We assure you that our company will provide customers with a sustainable update system.

Salesforce Certification Preparation for Advanced Administrator Sample Questions (Q167-Q172):

NEW QUESTION # 167
Ursa Major Solar has a training sandbox with 160MB of test data that needs to be refreshed every other day.
Which two sandboxes should be used in this instance?
Choose 2 answers

- A. Developer Pro
- B. Partial
- C. Developer
- D. Full

Answer: A,B

Explanation:
To create a training sandbox with 160MB of test data that needs to be refreshed every other day, NTO should use either Partial or Developer Pro sandboxes. Partial sandboxes have a storage limit of 10GB and can be refreshed every 5 days. Developer Pro sandboxes have a storage limit of 1GB and can be refreshed every day. Both sandboxes can include test data from production. Reference: https://help.salesforce.com/s/articleView?id=sf.data_sandbox_environments.htm&type=5

NEW QUESTION # 168
A previous consultant helped Universal Containers automate many of its business processes. The administrator changed the email address on the consultant's user record and deactivated it. The consultant called to say they continue to get email messages from failed flows and processes.
What steps should the administrator perform to stop the fault messages from going to the consultant?

- A. Create a custom metadata type and associate the LastModifiedBy field. Write a flow that updates the field in any flows or processes equal to the consultant's name.
- B. Request an Email Log from Email Log Files in Setup and filter the request by the consultant's email.
  Manually update any flows or processes listed on the log.
- C. Export Flow Interviews filtered by LastModifiedBy.email using Data Loader. In the .csv file, change LastModifiedBy to the System Admin and upload changes with Data Loader.
- D. Set Send Process or Flow Error Email' to Apex Exception Email Recipients' in Automation settings.
  Add the System Admin's email to the Apex Exception Email page in Setup.

Answer: D

Explanation:
This option will allow the administrator to change the recipient of the fault messages from the consultant's email to the system admin's email without modifying any flows or processes. The other options are either not feasible or not effective. References: https://help.salesforce.com/articleView?id=flow_concepts_error_email.htm&type=5

NEW QUESTION # 169
The Cloud Kicks security team has seen an increase in unattended device attacks, where hackers can view sensitive information when users leave devices unlocked in public settings. The security team wants to ensure Salesforce data cannot be viewed after 10 minutes of inactivity.
What is the recommended security setting to configure?

- A. Enforce login IP ranges on every request.
- B. Force logout on session timeout.
- C. Require a high assurance session.
- D. Lock sessions to the domain in which they were first used.

Answer: B

Explanation:
Force logout on session timeout is the recommended security setting to configure because it prevents users from resuming their sessions after they time out due to inactivity, which reduces the risk of unauthorized access to Salesforce data from unattended devices. Reference: https://help.salesforce.com/s/articleView?id=sf.security_sessions_logout.htm&type=5

NEW QUESTION # 170
A member of Universal Container's support team is assisting a sales rep in managing a top customer. The sales rep has manually shared an opportunity with the support member in hopes that the support member can update some of the technical sales fields on the record. But the support member is unable to edit the opportunity.
What is the recommended solution to provide edit access to the opportunity?

- A. Create a permission set for opportunity edit and add it to the support member's user record.
- B. Add the support team member to the opportunity team. Assign read/write access to the member.
- C. Change the support team member's role to a above the sales rep in the org's role hierarchy.
- D. Change the Organization Wide Default internal access for opportunity to public read/write.

Answer: A

NEW QUESTION # 171

A user with permissions to create price books wants to quickly create a new product with the same information as the existing product by cloning the product. What is an important consideration when cloning a product?

- A. Price book entries in price books that you don't have sharing access to are created.
- B. Price book entries will not be created in the standard price book.
- C. Price book entries need to be activated before users can use the new price book.
- D. Price book entries in price books that you don't have sharing access to aren't created.

Answer: C

NEW QUESTION # 172

......
