

# Chrome-Enterprise-Administrator Exam Lab Questions & Chrome-Enterprise-Administrator Reliable Dumps Pdf

What's more, part of that Dumpcollection Chrome-Enterprise-Administrator dumps now are free: [https://drive.google.com/open?id=1LBT3gJQ07LmZVhLD6BXacBFiuUu\\_nWIz](https://drive.google.com/open?id=1LBT3gJQ07LmZVhLD6BXacBFiuUu_nWIz)

The Chrome-Enterprise-Administrator prep guide adopt diversified such as text, images, graphics memory method, have to distinguish the markup to learn information, through comparing different color font, as well as the entire logical framework architecture, let users of the Chrome-Enterprise-Administrator training dump on the premise of grasping the overall layout, better clues to the formation of targeted long-term memory, and through the cycle of practice, let the knowledge more deeply printed in my mind. The Chrome-Enterprise-Administrator Exam Questions are so scientific and reasonable that you can easily remember everything of the Chrome-Enterprise-Administrator exam.

## Google Chrome-Enterprise-Administrator Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Chrome Enterprise Management Fundamentals: This section of the exam measures skills of a Chrome Device Administrator and covers the foundational elements of managing Chrome in an enterprise. It includes understanding how policies are applied and resolved, differentiating managed browsers from profiles, and describing how policies work. It also covers Chrome's built-in security features, how extensions are used and deployed, and how the release cycle and channels are managed.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Analyze Chrome Data: This section of the exam measures skills of a Chrome Data Analyst and focuses on using the Google Admin console to view, analyze, and troubleshoot browser data. It includes reviewing reports, diagnosing browser or update issues, investigating performance problems, and identifying security risks based on log events and Chrome activity.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Chrome Updates: This section of the exam measures skills of a Chrome IT Policy Analyst and addresses the various update methods available for Chrome. It includes selecting the right update strategy for different business and security needs, managing compliance across platforms, and adapting update methods based on environmental changes or risks.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Chrome Extensions: This section of the exam measures skills of an Endpoint Security Manager and involves managing Chrome extension policies. It includes designing extension management strategies, handling extension exemptions, creating approval workflows, and assessing extensions for their risk and compliance with business continuity requirements.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>Manage Chrome Enterprise in the Cloud: This section of the exam measures skills of a Cloud Systems Administrator and focuses on preparing and configuring environments for Chrome cloud management. Candidates must demonstrate how to verify domains, use admin roles, configure organizational structures, deploy enrollment tokens, enable reporting, and maintain Chrome using the Google Admin console.</li></ul>

## Chrome-Enterprise-Administrator Reliable Dumps Pdf & Chrome-Enterprise-Administrator New Dumps Questions

With the best quality of Chrome-Enterprise-Administrator braindumps pdf from our website, getting certified will be easier and fast. For the preparation of the certification exam, all you have to do is choose the most reliable Chrome-Enterprise-Administrator real questions and follow our latest study guide. You can completely rest assured that our Chrome-Enterprise-Administrator Dumps Collection will ensure you get high mark in the formal test. You will get lots of knowledge from our website.

### Google Professional Chrome Enterprise Administrator Certification Exam Sample Questions (Q48-Q53):

#### NEW QUESTION # 48

An administrator is using Organizational Units (OU) to apply different Chrome browser settings to different types of devices. The administrator needs to ensure that the browsers are placed in the correct OU. Which token must the administrator generate and apply?

- A. Enrollment Token
- B. Cloud Management Token
- C. Browser Policy Token
- D. Device Management Token

#### Answer: A

Explanation:

The \*\*Enrollment Token\*\* is the key to associating a Chrome browser instance with a specific organizational unit (OU) in the Google Admin console during the enrollment process. By applying the correct enrollment token during setup, the browser will be placed in the designated OU and inherit the policies configured for that OU. Device Management Tokens are more relevant for ChromeOS devices. Browser Policy Tokens are not a standard term for OU assignment during enrollment. Cloud Management Token is a general term encompassing the enrollment process.

