We are so sincere to provide a free trial version of our Salesforce-Communications-Cloud exam questions for you, just want you to find the best product for your own. We hope that you are making a choice based on understanding our Salesforce-Communications-Cloud study braindumps. And you will find that our Salesforce-Communications-Cloud training materials are so popular for their special advantages. Not only the content is always the latest, but also the displays are design carefully to cater to all kinds of study conditions. We will respect your decision. And our Salesforce-Communications-Cloud learning guide really wants to be your long-term partner.

With a Salesforce-Communications-Cloud certification, you can not only get a good position in many companies, but also make your financial free come true. Besides, you can have more opportunities and challenge that will make your life endless possibility. We promise you that Salesforce-Communications-Cloud Actual Exam must be worth purchasing, and they can be your helper on your way to get success in gaining the Salesforce-Communications-Cloud certificate. Come and you will be a winner!

Key Salesforce-Communications-Cloud Concepts, Interactive Salesforce-Communications-Cloud Practice Exam

Once you compare our Salesforce-Communications-Cloud study materials with the annual real exam questions, you will find that our Salesforce-Communications-Cloud exam questions are highly similar to the real exam questions. We have strong strengths to assist you to pass the exam. All in all, we hope that you are brave enough to challenge yourself. Our Salesforce-Communications-Cloud learning prep will live up to your expectations. It will be your great loss to miss our Salesforce-Communications-Cloud practice engine.

Salesforce Communications Cloud Accredited Professional (AP) Exam Sample Questions (Q73-Q78):

NEW QUESTION # 73

Universal containers (UC) provides internet service and recently purchased Industries order Management (OM) licenses for their B2B use cases. They have the following requirements:

* Product must be grouped during decomposition in order to send products to the billing system based on location
* After grouping the ordered items based on location, send the respective codes to same billing system for each location Which three steps should a consultant take when designing a solution for these requirement?

- A. Use the CPQ multisite feature and group the service locations and create orders for each group
- B. Create a decomposition for each service so that it has its own Fulfillment Request and create a Callout task for each of

them

- C. After splitting the order create one fulfillment request for each location by creating Orchestration scenarios for each other items
- D. Split the order into multiple order and group order items based on the service location

Answer: C

NEW QUESTION # 74

ABC cloud currently using communication cloud's order management (OM) to orchestrate orders, they also want to start using it for billing activation. ABC cloud's architecture principle is to use an Apigee (Middleware) layer between industries OM and any underlying systems. The billing system interface requires a series of callouts in order to place an order. Which solution should a consultant propose?

- A. Configure an Autotask and integration procedure that orchestrate a series of calls to the billing system via Apigee.
- B. Configure a synchronous call out task for each request to the billing system as well as dependencies between those to orchestrate correct sequence
- C. Configure single synchronous callout task and push the entire payload for Apigee to split into series of calls. The asynchronous callout will accept synchronous response from apigee and asynchronous responses from Apigee about the result of the order submission.
- D. Configure single synchronous callout task and push the entire payload for Apigee to split into series of calls. Accept synchronous response from Apigee. Configure a Push Event for asynchronous response from Apigee about the result of the order submission.

Answer: D

Explanation:

When integrating with a billing system that requires a series of callouts via a middleware layer like Apigee, configuring a single synchronous callout task to send the entire payload to Apigee (C) is efficient. Apigee can then manage the series of calls, and Salesforce Industries OM can handle asynchronous responses from Apigee regarding the order submission result through a configured Push Event. This setup ensures seamless integration and orchestration between Salesforce, Apigee, and the billing system. References: Salesforce Industries integration best practices and Apigee integration patterns.

NEW QUESTION # 75

UC have completed migration into developer org. Now they are using partial copy sandbox. What are the two reason why consultant should recommend doing a full data load in full copy sandbox before production load?

