

H19-338 Online Training & Latest H19-338 Exam Labs

P.S. Free & New H19-338 dumps are available on Google Drive shared by Pass4Leader: <https://drive.google.com/open?id=1H-nJpfWcuJmc8bj1y87jpUIZO4M613W>

Good news comes that our company has successfully launched the new version of the H19-338 Guide tests. Perhaps you are deeply bothered by preparing the exam; perhaps you have wanted to give it up. Now, you can totally feel relaxed with the assistance of our H19-338 actual test. That is to say, if you decide to choose our study materials, you will pass your exam at your first attempt. Not only that, we also provide all candidates with free demo to check our product, it is believed that our free demo will completely conquer you after trying.

The HCSP-Storage certification exam is a globally recognized certification that is highly valued in the storage industry. Passing H19-338 Exam demonstrates that the candidate has the knowledge and skills required to design and implement storage solutions using Huawei's storage products. H19-338 exam covers a wide range of topics such as storage architecture, storage networking, storage virtualization, backup and recovery, and storage management. Candidates must have a thorough understanding of Huawei's storage products and solutions and be able to apply that knowledge to real-world scenarios.

Huawei H19-338 Questions - Easy way to Prepare for Exam

As is known to all, before purchasing the H19-338 Study Guide, we need to know the features of it. We offer you free demo to have a try, so that you can know the characteristics of H19-338 exam dumps. Beside we have three versions, each version have its own advantages, and they can meet all of your demands. And we have free update for 365 days after buying, the latest version will send to you email box automatically.

Candidates who pass the Huawei H19-338-ENU (HCSP-Storage) Exam will be awarded the Huawei Certified Pre-sales Professional-Storage certification, which demonstrates their knowledge and skills in Huawei storage products and solutions. HCSP-Presales-Storage certification is recognized globally and can help candidates advance their careers in the storage industry. Additionally, certified professionals will be able to provide better solutions and services to their customers, which can help them gain a competitive advantage in the market.

Huawei HCSP-Presales-Storage Sample Questions (Q76-Q81):

NEW QUESTION # 76

Which of the following features make OceanStor capable of storing PACS data over a 15-year period? (Multiple choice)

- A. Elastic scalability
- B. Security and reliability
- C. Simplified management
- D. Intelligent lifecycle management

Answer: A,B,C,D

NEW QUESTION # 77

Which are the convergence technologies that OceanStor V5 converged storage support? (Multiple choice)

- A. Cloud convergence: hybrid cloud interoperability, along with public cloud migration, backup, and DR.
- B. Convergence of SAN and NAS: HyperMetro for SAN and NAS, multi-service integration.
- C. Convergence of storage resource pools: resource pooling and interruption free heterogeneous migration.
- D. Active-active convergence: HyperMetro for SAN and NAS, RPO=0, RTO=0.
- E. Convergence of flash storage: interconnection between different types, models, and generations.

Answer: B,C,D,E

NEW QUESTION # 78

Compared with common Ethernet, the NOF+ scenario greatly Improves usability and reliability

- A. True
- B. False

Answer: A

Explanation:

Explanation

Compared with common Ethernet, the NOF+ scenario greatly improves usability and reliability. According to the Huawei CloudFabric Data Center Network Solution White Paper, NOF+ (Network-Oriented Fabric+) is a data center network architecture that supports both Layer 2 and Layer 3 connectivity between servers and leaf nodes. NOF+ uses VXLAN technology to create overlay networks on top of the underlay network, which improves network scalability, flexibility, and security. NOF+ also uses M-LAG technology to provide link redundancy and load balancing between leaf nodes and servers, which improves network availability and performance.

NEW QUESTION # 79

Which of the following are storage protocols for host connection in SAN? (Multiple choice)

- A. iSCSI
- B. FC
- C. NoF (NVMe over Fabric)
- D. SAS

Answer: A,B,C

NEW QUESTION # 80

CloudEngine S7700 switches support service port clustering and CSS2 switch fabric clustering.

- A. True
- B. False

Answer: A

Explanation:

Explanation

CloudEngine S7700 switches support service port clustering and CSS2 switch fabric clustering. According to the CloudEngine S7700 Series Switches Datasheet, service port clustering enables multiple physical ports to form a logical port that provides higher bandwidth and link redundancy, while CSS2 switch fabric clustering enables multiple switches to form a logical switch that provides higher performance and simplified management.
