Once you ensure your grasp on the 312-85 Questions and answers, evaluate your learning solving the 312-85 practice tests provided by our testing engine. This innovative facility provides you a number of practice questions and answers and highlights the weak points in your learning. You can improve the weak areas before taking the actual test and thus brighten your chances of passing the exam with an excellent score. Moreover, doing these practice tests will impart you knowledge of the actual exam format and develop your command over it.

The CTIA certification exam is an essential certification for professionals who want to demonstrate their expertise in the field of threat intelligence analysis. Certified Threat Intelligence Analyst certification exam covers various topics such as threat intelligence analysis, threat modeling, threat assessment, and threat communication. Certified Threat Intelligence Analyst certification demonstrates that the candidate is committed to staying up-to-date with the latest developments in the field of cybersecurity and is dedicated to providing the best services to their clients.

ECCouncil 312-85: Certified Threat Intelligence Analyst exam is an essential certification for professionals in the cybersecurity industry. Certified Threat Intelligence Analyst certification equips individuals with the skills and knowledge necessary to identify and respond to cyber threats in real-time. Certified Threat Intelligence Analyst certification covers a wide range of topics, including threat intelligence, data analysis, threat modeling, and threat hunting. Certified Threat Intelligence Analyst certification is essential for professionals who are responsible for safeguarding their organization's critical information and data assets.

Quiz Reliable 312-85 - Latest Certified Threat Intelligence Analyst Exam Fee

These features enable you to study real 312-85 questions in PDF anywhere. Prep4pass also updates its questions bank in Certified Threat Intelligence Analyst (312-85) PDF according to updates in the ECCouncil 312-85 Real Exam syllabus. These offers by Prep4pass save your time and money. Buy Certified Threat Intelligence Analyst (312-85) practice material today.

ECCouncil Certified Threat Intelligence Analyst Sample Questions (Q43-Q48):

NEW QUESTION # 43
Tracy works as a CISO in a large multinational company. She consumes threat intelligence to understand the changing trends of cyber security. She requires intelligence to understand the current business trends and make appropriate decisions regarding new technologies, security budget, improvement of processes, and staff. The intelligence helps her in minimizing business risks and protecting the new technology and business initiatives.
Identify the type of threat intelligence consumer is Tracy.

- A. Operational users
- B. Technical users
- C. Strategic users

- D. Tactical users

Answer: C

NEW QUESTION # 44
Michael, a threat analyst at an organization named TechTop, was asked to conduct a cyber-threat intelligence analysis. After obtaining information regarding threats, he started analyzing the information and understanding the nature of the threats.
What stage of cyber-threat intelligence is Michael currently in?

- A. Unknown unknowns
- B. Unknown knowns
- C. Known unknowns
- D. Known knowns

Answer: D

Explanation:
The stage described involves analyzing gathered information and understanding known threats. This aligns with the Known Knowns stage.
Known Knowns represent threats that have already been identified, understood, and documented. Analysts in this stage work with existing data to refine and interpret known indicators or threat actor behaviors.
Why the Other Options Are Incorrect:
* Unknown unknowns: Threats that are entirely unknown and undetectable with current knowledge.
* Known unknowns: Threats suspected to exist but not yet clearly identified.
* Unknown knowns: Information that exists but has not been analyzed or recognized as relevant.
Conclusion:
Michael is analyzing existing and understood threat data, placing him in the Known Knowns stage of cyber- threat intelligence.
Final Answer: D. Known knowns
Explanation Reference (Based on CTIA Study Concepts):
In the CTIA framework, known knowns refer to threats that are fully understood and documented, forming the basis for structured analysis.

NEW QUESTION # 45
Bob, a threat analyst, works in an organization named TechTop. He was asked to collect intelligence to fulfil the needs and requirements of the Red Tam present within the organization.
Which of the following are the needs of a RedTeam?

- A. Intelligence extracted latest attacks analysis on similar organizations, which includes details about latest threats and TTPs
- B. Intelligence that reveals risks related to various strategic business decisions
- C. Intelligence on latest vulnerabilities, threat actors, and their tactics, techniques, and procedures (TTPs)
- D. Intelligence related to increased attacks targeting a particular software or operating system vulnerability

Answer: C

NEW QUESTION # 46
During the process of threat intelligence analysis, John, a threat analyst, successfully extracted an indication of adversary's information, such as Modus operandi, tools, communication channels, and forensics evasion strategies used by adversaries.
Identify the type of threat intelligence analysis is performed by John.

- A. Technical threat intelligence analysis
- B. Strategic threat intelligence analysis
- C. Operational threat intelligence analysis
- D. Tactical threat intelligence analysis

Answer: D

Explanation:
Tactical threat intelligence analysis focuses on the immediate, technical indicators of threats, such as the tactics, techniques, and

procedures (TTPs) used by adversaries, their communication channels, the tools and software they utilize, and their strategies for evading forensic analysis. This type of analysis is crucial for operational defenses and is used by security teams to adjust their defenses against current threats. Since John successfully extracted information related to the adversaries' modus operandi, tools, communication channels, and evasion strategies, he is performing tactical threat intelligence analysis. This differs from strategic and operational threat intelligence, which focus on broader trends and specific operations, respectively, and from technical threat intelligence, which deals with technical indicators like malware signatures and IPs.

NEW QUESTION # 47
Alison, an analyst in an XYZ organization, wants to retrieve information about a company's website from the time of its inception as well as the removed information from the target website.
What should Alison do to get the information he needs.

- A. Alison should use https://archive.org to extract the required website information.
- B. Alison should use SmartWhois to extract the required website information.
- C. Alison should run the Web Data Extractor tool to extract the required website information.
- D. Alison should recover cached pages of the website from the Google search engine cache to extract the required website information.

Answer: A

Explanation:
To retrieve historical information about a company's website, including content that may have been removed or altered, Alison should use the Internet Archive's Wayback Machine, accessible at https://archive.org. The Wayback Machine is a digital archive of the World Wide Web and other information on the Internet, providing free access to snapshots of websites at various points in time. This tool is invaluable for researchers and analysts looking to understand the evolution of a website or recover lost information.