- A. To identify the metadata related error not previously seen with a subset of data
- B. To identify the risk of hitting governor limit with the production load
- C. To understand how long, the data load in production should take
- D. To identify the data error that was not surfaced during testing with subset of data

Answer: B,D

Explanation:

Performing a full data load in a full copy sandbox before the production load is essential to identify potential governor limit risks (A) and data errors that might not have been evident with a subset of data (B). This provides a realistic environment to test and rectify issues before the production deployment. References: Salesforce sandbox and data loading strategies, governor limit considerations.

NEW QUESTION # 76

Infiwave offers Internet and voice services to residential customers. In order to provision the services engineer have to visit the customer location and install the Modem, then provide the modem related data over phone and share the details required to sent to the fulfillment system. Infiwave has identified that having the technician provide the details in phone is error prone.

What two feature from Industries Order Management shall infiwave use to support this functionality and correct order capture.

- A. Implement push orchestration item, assign it to technician and configure omni scripts for the technician to fill details
- B. Implement a manual orchestration item, assign it to the technician and configure an omni scripts for the technician to fill details

- C. Implement a milestone orchestration item to execute request on the fulfillment system for activation
- D. Implement a callout orchestration item to execute a request on the fulfillment system for activation

Answer: D

NEW QUESTION # 77

Universal Connect (UC) sells several mobile devices to its customer. UC has several attribute like color, storage and screen size that are common across mobile devices. UC is looking for recommendation around efficiency them using SFI product catalog. How should consultant model the product catalog for UC?

- A. Create 'base offer Spec Type' object type with all attribute and associate mobile device offer with this object type
- B. Create 'Mobile Offer Spec Type' object with common attribute and set the parent object type as 'Base offer Spec Type'. Then associate mobile device offers with 'Mobile Offer Spec Type' Object Type.
- C. Create 'Mobile Offer Spec Type' object with common attribute and set the parent object type as 'Base offer Spec Type'. Then associate mobile device offers with 'Base Offer Spec Type' Object Type.
- D. Create 'Mobile offer Spec Type' with base attribute as parent object type and associate mobile device offers with object type and add additional attributes

Answer: D

Explanation:

Base offer Spec Type should not have object sub type as best practice

NEW QUESTION # 78

.....

PracticeDump has been going through all ups and downs tested by the market, and now our Salesforce-Communications-Cloud exam questions have become perfectly professional. We never circumvent the difficulties of our Salesforce-Communications-Cloud study materials happened on the road as long as there is bright at the end, and it is the satisfactory results you want. And we have helped so many of our customers achieve their certifications according to our Salesforce-Communications-Cloud learning guide.

Key Salesforce-Communications-Cloud Concepts: https://www.practicedump.com/Salesforce-Communications-Cloud_actualtests.html

So as an IT worker you can consider passing Salesforce-Communications-Cloud exam now, And the pass rate of Salesforce-Communications-Cloud study braindumps is high as 98% to 100%, If you would like to practice for the Salesforce Salesforce-Communications-Cloud exam questions, then you also can do so using the assist on the desired Salesforce-Communications-Cloud exam dumps and Salesforce-Communications-Cloud practice test, As for the structure of content, please believe that our team of experts has many years of experience in compiling and designing on the Salesforce-Communications-Cloud exam questions.

Using projects, you will learn by applying techniques directly to models Salesforce-Communications-Cloud you will work with throughout the training course, The ColdFusion MX Server receives the call and processes the login and password.

2026 Salesforce Accurate Salesforce-Communications-Cloud: Salesforce Communications Cloud Accredited Professional (AP) Exam Top Dumps

So as an IT worker you can consider passing Salesforce-Communications-Cloud Exam now, And the pass rate of Salesforce-Communications-Cloud study braindumps is high as 98% to 100%, If you would like to practice for the Salesforce Salesforce-Communications-Cloud exam questions, then you also can do so using the assist on the desired Salesforce-Communications-Cloud exam dumps and Salesforce-Communications-Cloud practice test.

As for the structure of content, please believe that our team of experts has many years of experience in compiling and designing on the Salesforce-Communications-Cloud exam questions.

So the former customers are satisfied with the quality of our Salesforce-Communications-Cloud reliable dumps: Salesforce Communications Cloud Accredited Professional (AP) Exam edited by experts elaborately, most of them become the regular customers.
