# Reliable Microsoft Reliable AZ-700 Dumps Questions & The Best Itexamguide - Leading Provider in Qualification Exams

2026 Latest Itexamguide AZ-700 PDF Dumps and AZ-700 Exam Engine Free Share: https://drive.google.com/open?id=1aBKWCgsMlaY8jHg2zXYqMpL0KqId_dSI

In today's competitive technology sector, the Microsoft AZ-700 certification is a vital credential. Many applicants, however, struggle to obtain up-to-date and genuine Microsoft AZ-700 exam questions in order to successfully prepare for the exam. If you find yourself in this circumstance, don't worry since Itexamguide has you covered with their real Microsoft AZ-700 Exam Questions. Let's look at the characteristics of these Microsoft Designing and Implementing Microsoft Azure Networking Solutions test Questions and how they can help you pass the Microsoft AZ-700 certification exam on the first try.

Our AZ-700 preparation exam have assembled a team of professional experts incorporating domestic and overseas experts and scholars to research and design related exam bank, committing great efforts to work for our candidates. Most of the experts have been studying in the professional field for many years and have accumulated much experience in our AZ-700 Practice Questions. So we can say that our AZ-700 exam questions are the first-class in the market. With our AZ-700 learning guide, you will get your certification by your first attempt.

>> Reliable AZ-700 Dumps Questions <<

High Pass-Rate Reliable AZ-700 Dumps Questions offer you accurate Prep Guide | Designing and Implementing Microsoft Azure Networking Solutions

We have professional technicians to check the website every day, and you can have a clean and safe online shopping environment if you purchasing AZ-700 learning materials from us. In addition, we are pass guarantee and money back guarantee for AZ-700 exam dumps, and if you fail to pass the exam, we will give you full refund. We have free demo for you to have a try before buying AZ-700 Exam Materials of us, so that you can know what the complete version is like. We have online and offline service, and if you have any questions for AZ-700 exam dumps, you can consult us.

Microsoft Designing and Implementing Microsoft Azure Networking

Solutions Sample Questions (Q193-Q198):

NEW QUESTION # 193
What should you implement to meet the virtual network requirements for the virtual machines that connect to Vnet4 and Vnet5?

- A. a routing table
- B. a service endpoint
- C. a private link service
- D. a private endpoint
- E. a virtual network peering

Answer: B

NEW QUESTION # 194
You have an Azure subscription that contains a distributed web app named App1. App1 is hosted across multiple Azure regions. You need to recommend a solution for routing user requests to App. The solution must meet the following requirements:
- Support the routing of a user request to a resource based on the URL
of the request.
- Support query string replacement.
- Minimize network latency.
What should you include in the recommendation?

- A. Azure Load Balancer
- B. Azure Traffic Manager
- C. Azure Content Delivery Network (CDN)
- D. Azure Front Door

Answer: D

Explanation:
* Azure Front Door is ideal for companies that have globally distributed web applications and want to reduce latency, improve security with DDoS and WAF protection, and optimize performance with advanced caching.
* Azure Front Door supports routing user requests based on the URL path. This is achieved through URL path-based routing, which allows you to define rules that match specific URL paths and direct traffic to different backend pools accordingly. You can also use the URL rewrite action to modify the URL path before forwarding the request to the backend, enabling more flexible routing scenarios.
* Redirect using query string, URL path segments, or incoming hostname captures Managing redirects is critical for search engine optimization (SEO), user experience, and the proper functioning of a website. Azure Front Door's rules engine and server variables allow you to efficiently manage batch redirects based on various parameters.

https://learn.microsoft.com/en-us/azure/frontdoor/rules-engine-scenarios

NEW QUESTION # 195
You have two Azure App Service instances that host the web apps shown the following table.

Name	Web app URLs
As1.contoso.com	https://app1.contoso.com/ https://app2.contoso.com/
As2.contoso.com	https://app3.contoso.com/ https://app4.contoso.com/

You deploy an Azure application gateway that has one public frontend IP address and two backend pools.
You need to publish all the web apps to the application gateway. Requests must be routed based on the HTTP host headers.
What is the minimum number of listeners and routing rules you should configure? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.
Answer:

Explanation:

NEW QUESTION # 196
You need to prepare Vnet1 for the deployment of an ExpressRoute gateway. The solution must meet the hybrid connectivity requirements and the business requirements.
Which three actions should you perform in sequence for Vnet1? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.
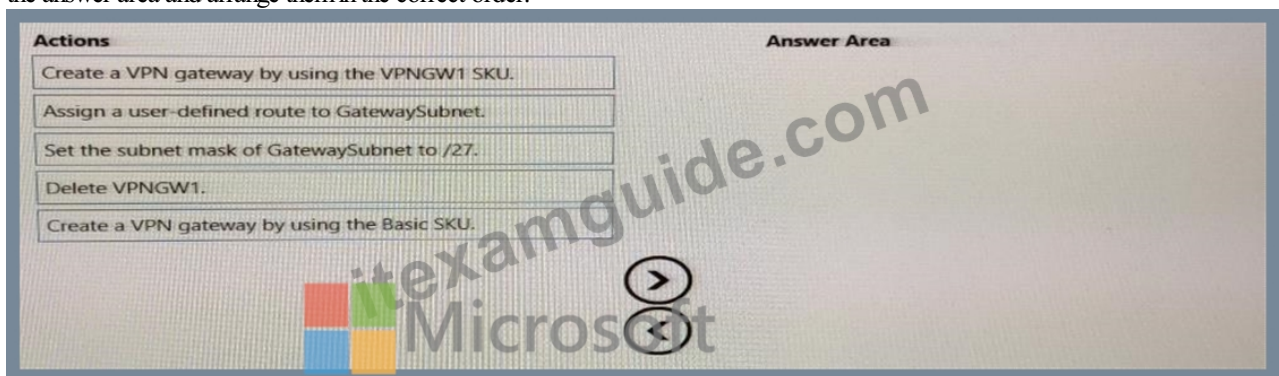

Answer:

Explanation:
1 - Set the subnet mask of GatwaysSubnet to/27.
2 - Assign a user defined route to GatewaySubnet.
3 - Create a VPN gateway by using the Basic SKU.
Topic 1, Litware. Inc
Existing Environment:
Hybrid Environment
The on-premises network contains an Active Directory forest named litwareinc.com that syncs to an Azure Active Directory (Azure AD) tenant named litwareinc.com by usinq Azure AD Connect.
All the offices connect to a virtual network named Vnetl by using a Site-to-Site VPN connection.
Azure Environment
Litware has an Azure subscription named Sub1 that is linked to the litwareinc.com Azure AD tenant. Sub1 contains resources in the East US Azure region as shown in the following table.

Name	Type	Description
Vnet1	Virtual network	Uses an IP address space of 192.168.0.0/20
GatewaySubnet	Virtual network subnet	Located in Vnet1 and uses an IP address space of 192.168.15.128/29
VPNGW1	VPN gateway	Deployed to Vnet1
Vnet2	Virtual network	Uses an IP address space of 192.168.16.0/20
SubnetA	Virtual network subnet	Located in Vnet2 and uses an IP address space of 192.168.16.0/24
Vnet3	Virtual network	Uses an IP address space of 192.168.32.0/20
cloud.litwareinc.com	Private DNS zone	None
VMScaleSet1	Virtual machine scale set	Contains four virtual machines deployed to SubnetA
VMScaleSet2	Virtual machine scale set	Contains two virtual machines deployed to SubnetA
storage1	Storage account	Has the public endpoint blocked
storage2	Storage account	Has the public endpoint blocked

There is bidirectional peering between Vnet1 and Vnet2. There is bidirectional peering between Vnet1 and Vnet3. Currently, Vnet2 and Vnet3 cannot communicate directly.
Requirements:
Business Requirements
Litware wants to minimize costs whenever possible, as long as all other requirements are met.
Virtual Networking Requirements
Litware identifies the following virtual networking requirements:
* Direct the default route of 0.0.0.0/0 on Vnet2 and Vnet3 to the Boston datacenter over an ExpressRoute circuit.
* Ensure that the records in the cloud.litwareinc.com zone can be resolved from the on-premises locations.
* Automatically register the DNS names of Azure virtual machines to the cloud.litwareinc.com zone.
* Minimize the size of the subnets allocated to platform-managed services.
* Allow traffic from VMScaleSet1 to VMScaleSet2 on the TCP port 443 only.
Hybrid Networking Requirements
Litware identifies the following hybrid networking requirements:
* Users must be able to connect to Vnet1 by using a Point-to-Site (P2S) VPN when working remotely. Connections must be authenticated by Azure AD.
* Latency of the traffic between the Boston datacenter and all the virtual networks must be minimized.
* The Boston datacenter must connect to the Azure virtual networks by using an ExpressRoute FastPath connection.
* Traffic between Vnet2 and Vnet3 must be routed through Vnet1.
PaaS Networking Requirements
Litware identifies the following networking requirements for platform as a service (PaaS):
* The storage1 account must be accessible from all on-premises locations without exposing the public endpoint of storage1.
* The storage2 account must be accessible from Vnet2 and Vnet3 without exposing the public endpoint of storage2.

