Tableau Desktop Specialist Exam Sample Questions (Q210-Q215):

NEW QUESTION # 210

Which of the following is a discrete date part?

- A. 07Mar2017
- B. 01/23/2021
- C. February
- D. 20Sep2016:9:8:8:6546

Answer: C

Explanation:

February is a discrete date part, because it is a specific value that can be used to group or filter data by month.

07Mar2017, 20Sep2016:9:8:8:6546, and 01/23/2021 are continuous date values, because they represent points along a continuous timeline that can be used for analysis.

NEW QUESTION # 211

_____ charts are typically used to represent accumulated totals over time and are the conventional way to display stacked lines.

- A. Area
- B. Line
- C. Bullet
- D. Gantt

Answer: A

Explanation:

According to the official Tableau documentation:

□ An example of an area chart is shown below:

NEW QUESTION # 212

To use a quick table calculation, which of the following programming languages do you need to know?

- A. Javascript
- B. Java
- C. None of these
- D. ython

Answer: C

Explanation:

Explanation

You don't need to know ANY programming language to use quick table calculations!

Follow along with the steps below to learn how to apply a quick table calculation to a visualization:

- 1) Open Tableau Desktop and connect to the Sample-Superstore data source, which comes with Tableau.
- 2) Navigate to a new worksheet.
- 3) From the Data pane, under Dimensions, drag Order Date to the Columns shelf.
- 4) From the Data pane, under Dimensions, drag State to the Rows shelf.
- 5) From the Data pane, under Measures, drag Sales to Text on the Marks Card.
- 6) From the Data pane, under Measures, drag Profit to Color on the Marks Card.
- 7) On the Marks card, click the Mark Type drop-down and select Square.

□ The visualization updates to look like this:

- Apply the quick table calculation
- 1) On the Marks card, right-click SUM(Profit) and select Quick Table Calculation > Moving Average.
- Note: You can only perform quick table calculations on measures in the view.
- A delta symbol appears on the field to indicate that a quick table calculation is being applied to the field. The colors in the visualization update to show the moving average of profit across the years.
-

NEW QUESTION # 213

Which of the following URL prefixes are permitted when creating a URL Action in Tableau?

- A. SMTP
- B. HTTP
- C. HTTPS
- D. FTP

Answer: B,C,D

Explanation:

A URL action is a hyperlink that points to a web page, file, or other web-based resource outside of Tableau.

You can use URL actions to create an email or link to additional information about your data. To customize links based on your data, you can automatically enter field values as parameters in URLs.

□ Graphical user interface, text, application Description automatically generated

□ Graphical user interface, application, Word Description automatically generated

□ Graphical user interface, text, application Description automatically generated

□ Graphical user interface, text, application Description automatically generated

NEW QUESTION # 214
