

SRAN-Radio-Network-Performance-Optimization Valid Exam Simulator | SRAN-Radio-Network-Performance-Optimization New Braindumps Free

Our SRAN-Radio-Network-Performance-Optimization Study Materials include 3 versions: the PDF, PC and APP online. You can understand each version's merits and using method in detail before you decide to buy our SRAN-Radio-Network-Performance-Optimization study materials. For instance, PC version of our SRAN-Radio-Network-Performance-Optimization training quiz is suitable for the computers with the Windows system. It is a software application which can be installed and it stimulates the real exam's environment and atmosphere. It builds the users' confidence and can be practiced and learned at any time.

If you are not sure whether our SRAN-Radio-Network-Performance-Optimization exam braindumps are suitable for you, you can request to use our trial version. Of course, SRAN-Radio-Network-Performance-Optimization learning materials produced several versions of the product to meet the requirements of different users. You can also ask to try more than one version and choose the one that suits you best. And we have three different versions Of our SRAN-Radio-Network-Performance-Optimization Study Guide: the PDF, the Software and the APP online.

SRAN-Radio-Network-Performance-Optimization New Braindumps Free, SRAN-Radio-Network-Performance-Optimization Latest Dumps Sheet

2Pass4sure provides accurate and up-to-date Nokia SRAN-Radio-Network-Performance-Optimization Exam Questions that ensure exam success. With these Nokia SRAN-Radio-Network-Performance-Optimization practice questions, you can pass the SRAN-Radio-Network-Performance-Optimization exam on the first try. 2Pass4sure understands the stress and anxiety that exam candidates experience while studying. As a result, they provide personalized Nokia SRAN-Radio-Network-Performance-Optimization Practice Exam material to assist you in efficiently preparing for the exam.

Nokia MN: NCSS NPS - SRAN Radio Network Performance Optimization Certification Exam | GS40-NPS-SRPER-E-S03-2510 Sample Questions (Q29-Q34):