#### NEW QUESTION # 49

A systems engineer recently cloud enrolled Chrome browsers, which were previously managed via group policy, and deployed a policy through Chrome Enterprise Core. However, the policy is not applying. After validating the policy via chrome://policy, the status shows a warning conflict. What is the best way to resolve this issue?

- A. Adjust the policy merge list setting
- B. Check and configure the precedence order
- C. Re-enroll the Chrome browser to reset the policy
- D. Restart the computer to apply the policy changes

#### Answer: B

Explanation:

A "warning conflict" in 'chrome://policy' indicates that multiple policy sources are trying to control the same setting. Since the browsers were previously managed by Group Policy, there's likely a conflict between the cloud policy and the local Group Policy. The best way to resolve this is to \*\*check and configure the precedence order\*\* of policy sources. Ensure that Cloud Policy is set to have the desired precedence over Group Policy if that's the intention. Restarting the computer might apply existing policies but won't resolve the conflict in precedence. Adjusting a "policy merge list setting" is not a standard term for resolving this type of conflict. Re-enrolling might give a fresh start but doesn't address the underlying conflict in policy sources.

#### NEW QUESTION # 50

Chrome Browser Cloud Management has been successfully implemented at a company for the past year. Recently, the engineering team has received feedback from the security team that Chrome browsers are not meeting patching

Service Level Agreements (SLAs). In the Insight report, the engineering team sees that 30% of their companies' browsers are pending updates.

Which browser policy could the engineering team implement to ensure better compliance with the security team's patching requirement?

- A. Chrome browser updates
- B. Relaunch notification
- C. Auto-update check period
- D. Google updater policy precedence

**Answer: C**

Explanation:

To ensure timely patching, the engineering team should adjust the "Auto-update check period" policy. By shortening this period, Chrome browsers will check for updates more frequently, increasing the likelihood of applying security patches sooner and improving compliance with patching SLAs. "Chrome browser updates" is a general category, "Relaunch notification" affects when users are prompted to restart, and "Google updater policy precedence" deals with the order of policy application, not the frequency of checks.

#### NEW QUESTION # 51

Which percentage of Chrome is recommended during Beta before general availability?

- A. 2%
- B. 1%
- C. 10%
- D. 5%

**Answer: D**

Explanation:

While the exact percentage isn't explicitly stated in the provided material, industry best practices for software deployment, including browser updates, recommend testing in a Beta environment with a representative but limited subset of users before a full rollout. A common recommendation for Beta testing is around 5% of the user base. This provides sufficient feedback and issue detection without impacting the majority of users.

#### NEW QUESTION # 52

An organization has Chrome set to auto-update. The security team runs a compliance report from Chrome Enterprise Core and notices that some rarely used machines are showing an old version of Chrome. However, when an engineer logs in to these PCs and checks Chrome directly, the correct updated version appears. What is the most likely reason for this discrepancy?

- A. Network setting is blocking the unattended auto-update check
- B. The display version does not update until Chrome is launched
- C. The machine has a different version of Chrome installed that is not managed via auto update
- D. The auto-update feature is malfunctioning and not updating Chrome until it is launched

**Answer: B**

Explanation:

The most likely reason for this discrepancy is that the version reported in the Chrome Enterprise Core compliance report might not be updated in real-time until Chrome is actively running and checks in. When an engineer logs in and launches Chrome, it likely completes the update process and reports the correct version.

The auto-update feature generally works in the background, and a completely different unmanaged version (option C) or a persistent network block (option D) would likely prevent updates even when Chrome is launched. A malfunctioning auto-update (option A) is less likely to resolve itself upon manual launch.

#### NEW QUESTION # 53

.....

Chrome-Enterprise-Administrator learning materials are high-quality, because we have a professional team to collect the latest information for the exam. We can ensure you that Chrome-Enterprise-Administrator exam braindumps you receive is the latest information we have. Our company is strict with the quality and answers, therefore you just need to use them at ease. We offer you free demo to have a try before buying Chrome-Enterprise-Administrator Exam Dumps, so that you can have a better understanding of what you are going to buy. In addition, you can receive the download link and password within ten minutes, and if you don't, you can contact us, and we will solve that for you.
