Our products are officially certified, and 1z0-1104-25 exam materials are definitely the most authoritative product in the industry. In order to ensure the authority of our 1z0-1104-25 practice prep, our company has really taken many measures. First of all, we have a professional team of experts, each of whom has extensive experience. Secondly, before we write 1z0-1104-25 Guide quiz, we collect a large amount of information and we will never miss any information points.

## Oracle 1z0-1104-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Implementing Identity and Access Management (IAM): This section of the exam measures skills of OCI Administrators and focuses on identity and access controls. It covers IAM domains, users, groups, and compartments, as well as the use of IAM policies to manage access to resources. Candidates are also tested on configuring dynamic groups, network sources, and tag-based access control, along with managing MFA, sign-on policies, and activity monitoring.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>OCI Security Introduction: This section of the exam measures the skills of Cloud Security Professionals and covers the basics of security in Oracle Cloud Infrastructure. It introduces the shared security responsibility model, the core principles of security design, and the use of foundational security services to secure deployments on OCI.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Protecting Data: This section of the exam measures the skills of Cloud Security Professionals and highlights data security practices in OCI. It tests knowledge of using the Key Management Service for encryption keys, managing secrets in the OCI Vault, and applying features of OCI Data Safe to ensure sensitive data remains protected.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Implementing OS and Workload Protection: This section of the exam measures the skills of OCI Administrators and looks at securing workloads and operating systems. It includes the use of OCI Bastion for time-limited access, vulnerability scanning of hosts and containers, and the use of OS management for automated updates. The goal is to ensure that workloads remain resilient and well-protected.</li> </ul>

## 100% Pass 2026 1z0-1104-25: Perfect Oracle Cloud Infrastructure 2025 Security Professional Updated Demo

After you used FreePdfDump Oracle 1z0-1104-25 Dumps, you still fail in 1z0-1104-25 test and then you will get FULL REFUND. This is FreePdfDump's commitment to all candidates. What's more, the excellent dumps can stand the test rather than just talk about it. FreePdfDump test dumps can completely stand the test of time. FreePdfDump present accomplishment results from practice of all candidates. Because it is right and reliable, after a long time, FreePdfDump exam dumps are becoming increasingly popular.

### Oracle Cloud Infrastructure 2025 Security Professional Sample Questions (Q38-Q43):

#### NEW QUESTION # 38

You are the first responder of a security incident for ABC Org. You have identified several IP addresses and URLs in the logs that you suspect may be related to the incident. However, you need more information to confidently determine whether they are indeed malicious or not.

Which OCI service can you use to obtain a more refined information and confidence score for these identified indicators?

- A. OCI Threat Intelligence
- B. OCI Web Application Firewall
- C. OCI Incidence Responder
- D. OCI Security Zones

Answer: A

#### NEW QUESTION # 39

"You are designing a secure access strategy for compute instances deployed within a private subnet of an OCI Virtual Cloud Network (VCN). Your security policy requires that no compute instances in the private subnet should have direct Internet access, and administrative access should be controlled.

Which statement best describes the role of an OCI Bastion in securing access to these private compute instances?

- A. It provides a direct public endpoint for the compute instance, enabling remote access.
- B. It serves as a secondary authentication point, verifying user credentials before granting access to the compute instance.
- C. It creates a secure, publicly accessible entry point to access target resources in a private subnet."
- D. It acts as a firewall, blocking any external access to the private compute instance.

Answer: C

#### NEW QUESTION # 40

"A programmer is developing a Node.js application which will run on a Linux server on their on-premises data center. This application will access various Oracle Cloud Infrastructure (OCI) services using OCI SDKs.

What is the secure way to access OCI services with OCI Identity and Access Management (IAM)?

- A. Create a new OCI IAM user associated with a dynamic group and a policy that grants the desired permissions to OCI services. Add the on-premises Linux server in the dynamic group.
- B. Create an OCI IAM policy with appropriate permissions to access the required OCI services and assign the policy to the on-premises Linux server."
- C. Create a new OCI IAM user, add the user to a group associated with a policy that grants the desired permissions to OCI services. In the on-premises Linux server, generate the keypair used for signing API requests and upload the public key to the IAM user.
- D. Create a new OCI IAM user, add the user to a group associated with a policy that grants the desired permissions to OCI services. In the on-premises Linux server, add the user name and password to a file used by Node.js authentication.

Answer: C

#### NEW QUESTION # 41

When trying to encrypt plaintext using Command Line Interface (CLI), the developer gets a Service Error.
