010-160 Valid Dumps Pdf & Lpi Training 010-160 Kit: Linux Essentials Certificate Exam - version 1.6 Exam Pass Once Try

You can imagine that you just need to pay a little money for our 010-160 exam prep, what you acquire is priceless. So it equals that you have made a worthwhile investment. Firstly, you will learn many useful knowledge and skills from our 010-160 Exam Guide, which is a valuable asset in your life. After all, no one can steal your knowledge. In addition, you can get the valuable 010-160 certificate.

Lpi Linux Essentials Certificate Exam - version 1.6 Sample Questions (Q59-Q64):

NEW QUESTION # 59

Which of the following commands creates an archive file work.tar from the contents of the directory ./work/?

- A. tar -create work.tgz -content ./work/
- B. tar work.tar < ./work/
- C. tar --new work.tar ./work/
- D. tar work > work.tar
- E. tar -cf work.tar ./work/

Answer: E

NEW QUESTION # 60

What is true about a recursive directory listing?

- A. It includes the permissions of the directory listed.
- B. It includes the content of sub-directories.
- C. It includes ownership information for the files.
- D. It includes a preview of content for each file in the directory.
- E. It includes details of file system internals, such as inodes.

Answer: B

NEW QUESTION # 61

Which of the following types of bus can connect hard disk drives with the motherboard?

- A. The CPU bus
- B. The NUMA bus
- C. The SATA bus
- D. The Auto bus
- E. The RAM bus

Answer: C

Explanation:

A bus is a communication system that transfers data between components inside a computer or between computers. There are different types of buses that serve different purposes. The RAM bus connects the CPU with the main memory, the NUMA bus connects multiple processors in a multiprocessor system, the CPU bus connects the CPU with other components on the motherboard, and the Auto bus is a fictional bus that can transform into a robot. The SATA bus is the correct answer because it is a type of bus that can connect hard disk drives with the motherboard. SATA stands for Serial Advanced Technology Attachment and it is a standard interface for connecting storage devices such as hard disk drives, solid state drives, and optical drives. SATA offers faster data transfer rates, lower power consumption, and improved cable management compared to older interfaces such as IDE and SCSI. Reference: : [Bus (computing)] : [Transformers: Robots in Disguise (2015 TV series)] : [Serial ATA]3) : [SATA vs. IDE: What's the Difference?]

NEW QUESTION # 62

Which of the following commands creates the ZIP archive poems.zip containing all files in the current directory whose names end in .txt?

- A. zcat *.txt poems.zip
- B. zip poems.zip *.txt
- C. cat *.txt | zip poems.zip
- D. zip *.txt > poems.zip
- E. zip cfz poems.zip *.txt

Answer: B

Explanation:

The zip command is used to create compressed archive files that can contain one or more files or directories. The zip command takes the name of the archive file as the first argument, followed by the names of the files or directories to be included in the archive. You can also use wildcards to match multiple files or directories with a common pattern. For example, the command zip poems.zip *.txt will create the ZIP archive poems.zip containing all files in the current directory whose names end in .txt. The other commands
