Salesforce Certified Field Service Consultant Sample Questions (Q75-Q80):

NEW QUESTION # 75

Universal Containers (UC) normally focuses on minimizing travel. Weather can cause situations that require expedited on-site service.

How should a Consultant recommend UC handle unplanned service during times of severe weather?

- A. Configure a new Service Level for immediate assignment.
- **B. Configure an Emergency Policy and use the Emergency Wizard.**
- C. Postpone all lower-priority jobs and extend Due Dates.
- D. Manually flag ServiceAppointments as "In Jeopardy" due to weather.

Answer: B

Explanation:

This option allows handling unplanned service during times of severe weather by creating a policy that overrides the existing scheduling policy and using a wizard to reschedule service appointments based on the emergency policy.

NEW QUESTION # 76

Universal Containers (UC) provides services to multiple machines installed at customer sites. Each machine has different issues that need to be fixed. UC wants to track progress, different parts used, and time spent on each machine when dispatching a Technician. How should the Consultant meet these requirements?

- A. Each Asset will have a Service Appointment that will represent the work needed for each machine.
- B. Work Orders will have multiple Service Appointments. Each Service Appointment will be linked to the Asset.
- C. Each Account will have a Service Appointment that will represent the work to be done at the customer site.
- **D. Work Orders will have multiple Work Order Line Items. Each Work Order Line Item will be linked to the Asset and have a Service Appointment.**

Answer: D

Explanation:

This option allows tracking the required work for each machine separately, and scheduling a service appointment for each work order line item. References:https://help.salesforce.com/s/articleView?id=sf.fs_work_order_line_items.htm&type=5

NEW QUESTION # 77

Universal Containers's Technicians may be assigned to Jobs with an arrival window to meet the customer appointment time preference. Technicians are also assigned to Jobs without a preferred appointment time.

In which two ways should the Consultant define Operating Hours to meet this requirement?

Choose 2 answers

- **A. When Service Resources are available for work**
- B. The Due Date of the Service Appointment
- **C. The Time Slots for Appointment Booking**
- D. The Maintenance Plan for the Account

Answer: A,C

Explanation:

Operating Hours define when service resources are available for work and when customers can book appointments. The Time Slots for Appointment Booking setting determines how operating hours are divided into time slots that can be assigned to service appointments. The Maintenance Plan for the Account or the Due Date of the Service Appointment do not affect operating hours, but are used to generate and schedule recurring work orders. NEW QUESTION # 78

Universal Containers plans to deploy field service lightning to 100 external contractors. There are 75 contractors who need access to work Orders assets mobile app, and chatter. the remaining 25 contractors are paid a commission on sales of containers and need to schedule resources.

Which license types and quantities should the consultant recommend?

- A. 100 contractors 100 contractors
- B. 25 contractors 100 contractors
- **C. 25 contractors 75 contractors 25 contractors**

Answer: C

Explanation:

Contractors are external users who can access Field Service features such as work orders, service appointments, assets, products consumed, etc... There are two types of contractor licenses available: Contractor (Full Access) and Contractor (Limited Access). Contractor (Full Access) licenses allow users to access all Field Service features except scheduling optimization. Contractor (Limited Access) licenses allow users to access only work orders assigned to them or their crew members via mobile app or web browser[22]. Universal Containers should deploy 25 Contractor (Full Access) licenses to contractors who need to schedule resources and 75 Contractor (Limited Access) licenses to contractors who need access to work orders, assets, mobile app, and chatter. NEW QUESTION # 79

Service resources at universal container UC frequently work in more than one serviceterritory the current scheduling policy looks only at primary territory while we still want to optimizer to use the service resource primary when scheduling, UC also wants the scheduling policy to look at the resources secondary services territory Which two scheduling policy changes should a consultant recommend?

Choose 2 answers

- A. Deselect working location primary on the working territories work rule
- B. Select working location enable primary on the working territories work rule
- C. Remove the match territory work rule
- D. Includes the match territory work rule

Answer: A,D

Explanation:

The match territory work rule is used to match service appointments to service resources based on their assigned territories. Deselecting working location primary on the working territories work rule allows considering secondary territories as well as primary territories when matching service appointments to service resources. Removing the match territory work rule would ignore territories when scheduling service appointments. Selecting working location enable primary on the working territories work rule would only consider primary territories when matching service appointments to service resources.
