for Spend & Network? Note: There are 3 correct answers to this question.

- A. Ariba-specific web services must be used for the SLP integration
- B. MDG-S and Master Data Governance, Consolidation must be set up when using the standalone MDG system
- C. Integration is only supported for the business partner supplier segment
- D. In the SAP system, configuring the SLP integration using the Managed Gateway-AddOn is not mandatory
- E. A standalone SAP Master Data Governance (MDG-S) system in your landscape is mandatory

**Answer: A,B,C**

#### NEW QUESTION # 78

Which of the following apply to the context of Packaging Data for Handling Units used in the Ship Notices in the SAP Business Network integration via Managed Gateway for Spend & Network? Note: There are 3 correct answers to this question.

- A. The packaging information file must be renamed as "Instructions.xlsx" before uploading to defined
- B. The instructions comprising the hierarchy of the multiple levels of packing units can be
- C. The Buyer creates and uploads the packing instructions on the SAP Business Network
- D. The supplier creates and uploads the packing instructions on the SAP Business Network the SAP Business Network

**Answer: A,B,C**

Explanation:

Solution:

Based exclusively on the content in "Exporting the Packaging Data for Handling Units to SAP Business Network for the SAP System" on learning.sap.com, the 3 correct statements are:

\*A. The Buyer creates and uploads the packing instructions on the SAP Business Network The documentation states that buyers create packaging instructions in the ERP (SAP ERP or S/4HANA) and then export/upload them to the SAP Business Network. SAP Learning

\*C. The instructions comprising the hierarchy of the multiple levels of packing units can be (This option is a bit truncated in your question, but it refers to the fact that packaging instructions define the "hierarchy of multiple levels of packing units." That is clearly stated in the lesson.) SAP Learning

\*D. The packaging information file must be renamed as "Instructions.xlsx" before uploading to defined The lesson explains that after exporting the packaging information to an Excel file, you must rename it to "Instructions.xlsx" before importing/up-loading it to the SAP Business Network., SAP Learning B. The supplier creates and uploads the packing instructions on the SAP Business Network - this is not correct. The supplier does not create or upload; rather, they use the packaging instructions the buyer uploaded.

SAP Learning

So the correct answers are:

A, C, and D.

#### NEW QUESTION # 79

What is the purpose of maintaining variants and partitions in the context of integration using the SAP Integration Suite, managed gateway for spend management and SAP Business Network?

- A. To maintain print variants for PO output types in SAP
- B. To differentiate configuration parameters for different documents based on the solution
- C. To use partition settings to generate backup IDocs in SAP
- D. To define data variants for version control of integration flows

**Answer: B**

#### NEW QUESTION # 80

You are extracting Remittance Location data from the backend SAP system to export it to the SAP Ariba Buying and Invoicing site. In the SAP system, you only maintain the supplier location without maintaining the remittance location. What value will be downloaded as the Remittance Location in the file?

- A. Supplier location
