CIS-Discovery Valid Practice Materials - CIS-Discovery Valid Braindumps Questions

All kinds of exams are changing with dynamic society because the requirements are changing all the time. To keep up with the newest regulations of the Certified Implementation Specialist - Discovery exam, our experts keep their eyes focusing on it. Expert team not only provides the high quality for the CIS-Discovery Quiz guide consulting, also help users solve problems at the same time, leak fill a vacancy, and finally to deepen the user's impression, to solve the problem of CIS-Discovery test material and no longer make the same mistake.

ServiceNow CIS-Discovery Exam consists of 60 multiple-choice questions and has a duration of 90 minutes. CIS-Discovery exam is delivered through the ServiceNow Certification portal and can be taken online from anywhere with an internet connection. The passing score for the exam is 70%, and candidates receive their results immediately after completing the exam.

ServiceNow CIS-Discovery exam covers a wide range of topics related to ServiceNow Discovery, including the installation and configuration of the Discovery application, the creation and management of credentials and patterns, and the integration of the Discovery application with other ServiceNow applications. CIS-Discovery exam also covers best practices for troubleshooting and resolving issues related to ServiceNow Discovery.

The Certified Implementation Specialist - Discovery certification is one of the advanced certifications offered by ServiceNow. Certified Implementation Specialist - Discovery certification is suitable for IT professionals who desire to design, configure, and test the ServiceNow Discovery solutions. By acquiring this certification, you will learn how to implement ServiceNow workflows and design ServiceNow Discovery configurations that will enable the platform to discover and map different network components, software and hardware assets and their relationships.

ServiceNow Certified Implementation Specialist - Discovery Sample Questions (Q78-Q83):

NEW QUESTION # 78

In general, Discovery can provide which of the following kinds of application relationships? (Choose two.)

- A. application to application
- B. host to application
- C. mid server to target
- D. tcp to udp

Answer: A

NEW QUESTION # 79

Which of the following must be configured to allow a MID Server to access servers using WinRM?

- A. Set the JEA Property to True
- B. Add a MID Server parameter `mid.windows.management_protocol` to use WinRM
- C. Add the MID Servers as a trusted source with DNS
- D. Add the WinRM parameter on the target servers

Answer: B

Explanation:

For a MID Server to access servers using Windows Remote Management (WinRM), it's necessary to specify that WinRM should be used as the protocol for Windows management. This is typically done by setting the appropriate MID Server parameter, such as `mid.windows.management_protocol`, to WinRM. This configuration tells the MID Server to use the WinRM protocol when communicating with the target servers for executing commands and collecting data. The answer is derived from understanding how ServiceNow Discovery uses MID Servers to perform remote operations and the need to configure these MID Servers appropriately to communicate using different protocols like WinRM. It is not sufficient to just add the WinRM parameter on target servers or simply add the MID Servers as a trusted source with DNS; the MID Server itself must be configured to use WinRM. Setting a 'JEA Property' to true is not relevant to the basic configuration of a MID Server for WinRM access.

NEW QUESTION # 80

Which of the following MID Server Parameters cannot be modified through the platform UI?

- A. `mid.ssh.session_timeout`
- B. `name`
- C. `mid.windows.management_protocol`
- D. `url`

Answer: B

Explanation:

The MID Server parameters like `'mid.ssh.session_timeout'`, `'url'`, and `'mid.windows.management_protocol'` can be modified through the ServiceNow platform UI under the MID Server configuration settings. These parameters control various aspects of the MID Server's operation, such as timeout settings for SSH sessions, the URL for the MID Server to communicate with the ServiceNow instance, and the management protocol to use for Windows servers, respectively. The `'name'` of the MID Server, however, is not typically a parameter that can be changed through the UI as it is a unique identifier for the MID Server within the ServiceNow instance. Once a MID Server is registered with a name, that name is usually persistent and not intended to be modified through configuration settings.

NEW QUESTION # 81

Which of the following is required for a MID Server to have access to automatically stay up-to-date with instance versions?

- A. `developer.service-now.com`
- B. `install.service-now.com`
- C. `docs.servicenow.com`
- D. `service-now.com`

Answer: B

NEW QUESTION # 82

When designing steps with operations requiring variables, it is best practice to do what?

- A. always use scalar variables
- B. hard core variables
- C. design for a static environment
- D. query targets for variables

Answer: D

Explanation:

When designing steps with operations requiring variables, it is best practice to query targets for variables¹.

This allows you to dynamically obtain the values of the variables from the target devices, rather than hard coding them or using scalar variables that may not reflect the current state of the target. Querying targets for variables also enables you to design for a dynamic environment, where the target configuration may change over time.

:

1: Define discovery steps

NEW QUESTION # 83

.....

The downloading process is operational. It means you can obtain CIS-Discovery quiz torrent within 10 minutes if you make up your mind. Do not be edgy about the exam anymore, because those are latest CIS-Discovery exam torrent with efficiency and accuracy. You will not need to struggle with the exam. Besides, there is no difficult sophistication about the procedures, our latest CIS-Discovery Exam Torrent materials have been in preference to other practice materials and can be obtained immediately.