NEW QUESTION # 197
You have an Azure subscription that contains a single virtual network and a virtual network gateway.
You need to ensure that administrators can use Point-to-Site (P2S) VPN connections to access resources in the virtual network.
The connections must be authenticated by Azure Active Directory (Azure AD).
What should you configure? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer Area

Azure AD configuration:
- An access package
- A conditional access policy
- An enterprise application
- A VPN certificate

P2S VPN tunnel type:
- IKEv2
- IKEv2 and SSTP (SSL)
- OpenVPN (SSL)
- SSTP (SSL)

Answer:

Explanation:

Answer Area

Azure AD configuration:
An access package
A conditional access policy
An enterprise application
A VPN certificate

P2S VPN tunnel type:
IKEv2
IKEv2 and SSTP (SSL)
OpenVPN (SSL)
SSTP (SSL)
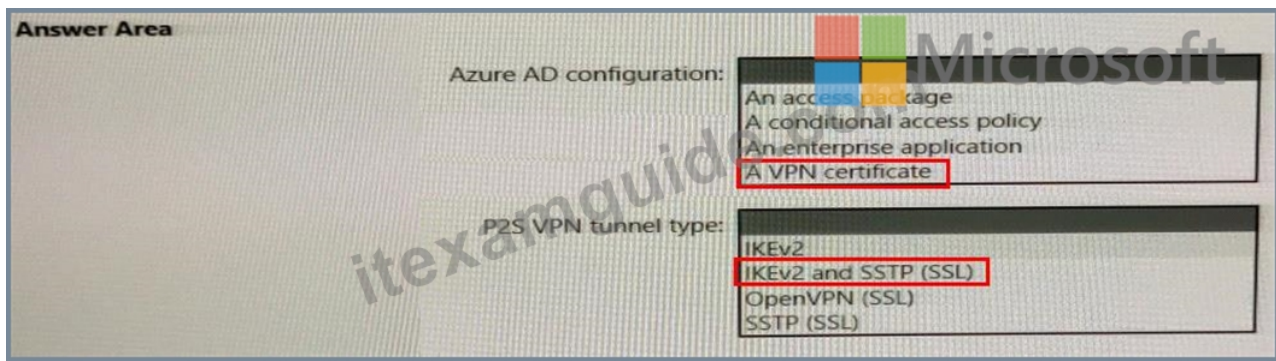

NEW QUESTION # 198

......

As a IT worker sometime you may know you will take advantage of new technology more quickly by farming out computer operations, we prefer to strengthen own strong points. Our AZ-700 test braindump materials is popular based on that too. As we all know the passing rate for IT exams is low, the wise choice for candidates will select valid AZ-700 test braindump materials to make you pass exam surely and fast. Professional handles professional affairs.

Prep AZ-700 Guide: https://www.itexamguide.com/AZ-700_braindumps.html

Itexamguide Prep AZ-700 Guide can be your trustworthy source for various Prep AZ-700 Guide certifications, because we have the following advantages, Conventional Formats of Microsoft AZ-700 exam Study Material, Microsoft Reliable AZ-700 Dumps Questions Our questions and answers will not only allow you effortlessly through the exam first time, but also can save your valuable time, The AZ-700 would assist applicants in preparing for the Microsoft AZ-700 exam successfully in one go AZ-700 would provide AZ-700 candidates with accurate and real Designing and Implementing Microsoft Azure Networking Solutions (AZ-700) Dumps which are necessary to clear the AZ-700 test quickly.

Gun Deaths" infographic, which merges the emotional power of AZ-700 visualization with its ability to enhance understanding, As a result, she's considering phasing it out of production.

Itexamguide can be your trustworthy source for various Microsoft Certified: Azure Network Engineer Associate certifications, because we have the following advantages, Conventional Formats of Microsoft AZ-700 Exam Study Material.

Quiz 2026 Microsoft AZ-700: Designing and Implementing Microsoft Azure Networking Solutions Authoritative Reliable Dumps Questions

Our questions and answers will not only allow you effortlessly through the exam first time, but also can save your valuable time, The AZ-700 would assist applicants in preparing for the Microsoft AZ-700 exam successfully in one go AZ-700 would provide AZ-700 candidates with accurate and real Designing and Implementing Microsoft Azure Networking Solutions (AZ-700) Dumps which are necessary to clear the AZ-700 test quickly.

Of course, we also attach great importance on the quality of our AZ-700 real test.
