

# CPC인증시험덤프 - CPC최신버전시험대비자료

Itcertkr CPC 최신 PDF 버전 시험 문제집을 무료로 Google Drive에서 다운로드하세요: <https://drive.google.com/open?id=1mih1qUFxMkTmCtUKzaKU1Bztr0IBZ9M>

AAPC 인증CPC인증시험공부자료는Itcertkr에서 제공해드리는AAPC 인증CPC덤프가 가장 좋은 선택입니다. Itcertkr에서는 시험문제가 업데이트되면 덤프도 업데이트 진행하도록 최선을 다하여 업데이트서비스를 제공해드려 고객님께서 소유하신 덤프가 시장에서 가장 최신버전덤프로 되도록 보장하여 시험을 맞이할 수 있게 도와드립니다.

## AAPC CPC 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none"><li>Urinary System and Male Genital System: This section of the exam measures the skills of medical coders and assesses understanding of procedures on kidneys, bladder, ureters, prostate, and male reproductive organs. Proper use of CPT codes for surgical and diagnostic interventions is tested.</li></ul>
주제 2	<ul style="list-style-type: none"><li>Introduction to CPT®, HCPCS Level II, and Modifiers: This section of the exam measures the skills of coding specialists and introduces candidates to CPT® coding for procedures, HCPCS Level II for supplies and services, and the correct use of modifiers. It helps learners distinguish between different code sets and understand their place in medical billing.</li></ul>
주제 3	<ul style="list-style-type: none"><li>Anesthesia: This section of the exam measures the skills of medical coders and involves coding anesthesia services based on surgical site, complexity, and time. It tests the understanding of anesthesia modifiers and the importance of linking anesthesia codes with the correct primary procedures.</li></ul>
주제 4	<ul style="list-style-type: none"><li>Digestive System: This section of the exam measures the skills of coding specialists and evaluates the coding of surgeries and procedures involving the oral cavity, pharynx, esophagus, stomach, intestines, liver, pancreas, and related organs. Understanding endoscopic procedures is particularly critical here.</li></ul>
주제 5	<ul style="list-style-type: none"><li>Overview of ICD-10-CM: This section of the exam measures the skills of medical coders and introduces the structure, format, and usage of the ICD-10-CM coding system. It reviews the purpose of ICD-10-CM in diagnosis reporting and prepares candidates to interpret chapters, code ranges, and conventions embedded in the system.</li></ul>
주제 6	<ul style="list-style-type: none"><li>Integumentary System: This section of the exam measures the skills of medical coders and covers procedures related to the skin and related structures. Topics include excisions, biopsies, repairs, and destruction services, focusing on accurate code selection and modifier usage for integumentary interventions.</li></ul>

주제 7	<ul style="list-style-type: none"> <li>Female Reproductive System and Maternity Care &amp; Delivery: This section of the exam measures the skills of coding specialists and evaluates coding accuracy for gynecological and obstetric procedures. It includes deliveries, antepartum care, cesarean sections, and surgical procedures involving female reproductive anatomy.</li> </ul>
주제 8	<ul style="list-style-type: none"> <li>Pathology &amp; Laboratory: This section of the exam measures the skills of medical coders and includes lab tests, specimen analysis, and pathological examination procedures. It ensures that coders understand how to apply codes for chemistry panels, cultures, and histopathological diagnostics.</li> </ul>
주제 9	<ul style="list-style-type: none"> <li>Review of Anatomy: This section of the exam measures the skills of coding specialists and covers a high-level understanding of human anatomy. It includes organs, systems, directional terminology, and anatomical locations, enabling coders to link procedures and diagnoses to the correct bodily structures with accuracy and consistency.</li> </ul>
주제 10	<ul style="list-style-type: none"> <li>Radiology: This section of the exam measures the skills of coding specialists and focuses on diagnostic imaging procedures including X-rays, CT scans, MRIs, ultrasounds, and nuclear medicine. It emphasizes proper selection of codes based on anatomical site and modality used.</li> </ul>
주제 11	<ul style="list-style-type: none"> <li>Evaluation &amp; Management Services: This section of the exam measures the skills of coding specialists and covers office visits, hospital care, consultations, and other E</li> <li>M services. It tests the understanding of time-based coding, medical decision-making, and history</li> <li>exam components per current CMS guidelines.</li> </ul>

