## SAP C-WME-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Starting your Digital Adoption Journey: WalkMe Fundamentals: This section of the exam measures the skills of SAP project managers and covers the foundational concepts of digital adoption within SAP environments using WalkMe. Candidates are expected to understand the value of digital adoption platforms, the basic components of WalkMe, and how these tools align with business goals. The section emphasizes knowledge of the user experience within SAP and the ability to identify opportunities for improving digital workflows through in-app guidance and automation.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Getting Started with Building WalkMe Solutions: This section of the exam evaluates the capabilities of WalkMe implementers and focuses on the practical aspects of creating and configuring WalkMe solutions. It includes understanding the WalkMe Editor, planning solution flows, creating Smart Walk-Thrus, Launchers, and ShoutOuts, and managing end-user guidance effectively. Candidates should be comfortable building initial WalkMe experiences that improve SAP usability and provide contextual help for users navigating SAP applications.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Advancing your Skills in Building WalkMe Solutions: This section of the exam tests the advanced competencies of functional and business analysts in designing more complex and customized WalkMe solutions within SAP platforms. It requires a deeper understanding of user segmentation, advanced rules and triggers, performance optimization, and the use of analytics to refine user experiences. Candidates are expected to demonstrate their ability to design scalable and impactful guidance that aligns with SAP business processes and drives user adoption across the enterprise.</li> </ul>

For the challenging SAP C-WME-2506 exam, they make an effort to locate reputable and recent SAP C-WME-2506 practice questions. The high anxiety and demanding workload the candidate must face being qualified for the SAP C-WME-2506 Certification are more difficult than only passing the SAP C-WME-2506 exam.

## SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q26-Q31):

### NEW QUESTION # 26

What is the purpose of using the small ghost icon in the WalkMe Editor when customizing an invisible Launcher?

- A. To add animations to the Launcher
- B. To change the Launcher's shape
- C. To automatically make all colors of the Launcher transparent
- D. To adjust the size of the Launcher

**Answer: C**

### NEW QUESTION # 27

Your IT team needs all employees to complete a critical computer update by the end of the day to prevent cyber attacks. What is the best strategy to implement for this use case?

- A. Add a Launcher to the top of the page that says 'Click here' and opens a Knowledge Base article.
- B. Have a ShoutOut appear in the middle of the screen and add a 'Remind me tomorrow' button.
- C. Have a ShoutOut appear in the middle of the screen with only a call to action button to complete the update.
- D. Place a ShoutOut at the bottom of the screen and let the end user click on the call to action when they want.

**Answer: C**

### NEW QUESTION # 28

How would you write a jQuery selector for the following HTML element: `<div class="button" id="blueBtn">Click Here</div>?`

- A. `div#button`
- B. `div.blueBtn`
- C. `div#blueBtn`
- D. `#blue Btn`

**Answer: C**

### NEW QUESTION # 29

You're analyzing data in Insights, specifically the 'What Users Are Searching For' section. You see that users are not finding any helpful content for the search term 'profile' because 85% of the searches for that term are resulting in no action. However, you know that you have content published specific for help with 'profile.' What should you do?

- A. Add Keywords to the content.
- B. Adjust the jQuery for a step in the process.
- C. Remove any content related to 'profile.'
- D. Give it more time. Users will eventually find the help.

**Answer: A**

Explanation:

The 'What Users Are Searching For' section in WalkMe Insights reveals search terms entered by users in the WalkMe Menu and the percentage of searches that result in no action, indicating content gaps or discoverability issues. If 85% of searches for 'profile' result in no action, despite existing content, the issue is likely that the content is not properly indexed or tagged for search. Adding relevant keywords (e.g., 'profile,' 'account settings,' 'user profile') to the content's metadata in the WalkMe Editor improves its discoverability, ensuring it appears in

search results when users enter related terms.

The other options are less effective:

- \* Giving it more time(A) does not address the discoverability issue, as users are already failing to find the content.
- \* Removing profile content(B) would worsen the problem by eliminating the existing help.
- \* Adjusting jQuery for a step(D) is irrelevant, as jQuery selectors affect element targeting, not search functionality.

Extract from Official WalkMe Documentation:

According to the WalkMe Insights User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 3.2: Analytics and Reporting):

"High 'no action' rates in the 'What Users Are Searching For' report suggest that content is not being found.

To resolve this, add relevant keywords to the content's settings in the WalkMe Editor to improve search indexing and visibility." The course Advancing Your Skills in Building WalkMe Solutions states:

"If Insights shows users searching for terms like 'profile' but taking no action, enhance content discoverability by adding targeted keywords in the Editor, ensuring the WalkMe Menu returns relevant results." Option C, adding keywords, directly addresses the issue of users not finding the 'profile' content.

### NEW QUESTION # 30

Why is it recommended to disable the multi-language Manual Toggle when using the multi-language Auto- Toggle?

- A. To prevent conflicts where the user's Manual Toggle choice overrides the Auto-Toggle settings
- B. Because the Manual Toggle and Auto-Toggle can cause the page to refresh unexpectedly
- C. To ensure that the Manual Toggle is only available for administrators
- D. Because Manual Toggle consumes more resources than Auto-Toggle

Answer: A

### NEW QUESTION # 31
