Professional-Cloud-Network-Engineer Latest Exam Question | 100% Free Authoritative Braindumps Google Cloud Certified - Professional Cloud Network Engineer Downloads

It would be really helpful to purchase Google Cloud Certified - Professional Cloud Network Engineer (Professional-Cloud-Network-Engineer) exam dumps right away. If you buy this Google Certification Exams product right now, we'll provide you with up to 1 year of free updates for Google Cloud Certified - Professional Cloud Network Engineer (Professional-Cloud-Network-Engineer) authentic questions. You can prepare using these no-cost updates in accordance with the most recent test content changes provided by the Google Cloud Certified - Professional Cloud Network Engineer (Professional-Cloud-Network-Engineer) exam dumps.

Real Google Professional-Cloud-Network-Engineer Exam Questions certification makes you more dedicated and professional as it will provide you complete information required to work within a professional working environment. We have received testimonials from thousands of people who have accomplished Google Cloud Certified - Professional Cloud Network Engineer (Professional-Cloud-Network-Engineer) only because of the legitimate and trustworthy Professional-Cloud-Network-Engineer exam dumps. It's not simple to achieve Google Cloud Certified - Professional Cloud Network Engineer (Professional-Cloud-Network-Engineer) exam certification.

Braindumps Professional-Cloud-Network-Engineer Downloads, Relevant Professional-Cloud-Network-Engineer Questions

With the development of IT technology in recent, many people choose to study IT technology which lead to lots of people join the IT industry. So, the competition is in fierce in IT industry. With working in IT industry and having IT dream, you don't expect to be caught up by other people which need you to improve your IT skills to prove your ability. How do you want to prove your ability? More and more people prove themselves by taking IT certification exam. Do you want to get the certificate? You must first register Google Professional-Cloud-Network-Engineer Exam. Professional-Cloud-Network-Engineer test is the important exam in Google certification exams which is well recognized.

Google Cloud Certified - Professional Cloud Network Engineer Sample Questions (Q129-Q134):

NEW QUESTION # 129
You are migrating a three-tier application architecture from on-premises to Google Cloud. As a first step in the migration, you want to create a new Virtual Private Cloud (VPC) with an external HTTP(S) load balancer. This load balancer will forward traffic back to the on-premises compute resources that run the presentation tier. You need to stop malicious traffic from entering your VPC and consuming resources at the edge, so you must configure this policy to filter IP addresses and stop cross-site scripting (XSS) attacks. What should you do?

- A. Create a VPC firewall ruleset, and apply it to all instances in unmanaged instance groups.
- B. Create a hierarchical firewall ruleset, and apply it to the VPC's parent organization resource node.
- C. Create a Google Cloud Armor policy, and apply it to a backend service that uses an internet network endpoint group

(NEG) backend.
- D. Create a Google Cloud Armor policy, and apply it to a backend service that uses an unmanaged instance group backend.

Answer: C

NEW QUESTION # 130
You want to set up two Cloud Routers so that one has an active Border Gateway Protocol (BGP) session, and the other one acts as a standby.
Which BGP attribute should you use on your on-premises router?

- A. Multi-exit Discriminator
- B. Community
- C. Local Preference
- D. AS-Path

Answer: A

Explanation:
Explanation/Reference: https://cloud.google.com/router/docs/concepts/overview

NEW QUESTION # 131
Your company just completed the acquisition of Altostrat (a current GCP customer). Each company has a separate organization in GCP and has implemented a custom DNS solution. Each organization will retain its current domain and host names until after a full transition and architectural review is done in one year. These are the assumptions for both GCP environments.
* Each organization has enabled full connectivity between all of its projects by using Shared VPC.
* Both organizations strictly use the 10.0.0.0/8 address space for their instances, except for bastion hosts (for accessing the instances) and load balancers for serving web traffic.
* There are no prefix overlaps between the two organizations.
* Both organizations already have firewall rules that allow all inbound and outbound traffic from the 10.0.0.0/8 address space.
* Neither organization has Interconnects to their on-premises environment.
You want to integrate networking and DNS infrastructure of both organizations as quickly as possible and with minimal downtime.
Which two steps should you take? (Choose two.)

