The desktop software runs on Windows computers and the web-based is supported by all operating systems.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q16-Q21):

NEW QUESTION # 16

What do you influence with a resource group definition?

- A. The operating environment of the resource
- **B. The queues a resource should process**
- C. The bin access type limitations of the resource
- D. The horizontal and vertical speed of a resource

Answer: B

Explanation:

Comprehensive and Detailed In-Depth Explanation:

A resource group in SAP EWM links resources to specific tasks. Option B ("The queues a resource should process") is correct because it determines which queues (task lists) the resource handles, configured in SPRO: SCM Extended Warehouse Management > Resource Management > Define Resource Group. Options A (bin access), C (environment), and D (speed) are controlled by other settings like bin type restrictions or resource type parameters, not the group.

NEW QUESTION # 17

Which packing modes can you use to control the creation of pick-handling units? Note: There are 2 correct answers to this question.

- A. Simple algorithm
- B. Complex algorithm
- C. Limit value
- D. Consolidation group

Answer: A,B

Explanation:

- * Packing Modes for Pick-Handling Units
- * Simple Algorithm (B): Basic rules for handling unit creation based on product attributes.
- * Complex Algorithm (D): Advanced rules combining multiple factors for handling unit creation.
- * Excluded Options
- * A (Limit Value): Not directly related to pick-handling unit creation.
- * C (Consolidation Group): Used for grouping deliveries, not handling unit creation.
- * SAP S/4HANA Cloud Private Edition Reference
- * Refer to Packing Mode Configuration and Algorithms in SAP EWM.

NEW QUESTION # 18

For which processes can you create a direct outbound delivery order? Note: There are 3 correct answers to this question.

- A. Direct sales
- B. Issue to cost center
- C. Replenishment
- D. Inventory difference
- E. Scrapping

Answer: A,B,E

Explanation:

A direct outbound delivery order is created for scenarios where goods are directly moved out of the warehouse without standard intermediate steps. The applicable processes include:

- * A. Scrapping:
* Used to dispose of damaged or obsolete stock directly from the warehouse.
- * D. Issue to Cost Center:
* Materials issued for internal consumption or to a specific cost center.
- * E. Direct Sales:
* Goods sold directly from the warehouse to customers, bypassing typical outbound processing.

Incorrect Options:

- * B: Replenishment involves internal movements and does not create outbound delivery orders.
- * C: Inventory differences are adjusted during inventory procedures, not via outbound deliveries.

References:

- * SAP Help Portal: Direct Outbound Delivery Order Scenarios
- * SAP EWM Documentation: Outbound Delivery Order Processing

NEW QUESTION # 19

How are warehouse orders sorted for automatic assignment to a resource? Note: There are 2 correct answers to this question.

- A. By mode
- B. By latest starting date
- C. By execution priority
- D. By resource utilization

Answer: B,C

NEW QUESTION # 20

What is the purpose of the custodian in the warehouse setup?

- A. The custodian has the legal possession of the stock
- B. The custodian is used for the determination of the putaway strategy
- C. The custodian processes stock without transfer of title
- D. The custodian replaces the previously used Supply Chain Unit

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

The custodian in SAP EWM manages stock ownership without title transfer, often in consignment scenarios. Option C ("The custodian processes stock without transfer of title") is correct, as defined in the stock attributes and configured in SPRO: SCM Extended Warehouse Management > Master Data > Define Custodian. Options A (putaway strategy), B (Supply Chain Unit), and D (legal possession) are incorrect as they misalign with the custodian's role, which is operational rather than strategic or legal.

NEW QUESTION # 21

Getting the test C-S4EWM-2023 certification maybe they need to achieve the goal of the learning process, have been working for the workers, have more qualifications can they provide wider space for development. The C-S4EWM-2023 actual exam guide can provide them with efficient and convenient learning platform so that they can get the certification as soon as possible in the shortest possible time.
