We will give you our software which is a clickable website that you can visit the product page. Red box marked in our AB-730 exam practice is demo; you can download PDF version for free, and you can click all three formats to see.

Microsoft AI Business Professional Sample Questions (Q34-Q39):

NEW QUESTION # 34

You need to access Microsoft 365 Copilot from a web browser. Which URL should you use?

- A. <https://myaccount.microsoft.com>
- B. <https://myapps.microsoft.com>
- C. <https://m365.cloud.microsoft>
- D. <https://copilotstudio.microsoft.com>

Answer: C

Explanation:

Microsoft 365 Copilot can be accessed via its dedicated web experience for enterprise users. The correct web entry point for

Microsoft 365 Copilot is <https://m365.cloud.microsoft>, which provides authenticated access to Copilot features within the Microsoft 365 environment.

This URL routes users into the Microsoft 365 ecosystem where Copilot integrates with organizational data such as SharePoint, OneDrive, Teams, and Outlook. It ensures that users are authenticated through Microsoft Entra ID and that access controls are enforced according to tenant policies.

Option B refers to Copilot Studio, which is used to build and manage custom copilots and agents rather than access the Microsoft 365 Copilot chat experience. Option C (My Apps) is a general application launcher portal. Option D is an incorrect account management URL and does not provide Copilot access.

Therefore, to access Microsoft 365 Copilot from a web browser, the correct URL is <https://m365.cloud.microsoft>.

NEW QUESTION # 35

You are a business user who uses Microsoft 365 apps and services, including Microsoft Teams. You have a work account.

You want to use Microsoft 365 Copilot to help with meetings.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 36

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION # 37

You create a Microsoft 365 Copilot notebook and add a file named Process.docx from a local folder. Yesterday, you updated Process.docx in the local folder. What will occur when you chat in the notebook?

- A. The chat will reference the most recent version of Process.docx.
- **B. The chat will reference only the original version of Process.docx.**
- C. The chat will reference both versions of Process.docx.

Answer: B

Explanation:

Microsoft 365 Copilot notebooks use the version of a file that was uploaded or attached at the time it was added to the notebook. When a document such as Process.docx is added from a local folder, Copilot references that uploaded snapshot of the file. If the file is later modified locally, the notebook does not automatically sync or refresh with the updated local version unless the updated file is re-uploaded.

Microsoft guidance on grounding and file references explains that Copilot works with the specific content stored in Microsoft 365 or the attached artifact within the notebook session. Since the updated version remains in the local folder and was not reattached, Copilot continues to use the originally added version.

Therefore, during subsequent chats in the notebook, Copilot references only the original uploaded version of Process.docx.

NEW QUESTION # 38

You sign in to the Microsoft 365 Copilot app by using your work account as shown in the following exhibit

A colleague tells you that when they open the Microsoft 365 Copilot app, they have access to the Researcher agent. You need to access to the Researcher agent.

What should you do?

- A. Sign in to the Copilot app by using a personal account

- B. Select Explore agents and then search for Researcher.
- C. From Microsoft Edge, use your work account to sign in to <https://copilot.microsoft.com>.
- D. Request a Microsoft 365 Copilot license from an administrator.

Answer: B

Explanation:

In Microsoft 365 Copilot, agents such as Researcher are accessed through the Agents experience within the Copilot app. If the user interface does not immediately display a specific agent, the correct action is to browse or search the available agents catalog. The exhibit shows the left navigation pane with an Explore agents option.

According to Microsoft AI Business Professional guidance, built-in and custom agents can be discovered and enabled through the Explore agents section. If the user already has the appropriate Copilot license and is signed in with their work account, there is no need to switch accounts or request another license.

Signing in through a browser does not change feature availability, and using a personal account would remove access to organizational features. Therefore, to access the Researcher agent, you should select Explore agents and search for Researcher.

NEW QUESTION # 39

.....

To pass the hard AI Business Professional AB-730 exam on the first try, you must invest more time, effort, and money. To pass the AI Business Professional AB-730 Exam, you must have the right AB-730 Exam Dumps, which are quite hard to get online. Get it right away to begin preparing. The following file types are available: AI Business Professional AB-730 Dumps PDF file, and Practice test software for AB-730 and web-based practise test software for AI Business Professional AB-730 Exams.