- A. Set up some variant of DNS forwarding and zone transfers in each organization.
- B. Use Cloud DNS to create A records of all VMs and resources across all projects in both organizations.
- C. Create a third organization with a new host project, and attach all projects from your company and Altostrat to it using shared VPC
- D. Provision Cloud Interconnect to connect both organizations together.
- E. Connect VPCs in both organizations using Cloud VPN together with Cloud Router.

Answer: B,D

NEW QUESTION # 132
Your company has a security team that manages firewalls and SSL certificates. It also has a networking team that manages the networking resources. The networking team needs to be able to read firewall rules, but should not be able to create, modify, or delete them.
How should you set up permissions for the networking team?

- A. Assign members of the networking team the compute.networkViewer role, and add the compute.networks.use permission.
- B. Assign members of the networking team the compute.networkAdmin role.
- C. Assign members of the networking team the compute.networkUser role.
- D. Assign members of the networking team a custom role with only the compute.networks.* and the compute.firewalls.list permissions.

Answer: B

Explanation:
https://cloud.google.com/compute/docs/access/iam

NEW QUESTION # 133

You have provisioned a Dedicated Interconnect connection of 20 Gbps with a VLAN attachment of 10 Gbps.

You recently noticed a steady increase in ingress traffic on the Interconnect connection from the on-premises data center. You need to ensure that your end users can achieve the full 20 Gbps throughput as quickly as possible. Which two methods can you use to accomplish this? (Choose two.)

- A. From the Google Cloud Console, modify the bandwidth of the VLAN attachment to 20 Gbps.
- B. From the Google Cloud Console, request a new Dedicated Interconnect connection of 20 Gbps, and configure a VLAN attachment of 10 Gbps.
- C. Configure an additional VLAN attachment of 10 Gbps in the same region. Configure the on-premises router to advertise routes with the same multi-exit discriminator (MED).
- D. Configure Link Aggregation Control Protocol (LACP) on the on-premises router to use the 20-Gbps Dedicated Interconnect connection.
- E. Configure an additional VLAN attachment of 10 Gbps in another region. Configure the on-premises router to advertise routes with the same multi-exit discriminator (MED).

Answer: A,D

NEW QUESTION # 134

......

You only need 20-30 hours to learn Professional-Cloud-Network-Engineer exam torrent and prepare the Professional-Cloud-Network-Engineer exam. Many people, especially the in-service staff, are busy in their jobs, learning, family lives and other important things and have little time and energy to learn and prepare the Professional-Cloud-Network-Engineer exam. But if you buy our Professional-Cloud-Network-Engineer Test Torrent, you can invest your main energy on your most important thing and spare 1-2 hours each day to learn and prepare the exam. Our Professional-Cloud-Network-Engineer exam questions and answers are based on the real exam and conform to the popular trend in the candidates.

Google Professional-Cloud-Network-Engineer Latest Exam Question We are welcome you to contact us any time via email or online service, We provide one year free update for Professional-Cloud-Network-Engineer exam practice vce, Here, I want to say the contents of Professional-Cloud-Network-Engineer test dumps are the same, the difference between them are the format which can bring customer different experience, maybe the efficiency will be different, You will find the Professional-Cloud-Network-Engineer actual questions & answers are all the key questions, unlike other vendors offering the dumps with lots of useless questions, wasting the precious time of candidates.

A folder within a folder is called a subfolder, On the right are recommendations Professional-Cloud-Network-Engineer Valid Exam Testking generated based on the profile that I entered, We are welcome you to contact us any time via email or online service.

Complete Professional-Cloud-Network-Engineer Latest Exam Question & Leader in Qualification Exams & Newest Braindumps Professional-Cloud-Network-Engineer Downloads

We provide one year free update for Professional-Cloud-Network-Engineer Exam Practice vce, Here, I want to say the contents of Professional-Cloud-Network-Engineer test dumps are the same, the difference between them are the format Professional-Cloud-Network-Engineer which can bring customer different experience, maybe the efficiency will be different.

You will find the Professional-Cloud-Network-Engineer actual questions & answers are all the key questions, unlike other vendors offering the dumps with lots of useless questions, wasting the precious time of candidates.

This knowledge will be helpful to you in your professional life.