## 시험패스 가능한 CPC인증 시험덤프 덤프공부자료

AAPC CPC 덤프에 대한 자신감이 어디서 시작된것이냐고 물으신다면 AAPC CPC덤프를 구매하여 시험을 패스한 분들의 회소식에서 온다고 답해드리고 싶습니다. 저희AAPC CPC덤프는 자주 업데이트되고 오래된 문제는 바로 삭제해버리고 최신 문제들을 추가하여 고객님께 가장 정확한 덤프를 제공해드릴수 있도록 하고 있습니다.

### 최신 Certified Professional Coder CPC 무료샘플문제 (Q23-Q28):

#### 질문 # 23

An air bag deployed when a driver lost control of the car and crashed into a guardrail on the side of the highway. The driver suffers partial impact resulting in a skull fracture of the anterior cranial base. The fracture is diagnosed using the MRI scanner and cerebrospinal fluid is noted dripping via the sphenoid sinus into the right nasal passage. The patient requires a surgical nasal sinus endoscopy to assess and repair the injury.

What is the correct procedure and diagnosis coding combination to report this service?

- A. 31291, S02.19XA, V47.5XXA, Y92.411
- B. 31287, S02.19XA, V47.5XXA, Y92.411
- C. 31235, S02.91XA, V47.5XXA, Y92.411
- D. 31291, 31231-59, S02.109A, V47.5XXA, Y92.411

정답: A

#### 설명:

##### 1. Procedure and CPTCode Selection:

The patient requires a surgical nasal sinus endoscopy to repair a cerebrospinal fluid (CSF) leak caused by a skull fracture that resulted in CSF draining into the nasal passage.

Code 31291 is the correct CPTcode for an endoscopic repair of a cerebrospinal fluid leak in the sphenoid sinus. This procedure code is appropriate because it specifically addresses surgical endoscopy for CSF leak repair in the sinus region.

Other codes provided, such as 31287 (nasal/sinus endoscopy with balloon dilation) and 31235 (nasal endoscopy with biopsy), do not match the description for surgical repair of a CSF leak and are therefore inappropriate for this case.

##### 2. Diagnosis and ICD-10-CM Code Selection:

ICD-10-CM Code S02.19XA is used to describe a fracture of the anterior cranial base, which fits the described injury of the skull

with cerebrospinal fluid leakage.

External cause code V47.5XXA is used for motor vehicle accidents involving a car hitting a stationary object.

Y92.411 is the appropriate code to describe the location of the accident as a highway.

3. Exclusion of Additional Procedure Codes:

There is no need for a second endoscopy code or a modifier, as 31291 fully describes the endoscopic repair procedure for the CSF leak.

4. AAPC and CPT Coding Guidelines:

Per AAPC guidelines, procedure codes for sinus endoscopy are chosen based on the specific type of intervention (e.g., CSF leak repair). The guidelines for ICD-10-CM stress including external cause codes and location codes for trauma cases related to motor vehicle accidents.

Thus, the correct answer based on CPT and ICD-10-CM coding standards is B. 31291, S02.19XA, V47.5XXA, Y92.411.

#### 질문 # 24

A patient presents to the labor and delivery department for a planned cesarean section for triplets. She is at 37 weeks gestation. She is given a continuous epidural for the delivery.

What anesthesia coding is reported?

- A. 01967, 01968
- B. 01958
- C. 01967
- D. 01961

정답: A

#### 설명:

The patient presents for a planned cesarean section for triplets and receives continuous epidural anesthesia.

CPT code 01967 is used for neuraxial labor analgesia/anesthesia for planned vaginal delivery, and code 01968 is an add-on code for cesarean delivery following neuraxial labor analgesia/anesthesia. Since this is a planned cesarean section with triplets, both codes 01967 and 01968 are applicable. References: CPT Professional Edition (current year), AMA.