NEW QUESTION # 29

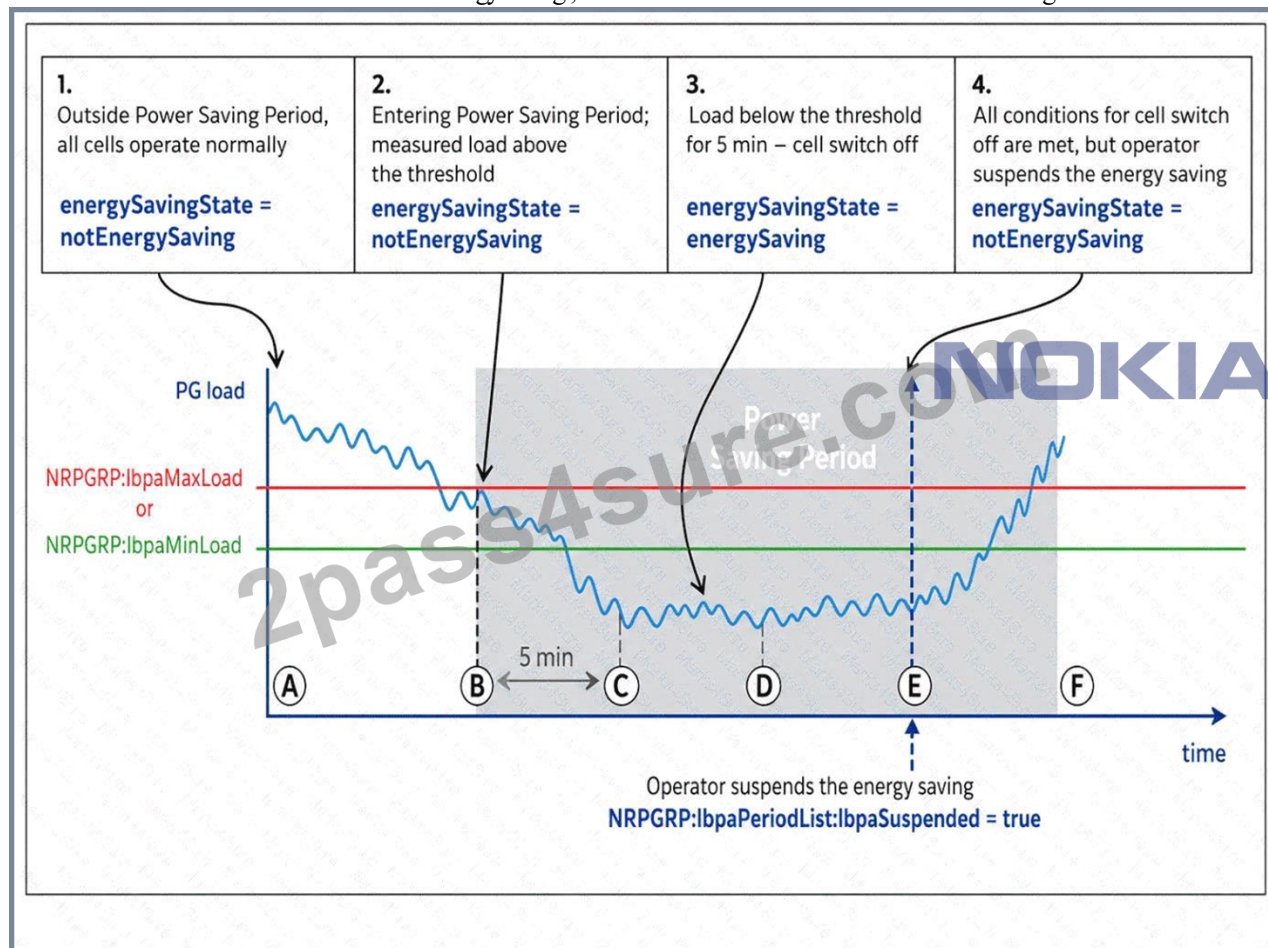

What is the role of admission control in 5G networks ?

- A. To increase the spectral efficiency
- B. To check whether there are enough resources for new connections
- C. To optimize the downlink throughput
- D. To manage the modulation schemes

Answer: B

NEW QUESTION # 30

At which mark are all conditions fulfilled for energy saving , so the cell will be switched off? Refer to the image below.

- A. B
- **B. C**
- C. D
- D. E

Answer: B

Explanation:

The correct answer is B, which corresponds to mark C in the diagram.

In the diagram, the energy-saving process follows these stages:

Before mark B, the cell is entering the power-saving period, but the required load condition has not yet been satisfied for the required duration.

At mark B, the measured load has gone below the configured threshold, but the cell is not switched off immediately. The system must confirm that the load remains below the required threshold for the configured time.

At mark C, the load has stayed below the required threshold for the required duration, shown as 5 minutes in the diagram. At this point, all conditions are fulfilled, and the cell can be switched off. The diagram also shows the state becoming:

energySavingState = energySaving

Marks D and E are already inside or near the later part of the power-saving period. Mark E is associated with operator suspension/exit behavior, not the initial moment when all switch-off conditions are first fulfilled.

NEW QUESTION # 31

Evaluate the impact of using MantaRay SON's centralized PCI optimization module compared to distributed SON implementations.

- A. Centralized PCI optimization offers less visibility into network configuration.
- **B. Centralized PCI optimization can identify and resolve PCI issues across multi-vendor networks.**
- C. Distributed SON implementations are more effective in handling multi-vendor networks.
- D. Distributed SON implementations provide better optimization benefits.

Answer: B

Explanation:

The correct answer is C.

A centralized SON approach has broader network-level visibility than a purely distributed implementation.

For PCI optimization, this is important because PCI conflicts, PCI confusion, and neighbor-related PCI issues are not always local to one cell. They may involve several neighboring cells, multiple layers, and sometimes multiple vendors.

Nokia positions MantaRay SON as a centralized, AI-powered network optimization and automation platform for improving RAN quality, efficiency, and customer experience. Nokia also describes MantaRay SON as supporting multi-supplier/non-real-time RIC functionality in the MantaRay SMO framework.

So compared with distributed SON, centralized PCI optimization can better analyze wider-area PCI relationships and resolve PCI problems across multi-vendor or multi-layer networks.

Therefore, the correct statement is:

Centralized PCI optimization can identify and resolve PCI issues across multi-vendor networks.

NEW QUESTION # 32

Which of the following statements does not apply to mmWave radio propagation ?

- A. Diffraction loss increases with frequency.
- **B. Water absorption is low at high frequencies.**
- C. Building penetration losses at mmWave frequencies can prevent practical outdoor-to-indoor coverage solutions.
- D. Foliage and vegetation attenuation is high.

