering. Foundation Level Sample Questions (Q167-Q172):

NEW QUESTION # 167

In a meeting held with the goal of validating a set of requirements, two participants become involved in an in- depth discussion about the content of a requirement. One of the participants is of the opinion that the requirement must be realized as described, since the success of the product is otherwise jeopardized. The other party dissents and argues that this requirement cannot be realized technically as described. What is the best way for you to react to this situation? (1 Point)

- A. You invite all stakeholders to a workshop and try to reach agreement.
- **B. You get together with the affected stakeholders and attempt to reach an agreement on this.**
- C. You note both arguments and let the project manager make the decision.
- D. You prefer the second opinion since you believe that the discussion makes no sense if the requirement cannot be realized.

Answer: B

NEW QUESTION # 168

Choose the correct sentence regarding the users of a system.

- A. Misusers are referred to as personas.
- B. Internal users are inside the system while using it.
- C. External users are normally aware of the system being developed.
- **D. All the other options are wrong.**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Internal users are people within the developing or owning organization (employees, management, subcontractors), not literally "inside the system", so A is wrong. External users are customers or the public; often they are numerous, not individually identifiable and may not even know a system is being developed for them, so B is incorrect. Misusers are actors who intentionally try to misuse or attack the system (e.g., hackers); personas are fictional profiles representing typical user groups, so C confuses two distinct concepts. Therefore all given statements are incorrect, making D the right answer.

NEW QUESTION # 169

Complete the following sentence with the right option.

The _____ quality criteria states that a work product with multiple requirements should adhere to any mandatory structuring or formatting guidelines if such instructions are specified.

- **A. "conformant"**
- B. "unambiguous"
- C. "understandable"
- D. "adequate"

Answer: A

NEW QUESTION # 170

Choose the correct sentence about system context.

- A. It is a part of the system boundary.
- B. It is synonymous with system boundary.
- **C. It is a part of the system environment.**
- D. It is synonymous with system environment.

Answer: C

NEW QUESTION # 171

As input for the system development, the Board of Directors of an automotive manufacturer has specified the following goals:

1. The infotainment system should be easy to operate.
2. The user must be able to operate the system without becoming distracted from the road traffic.
3. The system should function without an additional power source.
4. The system should be configurable for various models of car.

With which two approaches can these goals be detailed and refined best? (2 Points)

- A. Formulation of other goals, since the given goals are not feasible.
- **B. Clear specification of the goals with the help of use cases and the associated activity diagrams.**
- **C. Documentation of the goals in a sequence diagram.**
- D. Decomposition of the goals with the help of goal trees, in order to obtain more concrete goals.

Answer: B,C
