BONUS!!! Download part of BraindumpsPass GH-900 dumps for free: <https://drive.google.com/open?id=1HW1KCOewtslOiyBXQxjnDd1WkTUhuoc>

You can get 365 days of free GH-900 real dumps updates and free demos. Save your time and money. Start Microsoft GH-900 exam preparation with GH-900 actual dumps. Our firm provides real, up-to-date, and expert-verified GitHub Foundations GH-900 Exam Questions. We make certain that consumers pass the GitHub Foundations GH-900 certification exam on their first attempt. Furthermore, we want you to trust the GitHub Foundations GH-900 practice questions that we created.

## Microsoft GH-900 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Benefits of the GitHub Community: This section targets Community Managers and Open Source Contributors, focusing on engaging with the GitHub community. Candidates learn to participate in open source projects, utilize GitHub Discussions for collaboration and support, and contribute meaningfully to community-driven projects.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Working with GitHub Repositories: This domain targets Repository Administrators and Content Managers, focusing on managing repository settings and permissions. Candidates learn to configure repositories, use templates, and effectively manage files by adding, editing, and deleting. The domain also addresses versioning of files and the use of GitHub Desktop for streamlined file management tasks within repositories.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Privacy, Security, and Administration: This domain measures skills of Security Administrators and Organization Managers in securing and administering GitHub environments. It covers ensuring repository security through branch protection rules, using security tools like Dependabot, managing access and permissions at repository and organization levels, creating and managing organizations, setting up organization-level security, and overseeing teams and members.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Project Management: This section is designed for Project Coordinators and Product Managers and focuses on using GitHub Projects for project management. Candidates learn to create and manage GitHub Projects, utilize project boards for organizing tasks, and integrate project workflows with issues and pull requests to maintain project visibility and progress.</li> </ul>

Topic 5	<ul style="list-style-type: none"> <li>• Modern Development: This domain assesses abilities of DevOps Engineers and Continuous Integration Specialists in implementing modern development practices. It emphasizes understanding DevOps principles and leveraging GitHub Actions for automation and CI</li> <li>• CD pipeline implementation. Candidates also learn GitHub's tools and best practices for conducting and managing code reviews.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Introduction to Git and GitHub: This section of the exam measures skills of Junior Developers and Platform Support Specialists and covers the basic understanding of Git and GitHub. It explains what Git is and why it is used, the fundamental Git workflow, and concepts related to repositories including their local and remote distinctions. Candidates learn essential Git commands such as initializing and cloning repositories, adding and committing changes, pushing and pulling updates, and branching and merging. It also covers navigating GitHub by creating accounts, managing repositories, understanding its interface, and working with issues and pull requests.</li> </ul>

## Microsoft GH-900 Valid Test Tutorial, GH-900 Test Testking

It is the time for you to earn a well-respected Microsoft certification to gain a competitive advantage in the IT job market. As we all know, it is not an easy thing to gain the GH-900 certification. What's about the GH-900 pdf dumps provided by BraindumpsPass. Your knowledge range will be broadened and your personal skills will be enhanced by using the GH-900 free pdf torrent, then you will be brave and confident to face the GH-900 actual test.

## Microsoft GitHub Foundations Sample Questions (Q51-Q56):

### NEW QUESTION # 51

Where should a repository admin navigate to view pre-built visualizations from repository data?

- A. Insights
- B. Issues
- C. Settings
- D. Charts

**Answer: A**

Explanation:

GitHub provides repository admins with a feature called "Insights" where they can view various pre-built visualizations and analytics related to the repository.

Insights:

Option C is correct because the "Insights" tab in a GitHub repository offers various pre-built visualizations, including contributions, traffic, code frequency, dependency graphs, and more. This helps admins and maintainers track the project's activity and health.

Other Options:

Option A (Settings) is incorrect because the Settings tab is where you configure repository settings, permissions, and integrations, but it does not provide visualizations of repository data.

Option B (Issues) is incorrect because the Issues tab is used for tracking bugs, enhancements, and other tasks but does not provide data visualizations.

Option D (Charts) is incorrect as there is no "Charts" tab or section in GitHub. The correct location for data visualizations is under "Insights." Reference:

GitHub Docs: Viewing Repository Insights

### NEW QUESTION # 52

Which of the following GitHub syntax formats is consistent with the associated text?

- A. This is a link
- B. 1. This is an ordered list
- C. <!-- This is a comment -->

- D. This is bolded text
- E. \* This is a heading

**Answer: C**

Explanation:

GitHub supports various syntax formats that align with Markdown and HTML conventions. Here's a breakdown of the provided options:

Comment Syntax:

Option C is correct. The syntax `<!-- This is a comment -->` is used in Markdown files to insert comments. These comments will not be rendered in the final output, making them useful for adding notes or instructions within the code or documentation.

Incorrect Options:

Option A (\* This is a heading) is incorrect because an asterisk (\*) denotes an unordered list item, not a heading. A heading in Markdown is typically created with one or more hash symbols (#).

Option B (This is a link) is incorrect because this is plain text and not the syntax for creating a link. The correct syntax would be `[This is a link](URL)`.

Option D (This is bolded text) is incorrect because this is plain text, not the correct Markdown syntax for bold text, which should be `**This is bolded text**` or `__This is bolded text__`.

Option E (1. This is an ordered list) is incorrect as it does represent an ordered list item, but it was not the syntax format asked about in the question. The question specifically focuses on matching associated text with syntax, where only the comment option is correct.

GitHub Flavored Markdown (GFM)

GitHub Docs: Basic writing and formatting syntax

### NEW QUESTION # 53

Which of the following information is available by default in a user's GitHub profile?

- A. A list of the user's private repositories
- B. Email address and password
- **C. Personal biography and profile picture**
- D. Public Secure Shell Protocol (SSH) keys

**Answer: C**

Explanation:

A user's GitHub profile typically includes public information such as a personal biography, profile picture, and a list of public repositories. More sensitive information, like email addresses and passwords, is not publicly displayed.

Personal Biography and Profile Picture:

Option A is correct because these are standard elements displayed on a user's public GitHub profile. This information is meant to provide a brief introduction to the user and their interests or skills.

Incorrect Options:

Option B is incorrect because public SSH keys may be associated with a user's account but are not displayed by default on the profile page.

Option C is incorrect because private repositories are not listed on a public profile.

Option D is incorrect because a user's email address and password are private information and not displayed on their public profile.

GitHub Docs: Managing Your Profile

### NEW QUESTION # 54

Which mechanisms can you use to personalize Codespaces for your account? (Choose two.)

- A. IDE plug-ins
- B. operating system
- C. branch protections
- **D. settings sync**
- **E. dotfiles**
- F. devcontainer

**Answer: D,E**

Explanation:

Personalizing GitHub Codespaces for your account

You can personalize GitHub Codespaces by using a dotfiles repository on GitHub or by using Settings Sync.

<https://docs.github.com/en/codespaces/setting-your-user-preferences/personalizing-github-codespaces-for-your-account>

### NEW QUESTION # 55

GitHub Copilot leverages an AI model trained using:

- A. public, internal, and private repositories in your GitHub organization.
- B. public and internal repositories in your GitHub organization.
- C. public GitHub repositories.
- D. code samples from online forums.

**Answer: C**

Explanation:

GitHub Copilot is powered by generative AI models developed by GitHub, OpenAI, and Microsoft.

It has been trained on natural language text and source code from publicly available sources, including code in public repositories on GitHub.
