Databricks-Certified-Data-Engineer-Associate題庫資訊 & Databricks-Certified-Data-Engineer-Associate真題

NewDumps擁有Databricks Databricks-Certified-Data-Engineer-Associate 認證考試的特殊培訓工具，能使你不用花費大量的時間和金錢就可以短時間獲得很多IT技術知識來提升你的技術，很快就能在IT行業中證明你的專業知識和技術。NewDumps的培訓課程是NewDumps的專家團隊利用自己的知識和經驗為Databricks Databricks-Certified-Data-Engineer-Associate 認證考試而研究出來的。

GAQM Databricks-Certified-Data-Engineer-Associate考試是一項嚴格而具有挑戰性的認證，要求候選人具備堅實的數據工程原理和實踐基礎。建議候選人在嘗試考試之前至少有2-3年的大數據技術工作經驗。但是，有培訓課程和學習資料可用來幫助候選人準備考試並獲得必要的技能和知識。

最新的 Databricks Certification Databricks-Certified-Data-Engineer-Associate 免費考試真題 (Q99-Q104):

問題 #99

A data engineer has configured a Structured Streaming job to read from a table, manipulate the data, and then perform a streaming write into a new table.

The code block used by the data engineer is below:

If the data engineer only wants the query to process all of the available data in as many batches as required, which of the following lines of code should the data engineer use to fill in the blank?

- A. `trigger(parallelBatch=True)`
- B. `trigger(continuous="once")`

- C. `processingTime(1)`
- **D. `trigger(availableNow=True)`**
- E. `trigger(processingTime="once")`

答案： D

解題說明：

<https://spark.apache.org/docs/latest/api/python/reference/pyspark.ss/api/pyspark.sql.streaming.DataStreamWriter.trigger.html>

問題 #100

In which of the following scenarios should a data engineer use the MERGE INTO command instead of the INSERT INTO command?

- A. When the source is not a Delta table
- **B. When the target table cannot contain duplicate records**
- C. When the target table is an external table
- D. When the location of the data needs to be changed
- E. When the source table can be deleted

答案： B

解題說明：

Explanation

With merge , you can avoid inserting the duplicate records. The dataset containing the new logs needs to be deduplicated within itself. By the SQL semantics of merge, it matches and deduplicates the new data with the existing data in the table, but if there is duplicate data within the new dataset, it is

inserted.<https://docs.databricks.com/en/delta/merge.html#:~:text=With%20merge%20%2C%20you%20can%20a>

問題 #101

A data engineer wants to create a data entity from a couple of tables. The data entity must be used by other data engineers in other sessions. It also must be saved to a physical location.

Which of the following data entities should the data engineer create?

- A. Database
- B. Temporary view
- C. Table
- **D. View**
- E. Function

答案： D

問題 #102

A data engineer needs to apply custom logic to identify employees with more than 5 years of experience in array column employees in table stores. The custom logic should create a new column `exp_employees` that is an array of all of the employees with more than 5 years of experience for each row. In order to apply this custom logic at scale, the data engineer wants to use the FILTER higher-order function.

Which of the following code blocks successfully completes this task?

□

- A. Option C
- **B. Option A**
- C. Option E
- D. Option B
- E. Option D

答案： B

解題說明：

Option A is the correct answer because it uses the FILTER higher-order function correctly to filter out employees with more than 5

years of experience from the array column "employees". It applies a lambda function $i \rightarrow i.\text{years_exp} > 5$ that checks if the years of experience of each employee in the array is greater than 5. If this condition is met, the employee is included in the new array column "exp_employees".

問題 #103

A data engineer has left the organization. The data team needs to transfer ownership of the data engineer's Delta tables to a new data engineer. The new data engineer is the lead engineer on the data team.

Assuming the original data engineer no longer has access, which of the following individuals must be the one to transfer ownership of the Delta tables in Data Explorer?

- A. Workspace administrator
- B. Original data engineer
- C. Databricks account representative
- D. This transfer is not possible
- E. New lead data engineer

答案：A

解題說明：

Explanation

<https://docs.databricks.com/sql/admin/transfer-ownership.html>

問題 #104
