H12-891_V1.0 Cert, H12-891_V1.0 Exam Cram Pdf

Our loyal customers give our H12-891_V1.0 exam materials strong support. So we are deeply moved by their persistence and trust. Your support and praises of our H12-891_V1.0 study guide are our great motivation to move forward. You can find their real comments in the comments sections. There must be good suggestions for you on the H12-891_V1.0 learning quiz as well. And we will try our best to satisfy our customers with better quality and services.

Upon passing the Huawei H12-891_V1.0 (HCIE-Datacom V1.0) Certification Exam, candidates will be recognized as certified professionals in the field of data communication, and will have access to a range of career opportunities in this growing industry. They will also gain recognition and respect from their peers, and will be able to contribute to the development and growth of their organization.

Huawei HCIE-Datacom V1.0 Sample Questions (Q272-Q277):

NEW QUESTION # 272

To prevent hackers from attacking user devices or networks using MAC addresses, you can configure MAC addresses of untrusted users as blackhole MAC addresses to filter out such invalid MAC addresses. When receiving a packet whose source or destination MAC address is a blackhole MAC address on a device, the device discards the packet.

- A. TRUE
- B. FALSE

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Blackhole MAC address configuration is a security feature that helps protect a network from MAC address spoofing or attacks involving untrusted MAC addresses. When you configure a MAC address as a blackhole MAC address, any packet received with that address as the source or destination will be immediately discarded by the device.

This feature is useful in scenarios where certain MAC addresses are identified as malicious or untrusted. By adding these MAC addresses to the blackhole list, the device effectively blocks communication involving these addresses, thereby mitigating security risks.

NEW QUESTION # 273

A company network runs the OSPF protocol, an engineer in order to understand the OSPF mechanism in the network to perform packet capture operations, the following ospf message description is correct?

- A. LSUUpdate message is sent only when an adjacency relationship is established
