C-THR92-2505指南， C-THR92-2505考試心得

我們Fast2test SAP的C-THR92-2505考試 的問題包含了完整的無限制的轉儲，所以你很容易的通過考試，不管你是通過你的產品合格證或是其他當今流行的身份驗證，完美的展現Fast2test SAP的C-THR92-2505考試培訓資料的長處，這不僅僅是依靠，也是指導，這其實是最好的，你可以使用Fast2test SAP的C-THR92-2505考試 培訓資料裏的問題和答案通過考試，獲得SAP的C-THR92-2505考試認證。

SAP C-THR92-2505 考試大綱：

主題	簡介
主題 1	Table Reports: This part measures the skills of a Data Analyst and involves creating, managing, and running Table Reports. It focuses on designing tabular data presentations that facilitate straightforward access to detailed workforce analytics information.
主題 2	Canvas Reports and Page Designer: This part measures the capabilities of a Report Administrator and involves creating and customizing reports using Canvas Reports and Page Designer. It covers advanced query construction, formatting, pivot creation, and report distribution to enhance data presentation and usability.
主題 3	Detailed Reporting Tool with Live Data: This section assesses the skills of an Advanced Report Developer and involves working with detailed reports that use live data feeds. It includes building customizable queries and using reporting tools to deliver real-time, actionable data to stakeholders.
主題 4	Provisioning Settings for Reporting: This area focuses on the abilities of a System Administrator and involves configuring and enabling the necessary settings in Provisioning to support reporting tools within SAP SuccessFactors. It includes setup tasks that ensure reporting solutions function properly within the system environment.

最新的 SAP Certified Associate C-THR92-2505 免費考試真題 (Q65-Q70):

問題 #65

In the Advanced Reporting tool, you want to create a query that includes the employee's matrix manager.

When you configure the table join with the Job Relationships table, the Results tab displays multiple rows per employee that also include relationships to HR managers and second managers. How do you configure the query to return one row per employee that shows the employee's matrix manager, when assigned?

- A. Change the Job Relationship join to a left join.
- B. Change the Job Relationship join to an inner join.
- C. Change the Job Relationship to include a table restriction.
- D. Change the Job Relationship join to a right join.

答案: C

解題說明:

* Scenario Analysis

* In the Advanced Reporting tool, the Job Relationships table is used to link employees to their various managers (e.g., matrix manager, HR manager, second manager).

* By default, this setup may result in multiple rows per employee, as the relationships are not filtered for the specific manager type.

* Solution

* Configuring a table restriction allows filtering the Job Relationships table to include only rows corresponding to the desired relationship type (e.g., matrix manager).

* This ensures that only one row per employee is returned in the query.

* Why Other Options are Incorrect

* A (Inner Join): Does not address the multiple rows issue and may exclude employees without a matrix manager.

* C (Right Join): Similar to A, this does not resolve the issue and may include unrelated rows.

* D (Left Join): Includes all rows but does not filter for the matrix manager.

問題 #66

Which actions can you perform in a Simple Text component? Note: There are 3 correct answers to this question.

- A. Add a link to an existing canvas report.
- B. Select the background color, numeric list options, and indentation for the text.
- C. Select the font, font size, and font style options for the text.
- D. Select an image to display inline within text.
- E. Upload an image to display before or after the text.

答案: B,C,E

解題說明:

In a Simple Text component within SAP SuccessFactors:

* Upload an Image to Display Before or After the Text (B):

* You can enhance the text component by adding images that appear before or after the text for visual emphasis.

* Select Background Color, Numeric List Options, and Indentation (C):

* Customizing background color, applying numbered lists, and adjusting indentation are supported for formatting text.

* Select Font, Font Size, and Font Style Options (D):

* Full control over text appearance, including font, size, and style, is provided in the Simple Text component.

問題 #67

What is included in the saved state of a bookmark for a Story report? Note: There are 3 correct answers to this question.

- A. Filters
- B. Data
- C. Prompts
- D. Input controls
- E. Comments

答案： A,C,D

解題說明：

When saving a bookmark for a Story report, the following states are saved:

- * Filters (A): Any applied filters are retained in the bookmark.
- * Input Controls (B): User-defined inputs (like sliders or dropdowns) are preserved.
- * Prompts (D): User-specified prompts during execution are also included.

問題 #68

You are configuring a story report. You add the image widget to the top-left corner of the canvas. You then upload the SAP SuccessFactors logo in the Builder, and select the logo image so it displays on the canvas.

When you preview the report in View Mode, the logo appears centered on the canvas. What action do you take so the Logo appears in the top-left corner when viewing the report in View Mode?

- A. In Designer Mode, add another widget under the image.
- B. In Builder for the image, set the image to Dynamic.
- C. In Styling for the page, set the Page Size to Fixed.
- D. In Styling for the image, set the Image Properties to Pan.

答案： C

解題說明：

* Issue Description:

* When the logo appears centered in View Mode instead of the top-left corner, it is because the page size is set to a responsive layout.

* Solution:

* Go to Styling for the page in the report configuration.

* Change the Page Size from responsive to Fixed.

* This ensures that elements like the logo remain positioned as designed, including in the top-left corner.

問題 #69

How do you give an analyst permission to build tiles?

- A. Assign the analyst as a dashboard administrator in Provisioning.
- B. Add the analyst to the role-based permission group Dashboard Administrators.
- C. Assign the role-based permission in the Manage Dashboards/Reports RBP Category.
- D. Assign the role-based permission in the Analytics RBP Category.

答案： C

解題說明：

* Granting Tile Creation Permissions

* To enable an analyst to build tiles, you need to assign the appropriate Role-Based Permission (RBP) in the Manage Dashboards/Reports category.

* Why Other Options are Incorrect

* A. Analytics RBP Category: This does not provide permissions specific to tiles.

* B. Dashboard administrator in Provisioning: Provisioning is not required for this task.

* C. Dashboard Administrators Group: Adding to this group is not sufficient for tile creation.