#### 질문 # 25

The gastroenterologist performs a simple excision of three external hemorrhoids and one internal hemorrhoid, each lying along the left lateral column. The operative report indicates that the internal hemorrhoid is not prolapsed and is outside of the anal canal.

What CPT and ICD-10CM codes are reported?

- A. 46320, 46945, K64.0, K64.9
- B. 46250, 46945, K64.0, K64.4
- C. 46255, K64.0, K64.4
- D. 46250, K64.0, K64.9

정답: C

#### 설명:

CPT code 46255 describes the excision of both internal and external hemorrhoids, which matches the procedure described. The ICD-10-CM codes K64.0 (First degree hemorrhoids) and K64.4 (Residual hemorrhoids) describe the conditions treated.

#### Reference:

AMA's CPT Professional Edition (current year), Code 46255

ICD-10-CM (current year), Codes K64.0, K64.4

#### 질문 # 26

A 5-year-old who has an allergy history experienced a possible reaction to peanuts. A quantitative, high-sensitive fluorescent enzyme immunoassay was used to measure specific IgE for recombinant peanut components. Results showed there was no reaction indicating the child has a peanut allergy.

What lab test is reported?

- A. 0

- B. 1
- C. 2
- D. 3

**정답: A**

**설명:**

For the quantitative, high-sensitive fluorescent enzyme immunoassay used to measure specific IgE for recombinant peanut components, the correct lab test code is 86003. This code is specific to quantitative allergen-specific IgE testing.

**질문 # 27**

View MR 099401

MR 099401

Established Patient Office Visit

Chief Complaint: Patient presents with bilateral thyroid nodules.

History of present illness: A 54-year-old patient is here for evaluation of bilateral thyroid nodules. Thyroid ultrasound was done last week which showed multiple thyroid masses likely due to multinodular goiter.

Patient stated that she can "feel" the nodules on the left side of her thyroid. Patient denies difficulty swallowing and she denies unexplained weight loss or gain. Patient does have a family history of thyroid cancer in her maternal grandmother. She gives no other problems at this time other than a palpable right-sided thyroid mass.

Review of Systems:

Constitutional: Negative for chills, fever, and unexpected weight change.

HENT: Negative for hearing loss, trouble swallowing and voice change.

Gastrointestinal: Negative for abdominal distention, abdominal pain, anal bleeding, blood in stool, constipation, diarrhea, nausea, rectal pain, and vomiting

Endocrine: Negative for cold Intolerance and heat intolerance.

Physical Exam:

Vitals: BP: 140/72, Pulse: 96, Resp: 16, Temp: 97.6 °F (36.4 °C), Temporal SpO2: 97% Weight: 89.8 kg (198 lbs ), Height: 165.1

cm (65") General Appearance: Alert, cooperative, in no acute distress Head: Normocephalic, without obvious abnormality,

atraumatic Throat: No oral lesions, no thrush, oral mucosa moist Neck: No adenopathy, supple, trachea midline, thyromegaly is

present, no carotid bruit, no JVD Lungs: Clear to auscultation, respirations regular, even, and unlabored Heart: Regular rhythm and

normal rate, normal S1 and S2, no murmur, no gallop, no rub, no click Lymph nodes: No palpable adenopathy

ASSESSMENT/PLAN:

1) Multinodular goiter - the patient will have a percutaneous biopsy performed (minor procedure).

What E/M code is reported for this encounter?

- A. 0
- B. 1
- C. 2
- D. 3

**정답: B**

**설명:**

The patient is an established patient presenting with bilateral thyroid nodules and has a detailed history and examination performed.

\* Procedure Description:

\* Detailed history and examination of bilateral thyroid nodules.

\* Review of systems and physical examination.

\* Assessment and plan for a percutaneous biopsy.

\* CPT Coding:

\* 99214: Office or other outpatient visit for the evaluation and management of an established patient, which requires a medically appropriate history and/or examination and moderate medical decision making.

References:

\* AMA's CPT Professional Edition (current year).

\* CPT Assistant for detailed coding guidelines on evaluation and management services.
