Now you have all the necessary information about quick Fortinet NSE 7 - OT Security 7.2 (NSE7_OTS-7.2) exam questions preparation. Just take the best decision of your career and enroll in the Fortinet NSE7_OTS-7.2 Exam. Download the Fortinet NSE7_OTS-7.2 exam real dumps now and start this career advancement journey.

Fortinet NSE7_OTS-7.2 Exam is an important certification exam that validates the skills and knowledge of professionals working in the OT security field. It is designed to test the ability of candidates to handle the complexities of securing operational technology (OT) environments, which are critical components of many industries such as manufacturing, energy, and transportation. NSE7_OTS-7.2 exam is an updated version of the Fortinet NSE 7 - OT Security 7.0 certification exam.

Passing the Fortinet NSE7_OTS-7.2 exam validates that an individual has the knowledge and skills required to secure OT networks against cyber threats. Fortinet NSE 7 - OT Security 7.2 certification is particularly relevant in industries such as energy, oil and gas, transportation, and manufacturing, where OT networks are widely used. Fortinet NSE 7 - OT Security 7.2 certification also demonstrates that an individual can implement best practices for securing OT networks, such as network segmentation, access control, and threat detection and response.

NSE7_OTS-7.2 Valid Mock Exam Will Be Your Trusted Partner to Pass Fortinet NSE 7 - OT Security 7.2

Our NSE7_OTS-7.2 study materials provide free trial service for consumers. If you are interested in our NSE7_OTS-7.2 study materials, and you can immediately download and experience our trial question bank for free. Through the trial you will have different learning experience on NSE7_OTS-7.2 exam guide, you will find that what we say is not a lie, and you will immediately fall in love with our products. As a key to the success of your life, the benefits that our NSE7_OTS-7.2 Study Materials can bring you are not measured by money. NSE7_OTS-7.2 test torrent can help you pass the exam in the shortest time.

Fortinet NSE7_OT-7.2 certification exam consists of 60 multiple-choice questions that must be completed within 120 minutes. Candidates must achieve a score of at least 70% to pass the exam and earn the certification. NSE7_OT-7.2 Exam is available in multiple languages and can be taken at a Pearson VUE testing center or online through the Pearson VUE OnVUE platform.

Fortinet NSE 7 - OT Security 7.2 Sample Questions (Q21-Q26):

NEW QUESTION # 21

FortiAnalyzer is implemented in the OT network to receive logs from responsible FortiGate devices. The logs must be processed by FortiAnalyzer.

In this scenario, which statement is correct about the purpose of FortiAnalyzer receiving and processing multiple log messages from a given PLC or RTU?

- A. To determine which type of messages from the PLC or RTU causes issues in the plant
- B. To help OT administrators configure the network and prevent breaches
- C. To isolate PLCs or RTUs in the event of external attacks
- D. To configure event handlers and take further action on FortiGate

Answer: A

Explanation:

FortiAnalyzer acts as a centralized log management and analytics platform that collects security and operational logs from devices like FortiGate and from OT devices such as PLCs and RTUs.

By processing multiple log messages, FortiAnalyzer helps identify which specific types of messages or events from PLCs or RTUs may cause failures, anomalies, or operational issues in the plant.

This detailed insight into device behavior aids OT administrators in pinpointing communication or security issues affecting operational technology.

FortiAnalyzer provides aggregated analysis, threat detection, compliance reporting, and detailed root cause analytics relevant to OT environments.

NEW QUESTION # 22

Refer to the exhibit.

Maint	Device	Type	Organization	Avail Status	Perf Status	Security Status
●	FG240D3913800441	Fortinet FortiOS	Super	●	●	✖
●	SJ-QA-F-Lnx-CHK	Checkpoint FireWall	Super	●	●	⚠
●	FAPS321C-default	Fortinet FortiAP	Super		●	●

You are navigating through FortiSIEM in an OT network.

How do you view information presented in the exhibit and what does the FortiGate device security status tell you?

- A. In the business service dashboard and there are one or more high-severity security incidents for the FortiGate device.
- B. In the summary dashboard and there are one or more high-severity security incidents for the FortiGate device.
- C. In the PCI logging dashboard and there are one or more high-severity security incidents for the FortiGate device.
- D. In the widget dashboard and there are one or more high-severity incidents for the FortiGate device.

Answer: B

NEW QUESTION # 23

As an OT network administrator you are managing three FortiGate devices that each protect different levels on the Purdue model To increase traffic visibility you are required to implement additional security measures to detect protocols from PLCs Which security sensor must you implement to detect protocols on the OT network?

- A. Application control (AC)
- B. Endpoint Detection and Response (EDR)
- C. Deep packet inspection (DPI)
- D. Intrusion prevention system (IPS)

Answer: A

NEW QUESTION # 24

An OT network architect needs to secure control area zones with a single network access policy to provision devices to any number of different networks. On which device can this be accomplished?

- A. FortiGate
- B. FortiSwitch
- C. FortiNAC
- D. FortiEDR

Answer: A

Explanation:

Network Access Policies are used to dynamically provision access to connecting endpoints, based on the matched user/host profiles associated with the network access configuration.

NEW QUESTION # 25

An OT administrator has configured FSSO and local firewall authentication. A user who is part of a user group is not prompted for credentials during authentication.

What is a possible reason?

- A. The user was determined by Security Fabric
- B. FortiNAC determined the user by DHCP fingerprint method
- C. FortiGate determined the user by passive authentication
- D. Two-factor authentication is not configured with RADIUS authentication method

Answer: C

NEW QUESTION # 26