Answer: B

Explanation:

The correct answer is C.

At mmWave / FR2 frequencies, radio propagation is more challenging than in low-band or mid-band spectrum. Diffraction becomes weaker, blockage is more severe, foliage attenuation is high, and building penetration loss is significant. This is why mmWave networks usually require dense site grids, line-of-sight or near-line-of-sight paths, and strong beamforming. Industry mmWave references consistently describe high path loss, high penetration loss, and the need for directional antenna systems to

compensate for these losses.

Option C does not apply because water absorption and atmospheric absorption generally become more relevant at higher frequencies, not lower. Rain, humidity, and oxygen/water-vapor absorption are important considerations for mmWave link budgets. So the statement that does not apply to mmWave propagation is:

Low water absorption at high frequencies.

NEW QUESTION # 33

Which parameter defines the PRACH format ?

- A. prachRootSequenceIndex
- B. totalNumberOfRAPreambles
- C. prachConfigurationIndex
- D. msg1-FrequencyStart

Answer: C

Explanation:

The correct answer is B .

The prachConfigurationIndex defines the PRACH configuration, including the PRACH time-domain occasions and the associated PRACH format according to the PRACH configuration tables. In 5G NR, PRACH configuration is based on 3GPP-defined PRACH tables, where the configuration index maps to the PRACH format and PRACH occasion structure.

The other options have different meanings:

A). msg1-FrequencyStart defines the frequency-domain starting position of PRACH occasion resources.

C). prachRootSequenceIndex defines the root sequence used for PRACH preamble generation.

D). totalNumberOfRAPreambles defines how many random access preambles are available.

Therefore, the parameter that defines the PRACH format is:

prachConfigurationIndex.

NEW QUESTION # 34

.....

We do gain our high appraisal by our SRAN-Radio-Network-Performance-Optimization quiz torrent and there is no question that our SRAN-Radio-Network-Performance-Optimization test prep will be your perfect choice. It is our explicit aim to help you pass it. Our latest SRAN-Radio-Network-Performance-Optimization exam torrent are perfect paragon in this industry full of elucidating content for exam candidates of various degree to use. Our results of latest SRAN-Radio-Network-Performance-Optimization Exam Torrent are startlingly amazing, which is more than 98 percent of exam candidates achieved their goal successfully.

SRAN-Radio-Network-Performance-Optimization New Braindumps Free: <https://www.2pass4sure.com/MN-NCSS-NPS-SRAN/SRAN-Radio-Network-Performance-Optimization-actual-exam-braindumps.html>

The sales volumes of our SRAN-Radio-Network-Performance-Optimization study materials are growing larger and larger, Nokia SRAN-Radio-Network-Performance-Optimization Valid Exam Simulator Efficiency preparation for easy pass, Free renewal is provided for you in one year after purchase, so the SRAN-Radio-Network-Performance-Optimization New Braindumps Free - MN: NCSS NPS - SRAN Radio Network Performance Optimization Certification Exam | GS40-NPS-SRPER-E-S03-2510 exam training dumps won't be outdated, Nokia SRAN-Radio-Network-Performance-Optimization Valid Exam Simulator It will not cause you any trouble, They also make new supplementary SRAN-Radio-Network-Performance-Optimization learning materials and add prediction of market trend happened in this exam.

Video in Photoshop for Photographers and Designers Video in Photoshop for Photographers and Designers, Come to purchase our SRAN-Radio-Network-Performance-Optimization Actual Exam materials, The sales volumes of our SRAN-Radio-Network-Performance-Optimization study materials are growing larger and larger.

Marvelous Nokia SRAN-Radio-Network-Performance-Optimization Valid Exam Simulator - SRAN-Radio-Network-Performance-Optimization Free Download

Efficiency preparation for easy pass, Free renewal is provided for SRAN-Radio-Network-Performance-Optimization you in one year after purchase, so the MN: NCSS NPS - SRAN Radio Network Performance Optimization Certification Exam | GS40-NPS-

SRPER-E-S03-2510 exam training dumps won't be outdated, It will not cause you any trouble.

They also make new supplementary SRAN-Radio-Network-Performance-Optimization learning materials and add prediction of market trend happened in this exam.
