Our web-based practice test is accessible from anywhere with an internet connection, which means you can take it at your convenience. This Oracle 1Z0-1123-25 Practice Test is designed to simulate the actual exam and help you become familiar with the test format. You can access the web-based practice exam from anywhere with an internet connection to study on the go or from the comfort of your own home. You can receive your mock exam result instantly.

Oracle 1Z0-1123-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Design and Implement Migrations Using Oracle Cloud VMware Solution (OCVS): This section measures the skills of VMware Cloud Engineers in migrating on-premises VMware environments to OCI. It covers source discovery to assess existing infrastructure, designing the target OCVS environment, and understanding migration prerequisites. Candidates will also explore Hybrid Cloud Extension as a tool for seamless migration and integration between VMware workloads and OCI.
Topic 2	<ul style="list-style-type: none">Migrate Containerized Applications to OCI: This section evaluates the expertise of Cloud DevOps Engineers in migrating containerized applications to Oracle Cloud Infrastructure. It introduces the fundamentals of OCI Container Engine for Kubernetes and Oracle Cloud Infrastructure Registry. Candidates will learn the key phases involved in migrating containerized workloads and ensuring proper orchestration and scaling within the OCI ecosystem.
Topic 3	<ul style="list-style-type: none">Fundamentals of Cloud Migrations: This section of the exam measures the skills of Cloud Migration Engineers in understanding the core principles of cloud migrations. It covers the key drivers behind cloud adoption, the benefits of moving to Oracle Cloud Infrastructure (OCI), and the challenges businesses may face during migration. Candidates will gain insights into the different migration strategies and methodologies used to ensure seamless transitions from on-premises environments to the cloud.

1Z0-1123-25 Reliable Exam Simulator | Exam 1Z0-1123-25 Details

After you purchase our 1Z0-1123-25 exam guide is you can download the test bank you have bought immediately. You only need 20-30 hours to learn and prepare for the 1Z0-1123-25 exam, because it is enough for you to grasp all content of our 1Z0-1123-25 study materials, and the passing rate of our 1Z0-1123-25 Exam Questions is very high and about 98%-100%. Our latest 1Z0-1123-25 quiz torrent provides 3 versions and you can choose the most suitable one for you to learn. All in all, there are many merits

of our 1Z0-1123-25 quiz prep.

Oracle Cloud Infrastructure 2025 Migration Architect Professional Sample Questions (Q48-Q53):

NEW QUESTION # 48

What is a valid purpose for creating multiple Migration Plans for each Migration Project in Oracle Cloud Migrations?

- A. To create a backup from the existing Migration Plan, as a precautionary measure against misconfiguration
- B. To validate different compute shapes for each VM ensuring the most effective configuration can be chosen
- C. To incrementally increase the allocated budget for each Migration Plan
- D. To accelerate the migration task by assigning each Migration Plan to the respective migration team

Answer: B

Explanation:

Creating multiple Migration Plans for each Migration Project allows for the validation of different compute shapes for each VM. This ensures that the most effective configuration can be chosen based on the specific requirements of each workload, leading to optimized performance and resource utilization in the Oracle Cloud Migration.

NEW QUESTION # 49

You plan to use Oracle Zero Downtime Migration to perform offline or online migration of Oracle databases, where the migration method type may be Physical or Logical. Which three migration methods does Oracle Zero Downtime Migration provide?

- A. Remote Cloning
- B. OCI Golden Gate
- C. Data Pump
- D. Unplug and Plug Database
- E. Data Guard

Answer: C,D,E

Explanation:

Data Pump, Unplug and Plug Database, and Data Guard are all valid migration methods provided by Oracle Zero Downtime Migration, which allows for the migration of Oracle databases with minimal downtime.

NEW QUESTION # 50

You are a migration architect responsible for migrating 100 TB of on-premises data to Oracle Cloud Infrastructure (OCI). Because of limited bandwidth and security concerns, transferring the data over the public Internet is not feasible. Which OCI service would you recommend to efficiently transfer the large volume of on-premises data to OCI while ensuring data security?

- A. Data Transfer Service
- B. Data Integration
- C. Snowball
- D. Storage Gateway

Answer: A

Explanation:

Data Transfer Service in OCI is specifically designed for efficiently transferring large volumes of data to OCI while ensuring data security. It provides high-speed data transfer over dedicated network connections, making it the ideal choice for migrating 100 TB of on-premises data to OCI.

NEW QUESTION # 51

Which two can help you perform logical online migration to Oracle Autonomous Database?

- A. Oracle Enterprise Manager Migration Workbench

- B. OCI Database Migration
- C. Oracle SQL Developer
- D. Oracle Golden Gate

Answer: C,D

Explanation:

Oracle Golden Gate and Oracle SQL Developer can assist with logical online migration to Oracle Autonomous Database. Golden Gate provides real-time data replication, while SQL Developer offers schema and data migration capabilities.

NEW QUESTION # 52

You have been tasked with provisioning an Oracle Cloud Infrastructure Container Engine for Kubernetes (OKE) cluster to deploy new applications and manage existing ones. Which two statements are FALSE?

- A. To access the cluster using kubectl, you have to set up a Kubernetes configuration file stored in the \$HOME/.kube directory
- B. The only available option when a cluster's Kubernetes API endpoint has a public IP address is to control the cluster locally using kubectl and the Kubernetes Dashboard
- C. To access the cluster using kubectl, you have to set up a Kubernetes manifest file stored in the \$HOME/.manifest directory
- D. When a cluster's Kubernetes API endpoint has a public IP address, you can access the cluster in Cloud Shell by setting up a kubeconfig file

Answer: B,C

Explanation:

Setting up a Kubernetes manifest file in the \$HOME/.manifest directory is not a standard practice for accessing a Kubernetes cluster using kubectl. Manifest files are used to define and manage Kubernetes resources, such as pods, deployments, and services, but they are not used for configuring access to the cluster.

While controlling the cluster locally using kubectl and the Kubernetes Dashboard is one way to interact with a cluster, it is not the only available option when a cluster's Kubernetes API endpoint has a public IP address. You can also access and manage the cluster remotely using kubectl from any environment that has network connectivity to the cluster.

NEW QUESTION # 53

.....

With 1Z0-1123-25 study tool, you no longer need to look at a drowsy textbook. You do not need to study day and night. With 1Z0-1123-25 learning dumps, you only need to spend 20-30 hours on studying, and then you can easily pass the exam. At the same time, the language in 1Z0-1123-25 test question is very simple and easy to understand. Even if you are a newcomer who has just entered the industry, you can learn all the knowledge points without any obstacles. We believe that 1Z0-1123-25 Study Tool will make you fall in love with learning. Come and buy it now.
